## Appendix F

Item Library for NAEP 2018 \& 2019 Survey Questionnaires

OMB\# 1850-0928 v. 6

This Appendix F provides the library of possible items to be used in the NAEP 2018 and 2019 questionnaires. Non-substantive wording changes to the questionnaire items (based on ongoing and future cognitive and pilot testing results), if any will be made, along with the final selection of which items will be used in the final versions of the NAEP 2018 and 2019 questionnaires (future Appendix I), will be submitted to OMB for approval as a non-substantive change request by October 2017 for NAEP 2018 and by October 2018 for NAEP 2019. The number of items selected for each type of respondent will be appropriate to the allocated time (as indicated in the Supporting Statement Part A section A.12).

The Appendix is structured by respondent type: student, teacher, and then school. For each respondent, a table is included to help define what components are included in the library, when each component will be administered (2018 and/or 2019), which parts of this Appendix comprise each component, and the source of the content of each Appendix part (e.g., whether it was apporved as part of Appendix F in OMB\# 1850-0928 v.1, Appendix J in OMB\# 1850-0928 v.4, or is new).

For the Appendix parts that are a combination of previously administered items and new items, a table is included detailing the revisions, additions, and deletions from the last administration. Note, this only applies to Appendix parts for the student and school questionnaires; the teacher questionnaires do not have any Appendix parts that are the combination of previously administered items and new items.
Note, given that some of the previous administrations were from paper-and-pencil assessments and others were from digitally-based assessments, the item-level directions are not consistent (i.e., some items indicate to "fill in one oval" while others indicate to "select one answer choice" or "select one circle"). The final item-level directions that will be used in NAEP 2018-2019 will be appropriate to the mode of the testing, as indicated in Part A.12.

## Appendix F-1i: 2018 Pilot Grade 12 Mathematics

Grade 12 specific items

1. Which courses have you taken from eighth grade to the present? If you have taken a course more than once, give the most recent year you took it. INCLUDE courses taken in summer school, but DO NOT INCLUDE topics that were only taught as part of a longer course (such as trigonometry taught in drafting class or computer programming taught in Algebra II). Select one answer choice on each row.

|  | I have never taken this course. | I took this course in or before Grade 8. | I took this course in Grade 9. | I took this course in Grade 10. | I took this course in Grade 11. | I took this course in Grade 12. |  |

8. Are you currently taking a mathematics course?
(A) Yes
(B) No

## Items previously cleared at Grade 8 and proposed for Grade 12

1. For school this year, how often have you been asked to write long answers (several sentences or paragraphs) to questions on tests or assignments that involved math?
(4) Never
(B) Once
© Two or three times
(D) Four or five times
(E) More than five times
2. For school this year, how often do you work in pairs or small groups to talk about something that you have done in math?
(A) Never
(B) About once or twice a year
© About once or twice a month
(D) About once or twice a week
(E) Every day or almost every day
3. How often do you use a computer or other digital device (excluding handheld calculators) for math at school?
(A) Never
(B) About once or twice a year
© About once or twice a month
(D) About once or twice a week
(®) Every day or almost every day
4. How often do you receive help or tutoring with math outside of school or after school?
(A) Never
(B) About once or twice a year
© About once or twice a month
(1) About once or twice a week
© Every day or almost every day
5. In your math class this year, how often have you used the following types of calculators? Select one answer choice on each row.

|  | Never or hardly ever | Less than half of the time | About half of the time | More than half of the time | All or almost all of the time |  |

7. In this school year, how often have you used a computer or other digital device (excluding handheld calculators) to complete your math assignments?
(4) Never
(B) About once or twice a year
© About once or twice a month
(D) About once or twice a week
(®) Every day or almost every day
8. In this school year, how often have you used a computer or other digital device (excluding handheld calculators) to look online for resources for help with your math assignments?
(A) Never
(B) About once or twice a year
© About once or twice a month
(D) About once or twice a week
(E) Every day or almost every day
9. In this school year, how often have you used a computer or other digital device (excluding handheld calculators) to take an online practice test?
(4) Never
(B) Once
© Two or three times
(D) Four or five times
(E) More than five times
10. How often do you use math in everyday life outside of school?
(A) Never
(B) About once or twice a year
© About once or twice a month
(1) About once or twice a week
(E) Every day or almost every day
11. How often do you participate in each of the following activities outside of school? Select one answer choice on each row.

