

Attachment B-6: Proxy Survey Protocol
Test Predictability of Falls Screening Tools

- Original respondent gets survey Day 1 of Month 1 (reporting on Month 0) and can complete from Day 1 to Day 30/31.
 - If no response after 2 weeks (Day 15), the *proxy* is contacted. Proxy has from Day 15 of Month 1 to Day 14 of Month 2 to complete survey (referencing Month 0).
- Day 1 of Month 2, *original* respondent contacted again, this time to report on Month 1.
 - If they don't respond, proxy is contacted on Day 15 to report on Month 1.
- Note: If during proxy period, the original respondent participates (days 15 - 30/31), then drop any responses from or prompts to proxy.
- If proxy completes 4 surveys in a row, drop original respondent from next rounds, however, include original respondent in final survey.
 - Proxy instrument includes question to ask proxy to report on falls for any prior month that has not been collected.
