

RE: OMB Collection 1660-0002, Disaster Assistance Registration

Change Request for FEMA Form 009-0-1T

Expiration Date: 11/30/2017

Individuals and Households Program (IHP), has explored alternative inspections methods, such as geospatial inspections and desktop inspections, in order to deliver assistance efficiently. As a result, many applicants will not receive a traditional on-site inspection, where applicants would normally sign the FEMA Form 009-0-3, Declaration and Release prior to receiving IHP Assistance.

The information from FEMA Form 009-0-3 has been added to the Disaster Assistance Registration Privacy Act Screen. This will require the applicant to certify their acknowledgment of the terms in Declaration and Release 009-0-3 in lieu of a signature, as they previously accepted the Privacy Act Notice and Declaration of Eligibility under penalty of perjury.
