Methodological Advances in Evaluating Abuse Deterrent Opioid Analgesics
Pharmacist Survey Email Invitation

Email subject: Action Requested: Survey on Abuse-deterrent Formulation Opioids

Email body:

Dear Pharmacist,

On behalf of the U.S. Food and Drug Administration, researchers from University of Kentucky Colleges of Pharmacy and Public Health are conducting a survey to collect information and opinions related to the dispensing of abuse-deterrent formulation opioid analgesics. As a licensed pharmacist with the authority to dispense controlled substances in the state of Kentucky, you are receiving this email invitation to participate in the survey. We hope you will consider completing the survey as the information that you provide may help us better understand how abuse-deterrent formulation opioids are being utilized in practice. This is an anonymous survey using an encrypted website. Your email address will not be captured nor used in any way and you will not be contacted regarding your answers to this survey. The survey should take approximately 10 minutes to complete.

The survey can be accessed at the following link:

Thank you for considering the request to complete this survey.