## Appendix F-1n: 2015 Operational Grade 12 Science

This section has 23 questions. Mark your answers in your booklet. Fill in only one oval for each question except where instructed otherwise.

1. Which courses have you taken from eighth grade to the present?

If you have taken a course more than once, give the most recent year you took it. Fill in one oval on each line. INCLUDE courses taken in summer school, but DO NOT INCLUDE topics that were only taught as part of a longer course.

|  | Course not taken | I took this course in Grade 8 | I took this course in Grade 9 | I took this course in Grade 10 | I took this course in Grade 11 | I am taking or have taken this course in Grade 12 |  |

3. Are you currently enrolled in or have you taken any online science courses for high school or college credit?
(A) Yes
(B) No
4. Are you currently enrolled in or have you taken an Advanced Placement course in science? Fill in ovals for all that apply.
(A) Yes, I am enrolled in or have taken Advanced Placement Biology.
(B) Yes, I am enrolled in or have taken Advanced Placement Environmental Science.
© Yes, I am enrolled in or have taken Advanced Placement Chemistry.
(D) Yes, I am enrolled in or have taken Advanced Placement Physics B or C.
© Yes, I am enrolled in or have taken Advanced Placement Computer Science A or AB.
© No, I have never taken an Advanced Placement science course.
5. Please indicate how much you DISAGREE or AGREE with the following statements about science. Fill in one oval on each line.

|  | Strongly disagree | Disagree | Agree | Strongly agree |  |

## Student Questionnaire - Technology and Engineering Literacy

The following questions are about your views and experiences related to technology and engineering.

Technology refers to all the things people make and do to their natural environment in order to get the things they want and need.

Engineering refers to using skills or knowledge to solve problems that meet people's wants and needs.

Some questions ask for facts while other questions ask for your opinions. Read each question carefully, and pick the answer you think is best.

5. Have you been awarded tenure by the school, district, or diocese where you currently teach?
(4) Yes
(B) No
© My school, district, or diocese does not award tenure.
6. Do you hold a regular or standard certificate that is valid in the state in which you are currently teaching?
(A) Yes, I hold a permanent certificate.
(B) Yes, I hold a temporary certificate. (This type of certificate may require additional coursework, student teaching, etc.)
© No, but I am currently working toward certification.
(D) No, and I am not planning to obtain certification.
7. Did you enter teaching through an alternative route to certification program?
(An alternative route to certification program is a program that was designed to expedite the transition of non-teachers to a teaching career, for example, a state, district, or university alternative route to certification program.)
(A) Yes
(B) No
8. Are you certified by the National Board for Professional Teaching Standards in at least one content area?
(The National Board for Professional Teaching Standards is a nongovernmental organization that administers National Board certification, a voluntary national assessment program that certifies teachers who meet high professional standards. In order to gain certification, the candidate must at least complete a portfolio of classroom practice and pass one or more tests of content knowledge.)
© Yes, I am fully certified by the National Board for Professional Teaching Standards.
(B) I am working towards my National Board certification.

## Appendix F-2i: 2017 Operational Grade 8 Reading (COI)

1. Which best describes your role in teaching English/language arts to this class? Language arts refers to reading, writing, literature, and related topics. Select one circle.
(A) I do not teach English/language arts to this class. Questions 2-12 are not applicable and will be skipped.
(B) I teach all or most subjects, including English/language arts.
© The only subject I teach is English/language arts.
(®) We team teach, and I have primary responsibility for teaching English/language arts.
2. How many students are in this class? Enter the number of students.

