TITLE OF INFORMATION COLLECTION: Security Classification Guide Use Survey

DATE OF REQUEST: 6/18/2020

PURPOSE: To determine if security classification guides are used effectively to facilitate the proper and uniform derivative classification of information. It aims to draw upon the experience of the users of the guides with regard to the dissemination of the guides, the training on their use, the guides’ clarity and ease of use, classification guide content, and user knowledge.

DESCRIPTION OF RESPONDENTS:

The survey is directed at Executive Branch personnel who derivatively classify and use or have used security classification guides. It will be deployed in association with a review of the content of agency security classification guides, which ISOO is currently conducting throughout the Executive Branch. Agencies that agree to participate will distribute the survey to its personnel who are likely to meet the above criteria. At some agencies, all of the personnel will be Federal employees; at others, it will likely include a combination of Federal employees and contract personnel. We expect to deploy the survey approximately once every three to four months at individual agencies in this and the next calendar year, keeping the survey open for one to two weeks each time.
