

Abstract: The PSTAP Assessment Survey will be used by VA to assess how the TAP training for Transitioning Servicemembers (TSMs) prepares Veterans for civilian life. This new information collection request (ICR) will be conducted once per year and is designed as a longitudinal survey. In the first year of data collection, the survey will be fielded to all Veterans who meet the criteria at the time of fielding of having separated from the military at six months, one year, and three years prior to the date that surveys (first mailing will solicit electronic responses) will be mailed. Civilian life readiness will measure domains of a TSM's life including employment, entrepreneurship, mental/physical health, social relationships, financial situation, and housing. In addition, the survey will assess if TSMs understand and utilize their available VA benefits, and which TAP curriculum modules (tracks) are the most and least useful. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 83 FR 34 on February 20, 2018, page 7300.

SUPPLEMENTARY INFORMATION:

Authority: 38 U.S.C. 1705, 1710B, 1722A, 1729.

Title: Application for Extended Care Services.

OMB Control Number: 2900-0629.

Type of Review: Renewal of a currently approved collection.

Abstract: Title 38 U.S.C. Chapter 17 authorizes VA to provide hospital care, medical services, domiciliary care and nursing home care to eligible Veterans. Title 38 U.S.C. 1705 requires VA to design, establish and operate a system of annual patient enrollment in accordance with a series of stipulated priorities. A consequence of this is that many groups of Veterans who are in a lower priority group (WWI Veterans, Veterans with disabilities rated as 0% service-connected seeking treatment for other than their service-connected conditions, Veterans exposed to a toxic substance, radiation, or environmental hazard and

nonservice-connected Veterans) may request that they be allowed to be income tested in order to gain a higher priority. Title 38 U.S.C. 1722 establishes eligibility assessment procedures for cost-free VA medical care, based on income levels, which will determine whether nonservice-connected and 0% service-connected non-compensable Veterans are able to defray the necessary expenses of care for nonservice-connected conditions. Title 38 U.S.C. 1722A establishes the eligibility assessment procedures, based on income levels, for determining Veterans' eligibility for cost-free medications and Title 38 U.S.C. 1710B defines the procedures for establishing eligibility for cost-free Extended Care benefits. Title 38 U.S.C. 1729 authorizes VA to recover from Veterans' health insurance carriers the cost of care furnished for their nonservice-connected conditions.

VA Form 10-10EC, Application for Extended Care Services, is used to collect financial information necessary to determine a Veteran's copayment obligation for extended care services, also known as long term care (LTC).
