

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

<p>DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i></p>	
<p>The DHS Privacy Office finds that the Application for Registration as United States Registered Pilot Form represents a privacy sensitive collection of information. The Form collects contact and license information from individuals in order to compare their mariner credentials and qualifications against the eligibility requirements for providing registered pilotage on the Great Lakes. A Privacy Act Statement outlining the authorities, reason for collection, and uses of information is provided on the form. PIA coverage is provided by DHS/USCG/PIA-015 Merchant Mariner Licensing and Documentation System, which assess the use of PII from members of the public as part of its effort to manage the issuance of credentials to Merchant Mariners and process merchant mariner applications; produce merchant mariner credentials; and track merchant mariner credentials issued by the Coast Guard. SORN coverage is provided by DHS/USCG-006 Great Lakes Registered Pilot and Applicant Pilot Eligibility, which outlines the Coast Guard’s collection of information in order to assist USCG in meeting its statutory obligation to establish, regulate, and oversee the operations of a pilotage system on the Great Lakes, to maintain records of individuals who are registered as Great Lakes pilots to perform pilotage duties aboard foreign trade vessels on the Great Lakes, and to maintain applications of mariners seeking registration as a Great Lakes pilot.</p>
