The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)? If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

For the nationwide online survey, we plan to use a combination of several (7) different opt-in panels that are available to reach the broadest distribution of Americans possible. Each panel will be monitored to ensure a single panel does not dominate the full survey sample, as each panel has its own built-in biases (i.e., too male, an emphasis on upper income households, etc.). The blend of panels will reduce the bias from each and ensure a broad and even distribution of respondents. Responses will also be monitored to ensure a distribution that is proportionate to the American public in terms of age, race/ethnicity, gender and geographic distribution.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)
 Web-based or other forms of Social Media
 Telephone
 In-person
 Mail
 Other, Explain
2. Will interviewers or facilitators be used? Yes No

Please make sure that all instruments, instructions, and scripts are submitted with the request.
