SUB AGENCY (I/C): HHS/AHRQ

**TITLE: : Stakeholder Interviews for Task 1 of AHRQ's SPPC-II Contract (RFTOP
#17-233-SOL-00520)**

GENERIC CLEARANCE UNDER OMB#: EXP. DATE:

ABSTRACT:

The Armstrong Institute at Johns Hopkins University (JHU) was awarded a 10 month contract with AHRQ to develop a plan that will integrate key components of AHRQ's Safety Program in Perinatal Care (SPPC-I) Program with HRSA's Alliance for Innovation on Maternal Health (AIM) Program. This will involve preliminary or exploratory work through stakeholder interviews, facilitating small stakeholder panel discussions, and pretesting materials, such as toolkits to better understand how to build contract deliverables (including implementation plan, evaluation plan and field test plan). The purpose of the stakeholder interviews is to gain a deep understanding about the barriers and challenges related to the uptake of the AIM and SPPC programs from key stakeholder groups. Information gained from the stakeholder interviews will provide insights into stakeholder perceptions, experiences and expectations, and focus attention on areas where communication, training and changes can improve the delivery of AHRQ's SPPC program.
