

CBER: Screenshots of communications on vaccines, including reference to age and gender

<https://www.fda.gov/biologicsbloodvaccines/vaccines/default.htm>

The screenshot shows the FDA website page for Vaccines. The main heading is "Vaccines". Below the heading are social media sharing options (SHARE, TWEET, LINKEDIN, PIN IT, EMAIL, PRINT). The main content area contains a paragraph explaining that vaccines undergo a rigorous review of laboratory and clinical data to ensure safety, efficacy, purity, and potency. It also mentions that approved vaccines may undergo additional studies. Below this is another paragraph stating that the Centers for Disease Control and Prevention (CDC) have reduced preventable infectious diseases. The bottom paragraph states that the Center for Biologics Evaluation and Research (CBER) regulates vaccine products, many of which are childhood vaccines. To the left, there are navigation menus for "Vaccines", "Questions about Vaccines", "Approved Products", and "Resources for You". The "Resources for You" menu includes links for Consumers (Biologics), Healthcare Providers (Biologics), Industry (Biologics), and About the Center for Biologics Evaluation and Research (CBER). To the right, there are sections for "Recalls & Alerts", "Approvals & Clearances", "Related Information", and "Contact FDA". The "Recalls & Alerts" section lists "Recalls (Biologics)", "CBER-Regulated Products: Shortages and Discontinuations", and "Report a Problem to the Center for Biologics Evaluation & Research". The "Approvals & Clearances" section lists "Biologics Products & Establishments". The "Related Information" section lists "Vaccines and Related Biological Products Advisory Committee", "Vaccine and Related Biological Product Guidances", "Vaccine Notices, Proposed and Final Rules", and "Vaccines Research". The "Contact FDA" section provides the phone number (800) 835-4709, (240) 402-8010, and the email address ocod@fda.hhs.gov. The footer of the page indicates the date and time as 9:30 AM on 4/24/2018.

<https://www.fda.gov/BiologicsBloodVaccines/ResourcesforYou/Consumers/default.htm>

The screenshot shows the FDA website page for Consumers (Biologics). The main heading is "Consumers (Biologics)". Below the heading are social media sharing options (SHARE, TWEET, LINKEDIN, PIN IT, EMAIL, PRINT). The main content area contains a paragraph explaining that biological products include a wide range of products such as vaccines, blood and blood components, allergens, somatic cells, gene therapy, tissues, and recombinant therapeutic proteins. Below this are three sections: "Blood & Blood Products", "Tissue & Tissue Products", and "Vaccines". The "Blood & Blood Products" section lists "Questions about Blood", "Have You Given Blood Lately?", and "Keeping Blood Transfusions Safe: FDA's Multi-layered Protections for Donated Blood". The "Tissue & Tissue Products" section lists "Cord Blood Banking - Information for Consumers", "Questions about Tissues", and "Frequently Asked Questions About Tissue Transplants (Centers for Disease Control and Prevention)". The "Vaccines" section lists "Vaccines for Children - A Guide for Parents and Caregivers" and "FDA Webinar on Protecting Your Child's Health Through Safe and". To the left, there are navigation menus for "Consumers (Biologics)", "Resources for You", and "About the Center for Biologics Evaluation and Research (CBER)". The "Resources for You" menu includes links for Healthcare Providers (Biologics), Industry (Biologics), About the Center for Biologics Evaluation and Research (CBER), and Contacts in the Center for Biologics Evaluation & Research (CBER). To the right, there are sections for "Spotlight", "Recalls & Alerts", "Approvals & Clearances", and "Contact FDA". The "Spotlight" section lists "Impact of Severe Weather Conditions on Biological Products" and "For Consumers". The "Recalls & Alerts" section lists "Recalls (Biologics)", "CBER-Regulated Products: Shortages and Discontinuations", and "Report a Problem to the Center for Biologics Evaluation & Research". The "Approvals & Clearances" section lists "Biologics Products & Establishments". The "Contact FDA" section provides the phone number (800) 835-4709, (240) 402-8010, and the email address ocod@fda.hhs.gov. The footer of the page indicates the date and time as 10:07 AM on 4/24/2018.

<https://www.fda.gov/BiologicsBloodVaccines/SafetyAvailability/VaccineSafety/ucm110288.htm>

The screenshot shows a web browser window displaying the FDA website. The address bar shows the URL: <https://www.fda.gov/BiologicsBloodVaccines/Safety/Availability/Vaccine>. The page is titled "Influenza Virus Vaccine Safety & Availability" under the "Vaccines, Blood & Biologics" section. The content includes a "Resources for You" sidebar with links to Consumers (Biologics), Healthcare Providers (Biologics), Industry (Biologics), and About the Center for Biologics Evaluation and Research (CBER). The main text explains that Influenza, also known as the flu, is a contagious respiratory disease caused by influenza viruses. It notes that a yearly influenza vaccine can prevent illness and death, and that individuals 6 months of age and older should get the vaccine every year. The text also mentions that Influenza vaccine can be given to most individuals 6 months of age and older to protect against influenza.

<https://www.fda.gov/BiologicsBloodVaccines/Vaccines/QuestionsaboutVaccines/ucm070418.htm>

The screenshot shows a web browser window displaying the FDA website. The address bar shows the URL: <https://www.fda.gov/BiologicsBloodVaccines/Vaccines/QuestionsaboutVaccines/ucm070418.htm>. The page is titled "Zostavax (Herpes Zoster Vaccine) Questions and Answers" under the "Vaccines, Blood & Biologics" section. The content includes a "Resources for You" sidebar with links to Consumers (Biologics), Healthcare Providers (Biologics), Industry (Biologics), and About the Center for Biologics Evaluation and Research (CBER). The main text explains that Zostavax is an FDA licensed vaccine that helps to reduce the risk of getting herpes zoster (shingles) in individuals 50 years of age and older. It lists two questions: "Questions about Herpes Zoster and Zostavax" and "Questions about Adverse Side Effects and Who Should Not be Immunized". The text also includes a section titled "Questions about Herpes Zoster and Zostavax" with the sub-heading "What is herpes zoster (shingles) and how commonly does it occur?". The text explains that anyone who has had chicken pox is at risk of developing shingles, and that it is estimated that 1 million or more cases occur each year in the United States.