3. In a typical week, about how much time in total do you spend with one of your eighth-grade English/language arts classes? Enter the hours and minutes.
hours and $\qquad$ minutes per week
4. Which best describes how English/language arts instruction is organized for eighth-grade students at this school? Select one circle.
(A) English/language arts is taught primarily as a discrete subject with little or no integration with instruction in other subjects.
(B) Some English/language arts instruction is integrated with other subjects, and some English/language arts instruction is presented as a discrete subject.
© English/language arts lessons are primarily integrated with instruction in other subjects.
5. To what extent have you provided instruction in the following in English/language arts class so far this year? Select one circle in each row.

18. In your mathematics classes this year, how often did you encourage your students to participate in mathematics activities outside of school?
(4) Never
(B) About once or twice a year
© About once or twice a month
(D) About once or twice a week
(E) Every day or almost every day
19. In this school year, how many times did you provide direct opportunities for your students to participate in mathematics activities outside of school?
(A) Never
(B) Once
© Two or three times
(D) Four or five times
(®) More than five times

## Appendix F-2m: 2015 Operational Grade 4 Science (COI)

The following questions ask about the organization of your classroom for science instruction. If you teach more than one fourth-grade class, please choose a single class to use as the basis for answering the questions about classroom organization.

1. Which best describes your role in teaching science to this class? Select one circle.
(A) I do not teach science to this class.
(B) I teach all or most subjects, including science.
© The only subject I teach is science.
(1) We team teach, and I have primary responsibility for teaching science.
2. How many students are in this class?
(A) 15 or fewer
(B) 16-18
(c) 19-20
(D) 21-25
(ㄹ) 26-30
() 31-35
(6) 36 or more
3. In a typical week, how much time do you spend teaching science to the students in this class? Enter the hours and minutes.
$\qquad$ hours and $\qquad$ minutes per week
4. Are students assigned to this class by achievement level?
(A) Yes
(B) No
5. To what extent do you use each of the following student groupings for science instruction in your classroom? Select one circle in each row.

|  | Not at all | Small extent | Moderate extent | Large extent |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

Appendix F-20: 2015 Operational Grade 8 Science (COI)

The following questions ask about the organization of your classroom for science instruction. If you teach more than one eighth-grade class, please choose a single class to use as the basis for answering the questions about classroom organization.

1. Which best describes your role in teaching science to this class? Select one circle.
(A) I do not teach science to this class.
(B) I teach all or most subjects, including science.
© The only subject I teach is science.
(1) We team teach, and I have primary responsibility for teaching science.
2. How many students are in this class?
(A) 15 or fewer
(B) 16-18
(c) 19-20
(1) 21-25
(E) 26-30
(c) 31-35
(6) 36 or more
3. In a typical week, how much time do you spend teaching science to the students in this class? Enter the hours and minutes.
$\qquad$ hours and $\qquad$ minutes per week
4. Are students assigned to this class by achievement level?
(4) Yes
(B) No
5. To what extent do you use each of the following student groupings for science instruction in your classroom? Select one circle in each row.

|  | Not at all | Small extent | Moderate extent | Large extent |  |

b. Please do not write any comments near the answer boxes.
c. If you are unsure about how to answer a question, please give the best answer you can rather than leaving it blank.
d. If you have any questions, call the U.S. Census Bureau at 1-888-595-1338. Someone will be available to take your call Monday through Friday, between 8:00 a.m. and 8:00 p.m. (Eastern Time). The U.S. Census Bureau is also available to answer your questions via e-mail at: ntps@census.gov.

Teachers who teach in multiple schools: Please respond to questions as they apply to the school where you received this questionnaire.

Grades K-12 and comparable ungraded levels. This survey focuses on schools offering any of grades K-12 or comparable ungraded levels at the elementary, middle, or secondary level. The term "ungraded levels" refers to schools that classify students by an alternative means other than particular grade levels (e.g., Kindergarten, 1st grade, 2nd grade, etc.).

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. $\S 9573$ and 6 U.S.C. §151).

## Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is $1850-0598$. The time required to complete this information collection is estimated to average 40 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this collection, or comments or concerns about the contents or the status of your individual submission of this questionnaire, please e-mail: ntps@census.gov, or write directly to: National Teacher and Principal Survey (NTPS), National Center for Education Statistics, Potomac Center Plaza, 550 12th Street, SW, Room 4014, Washington, DC 20202.

