

SUPPORTING STATEMENT

A. Justification

1. Section 623 of the Cable Television Consumer Protection and Competition Act of 1992 requires the Commission to prescribe rules and regulations for determining reasonable rates for basic tier cable service and to establish criteria for identifying unreasonable rates for cable programming services and associated equipment which is the reason for the Commission creating FCC Forms 1210 and 1240.

FCC Form 1210

Cable operators use FCC Form 1210 to file for adjustments in maximum permitted rates¹ for regulated services to reflect external costs. Regulated cable operators submit this form to local franchising authorities or the Commission, in situations where the FCC has assumed jurisdiction. FCC Form is filed by cable operators quarterly.

FCC Form 1240

FCC Form 1240 is filed by cable operators seeking to adjust maximum permitted rates for regulated cable services to reflect changes in external costs. Cable operators submit FCC Form 1240 to their respective local franchising authorities ("LFAs") to justify rates for the basic service tier and related equipment or with the Commission, in situations where the Commission has assumed jurisdiction. FCC Form 1240 is a filing alternative to FCC Form 1210. FCC Form 1240 is filed by cable operators annually.

This information collection does not affect individuals or households; thus, there are no impacts under the Privacy Act.

Statutory authority for this collection of information is contained in Sections 4(i) and 623 of the Communications Act of 1934, as amended.

2. **FCC Form 1210** - The Commission and local franchising authorities ("LFAs") use this data to adjudicate permitted rates for regulated cable services and equipment, for the addition of new programming tiers and to account for the addition and deletion of channels, and for the allowance of external costs and costs due to inflation.

FCC Form 1240 - FCC Form 1240 is filed by cable operators seeking to adjust maximum permitted rates for regulated cable services to reflect changes in external costs. Cable operators submit FCC Form 1240 to their respective local franchising authorities ("LFAs") to justify rates for the basic service tier

¹ Maximum permitted are calculated through use of FCC Forms 1210 and 1240 and represent the highest rates a rate-regulated operator can charge.

and related equipment or with the Commission (in situations where the Commission has assumed jurisdiction).² New information contained in FCC Form 1240 filings is used by the LFAs to adjudicate permitted rates for regulated cable services and equipment, to account for the addition and deletion of channels, and for the allowance for pass through of external costs and costs due to inflation.

3. The use of information technology is feasible for this collection. Automated diskette versions of FCC Forms 1210 and 1240 are available to respondents. The Commission estimates that 90% of FCC Forms 1210 and 1240 filings are filed electronically with the LFAs.³ FCC Forms 1210 and 1240 are also available on the Commission's Internet Website.

4. The Commission does not impose a similar information collection requirement on the respondents.

5. This information collection requirement does not have a significant economic impact on a substantial number of small businesses/small entities.

6. If the Commission or LFAs did not collect this information, the FCC would not be able to carry out its statutory responsibilities under Section 623 of the Communications Act of 1934, as amended, and reduced administrative burdens on cable operators, LFAs and the Commission could not be realized.

7. There are no special circumstances associated with this information collection.

8. The Commission published a Notice (82 FR 31968) in the *Federal Register* on July 11, 2017 seeking comment on the information collection requirements contained in this collection. No comments were received from the public as a result of the Notice.

9. Respondents will not receive any payments.

² The Commission may assume jurisdiction over local rates where an LFA is unable to perform its regulatory duties.

³ Respondents may file paper forms; however, FCC Forms 1210 and 1240 are rarely filed with the Commission, but mostly with the LFAs.

10. There is no need for confidentiality with this collection of information.

11. This information collection does not address any private matters of a sensitive nature.

12. The FCC reports the following public burden:

⁴ These 400 applications filed quarterly represent filings completed by the respondent with in-house cable staff.

⁵ These 400 applications filed quarterly represent filings that the respondent coordinated information with outside contractors to allow the contractors to prepare the applications/filings, and required 2 hours of the respondent's time per application.

⁶ These 800 applications represent filings reviewed by the LFA each quarter.

Total Number of Annual Respondents: 3,400 Cable Operators

Total Number of Annual Responses: 5,350 responses

Total Annual Burden Hours: 44,800 hours

Total Annual “In-house” Cost: \$1,120,000

⁷ These 375 applications represent filings that the respondent coordinated information with outside contractors to allow the contractors to prepare the applications/filings, and required 1 hours of the respondent’s time per application.

⁸ These 1,125 applications represent filings completed by the respondent with in-house cable staff.

⁹ These 1,500 applications represent filings reviewed by the LFA.

¹⁰ These are 375 cable operator inquiries to LFAs. 47 CFR § 76.933(g)(2) states if an LFA has taken no action within the 90-day review period, then the proposed rates may go into effect at the end of the review period, subject to a prospective rate reduction and refund if the LFA subsequently issues a written decision disapproving any portion of such rates. However, if an operator inquires as to whether the LFA intends to issue a rate order after the initial review period, the LFA or its designee must notify the operator of its intent in this regard within 15 days of the operator’s inquiry. We estimate this will occur in 25% (25% of the total 1,500 applications = 375 inquiries) of the instances when Form 1240s are filed by cable operators with their LFAs.

¹¹ These are 375 LFA responses to cable operators.

b. Total operation and maintenance costs: We estimate that cable operators that use outside legal and accounting contractors will pay for these services at an average rate of \$275/hour¹², and each filing will take 15 hours to complete.

FCC Form 1210: 400 filings x 15 hours x \$275/hour = \$1,650,000

FCC Form 1240: 375 filings x 15 hours x \$275/hour = \$1,546,875
\$3,196,875

c. **Total annual cost to respondents: \$3,196,875**

14. There is no cost to the Federal Government.

15. There are no program changes to this collection. There are adjustments to the annual cost burden of \$1,162,500. These adjustments are due to an increase in consulting fees.

16. The results of this information collection requirement are not planned to be published.

17. The Commission requests an extension of the waiver not to publish the expiration date on these forms requested. OMB approval of the expiration date of the information collection will be displayed at 47 CFR Section 0.408.

18. There are no exceptions to the Certification Statement.

B. Collections of Information Employing Statistical Methods

No statistical methods are employed.

¹² The Commission arrived at the hourly rate of \$275 for the consultants because we are not sure if legal and/or accounting contractors will work on the documents. Therefore, the \$275 hourly fee was calculated as follows: \$300/hour (legal) + \$250/hour (accounting) = \$550/2 = \$275/hour.