3. Approximately what percentage of students in this year's graduating class has enrolled in an English/language arts academic course for dual credit taught at the following locations? Select one circle in each row.
(Dual credit is defined for this survey as a course or program where high school students can earn both high school and postsecondary credits for the same courses. Postsecondary institutions include public and private 2- or 4-year colleges or universities, community colleges, and technical or vocational schools. The dual credit options must either be legislated by your state or have an articulated or formal written agreement between your school and a postsecondary institution. Do NOT include Advanced Placement and International Baccalaureate ${ }^{\circledR}$ courses.)

| f. Instructional strategies for teaching English/language arts | (4) | (B) | © | (1) | VH26002 |

Questions 2-5 ask about reading specialists and literacy coaches.
Reading specialists provide additional instructional support to students and have special expertise in assessing and diagnosing students' reading strengths and needs.

Literacy coaches work with teachers to help them implement and use strategies to improve their students' ability to read and write in their classes.

In some schools, a single person may serve in both roles regardless of the title they have. Please answer questions $2-5$ based on the roles as defined in this paragraph.
2. Is there a reading specialist available (full- or part-time) to eighth-grade students at your school?
(A) Yes, available full-time to eighth-grade students
(B) Yes, available part-time to eighth-grade students
© No Question 3 is not applicable and will be skipped.

Please note: (1) If a grade 8 item is selected for use at grade 12 and "eighth" is referenced in the item the item will be revised to say "twelfth". (2) Some grade 8 items may not be included in the grade 12 pilot if they do not perform well in the 2017 pilot.

## Operational items previously cleared at Grade 8 and proposed for Grade 12 (Not under review)

1. In your school, approximately what percentage of eighth-grade students enroll in more than one mathematics class in a year (including summer school or two-block classes) for remediation or to catch up a grade level? Do not include students who receive additional mathematics instruction as part of special education or because of IEP provisions.
(A) $0-10 \%$
(B) 11-20\%
© 21-30\%
(1) 31-40\%
(B) 41-50\%
(®) More than $50 \%$
2. This year, how many teachers are teaching mathematics in your school? Enter the number of teachers.

3. In this school year, what percentage of students have gone to other schools (neighboring middle school, high school, or college) to receive mathematics instruction?
(A) 0-10\%
(B) 11-20\%
© 21-30\%
(D) 31-40\%
(E) 41-50\%
(®) More than 50\%
4. To what extent does your school provide up-to-date technology resources for mathematics teaching and learning?
(A) Not at all
(B) Small extent
(c) Moderate extent
(D) Large extent

Questions 5 and 6 ask about mathematics coaches.
Mathematics resource teachers provide additional instructional support to students and have special expertise in assessing and diagnosing students' mathematics strengths and needs to assist with learning and understanding.

Mathematics coaches work with teachers to help them implement and use strategies to improve their students' ability to use mathematics in their classes.

In some schools, a single person may serve in both roles regardless of the title they have. Please answer questions 5 and 6 based on the roles as defined in this paragraph.
5. Is there a mathematics coach available (full- or part-time) to eighth-grade teachers at your school?
(A) Yes, available full-time to eighth-grade teachers
(B) Yes, available part-time to eighth-grade teachers

7. Approximately what percentage of their instructional time are English/language arts teachers in your school expected to devote to each of the following when teaching writing to 12 th grade students? Fill in integer numbers between $\mathbf{1}$ and 100 on each corresponding row so that the total sums up to 100 . If there is no specific expectation for a particular topic, enter $\mathbf{0}$ for that row.

Development of ideas $\qquad$ \%

Organization of ideas $\qquad$ \%

Effectiveness of expression (e.g., sentence variety, word choice, tone) $\qquad$ \%

Mechanics and conventions (e.g., spelling, grammar, punctuation) $\qquad$ \%

Word processing skills $\qquad$ \%

8. Which of the following best describes the keyboarding skills expected of English/language arts teachers in your school?
(A) There is no specific expectation around this in my school.
(B) Hunt and peck typing/Two-finger typing
© Basic touch-typing
(D) Rapid and accurate touch-typing
9. Approximately how many of the English/language arts teachers in your school meet the expectations regarding their keyboarding skills?
(A) None
(B) Very few teachers
© Some but less than half of the teachers
(D) About half of the teachers
(E) More than half of the teachers
() All or almost all teachers
10. Approximately what percentage of the English/language arts teachers in your school meet the expectations regarding their keyboarding skills?

11. Which of the following best describes the word processing skills expected of English/language arts teachers in your school?
(A) There is no specific expectation around this in my school.
(B) Basic skills

## School Questionnaire - Technology and Engineering Literacy

The following questions are about your school's characteristics and policies related to technology and engineering.

Technology refers to all the things people make and do to their natural environment in order to get the things they want and need.

Engineering refers to using skills or knowledge to solve problems that meet people's wants and needs.

Throughout the questionnaire, unless otherwise specified, please consider and include technology and engineering topics and instruction that occur in technology- or engineeringspecific courses as well as other courses (for example, science, geography, art).

1. In your school, prior to or in eighth grade, what percentage of eighth-grade students receive instruction in each of the following topics? Select one circle in each row.

|  | None: Not included in the curriculum | $\begin{aligned} & \text { Under } \\ & \mathbf{1 0 \%} \end{aligned}$ | 10-25\% | 26-50\% | 51-75\% | Over 75\% |  |

# PRINCIPAL QUESTIONNAIRE NATIONAL TEACHER AND PRINCIPAL SURVEY 2017-18 SCHOOL YEAR 

(Please correct any errors in name, address, and ZIP Code.)
THIS SURVEY HAS BEEN ENDORSED BY:

Please return your completed questionnaire in the pre-addressed, postage-paid envelope or mail it to:
U.S. CENSUS BUREAU

ATTN: DCB/PCSPU, BUILDING 60A
1201 E. 10TH STREET
JEFFERSONVILLE, IN 47132-0001

The National Center for Education Statistics (NCES), within the U.S. Department of Education, is authorized to conduct this survey by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543).

- What is the average student-teacher ratio in the United States?
- What is the average salary of a beginning principal?
- Have teachers' views of their autonomy in the classroom changed over time?
- Have the characteristics of the principal and teacher workforces in the United States changed over time?

The answers to these questions help school districts and policy makers at the state, federal, and local levels set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of Principals and Teachers.

By selecting a statistically representative sample of schools, and teachers in those schools, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2017-18 National Teacher and Principal Survey. You will represent thousands of other principals, so it is important that you respond to this survey.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

U.S. CENSUS BUREAU

ATTN: DCB/PCSPU, BUILDING 60A
1201 E. 10TH STREET
JEFFERSONVILLE, IN 47132-0001

The National Center for Education Statistics (NCES), within the U.S. Department of Education, is authorized to conduct this survey by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. §9543).

- What is the average student-teacher ratio in the United States?
- What is the average salary of a beginning principal?
- Have teachers' views of their autonomy in the classroom changed over time?
- Have the characteristics of the principal and teacher workforces in the United States changed over time?

The answers to these questions help school districts and policy makers at the state, federal, and local levels set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of Principals and Teachers.

By selecting a statistically representative sample of schools, and teachers in those schools, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2017-18 National Teacher and Principal Survey. You will represent thousands of other schools, so it is important that you respond to this survey.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

More information can be found on our website: http://nces.ed.gov/surveys/ntps

## INSTRUCTIONS

The data you enter on this form will be captured through the use of imaging technology. Please print all information clearly in ordinary characters, using a blue or black ballpoint pen.

a. This questionnaire may be completed by any staff member who has access to the school's records.
b. Please do not write any comments by the answer boxes.
c. If you are unsure about how to answer a question, please give the best answer you can rather than leaving it blank.
d. If you have any questions, call the U.S. Census Bureau at 1-888-595-1338. Someone will be available to take your call Monday through Friday, between 8:00 a.m. and 8:00 p.m. (Eastern Time). The U.S. Census Bureau is also available to answer your questions via e-mail at: ntps@census.gov.
