## TOWERS WATSON

## Data Services Terms and Conditions

Towers Watson's surveys and the results of such surveys, including participation materials and related reports (collectively, "surveys") are made available by local Towers Watson affiliated companies which are directly or indirectly controlled by Towers Watson \& Co. (collectively referred to as "Towers Watson" or the "Towers Watson group") on the following terms and conditions.

Service Quality. Towers Watson will collect relevant data and conduct the surveys with reasonable care. While Towers Watson cannot be responsible for verifying the accuracy and completeness of each data submission, a Towers Watson associate will review each data submission for overall reasonableness. Towers Watson provides the surveys on an "as is" basis and does not provide a warranty or guarantee of any kind as to the accuracy or completeness of the surveys or the data or information contained therein. Survey results will be available only if there are sufficient participants in the applicable survey.

Intellectual Property Rights. Towers Watson retains all intellectual property rights in the surveys. Unauthorized use or duplication without prior permission from Towers Watson is prohibited. You shall not refer to us or include any of our work product (including, without limitation, the surveys and the information they contain) in any shareholder communication or in any offering materials (or fairness opinion provided by your professional advisers) prepared in connection with the public offering or private placement of any security, unless otherwise agreed in writing.

Use of Surveys. You may use the surveys only within your own organization for internal human resources planning and may not modify, sell or transfer such surveys. Surveys may not be reproduced in employee newsletters or posted on your company's intranet. If you desire to share the surveys (in whole or in part) with a third party (including any entity controlling, controlled by, or under common control with your company, Towers Watson's competitors and/or independent contractors working solely for your company), you must first obtain the written consent of Towers Watson. Any use of the information contained in the surveys is not a substitute for seeking expert legal, consulting or other advice on the reasonableness or appropriateness of compensation and/or benefits levels and practices.

Limitation of Liability. The aggregate liability of Towers Watson and its employees, directors, officers, agents and subcontractors (the "related persons") whether in contract, tort (including negligence), breach of statutory duty or otherwise for any losses relating to the surveys provided hereunder shall not exceed in aggregate the greater of (a) \$25,000 USD or (b) the total fees paid to Towers Watson for the particular survey(s) and/or custom report(s) related to such survey(s), unless otherwise agreed in writing. Nothing in these terms shall exclude or limit the liability of Towers Watson or our related persons in the case of: (a) death or personal injury resulting from Towers Watson's or Towers Watson's related person's negligence; (b) willful misconduct; (c) fraud; or (d) other liability to the extent that the same may not be excluded or limited as a matter of law. In no event shall Towers Watson or any of our related persons be liable for any incidental, special, punitive, or consequential damages of any kind (including, without limitation, loss of income, loss of profits, or other pecuniary loss).

General. The validity and interpretation of these terms will be governed by the laws of the State of New York, United States of America, excluding its conflict of law rules. The parties submit to the exclusive jurisdiction of the State of New York, United States of America Courts to resolve any dispute between them, provided that Towers Watson shall have the right to initiate proceedings in any court of competent jurisdiction in the event of breach of Towers Watson's proprietary rights. The parties hereby waive any right they may have to demand a jury trial. These terms will apply to purchase orders generated by your company for survey results provided hereunder. In the event of a conflict or inconsistency between the terms and conditions of such purchase orders and these terms, these terms will prevail. Separate terms and conditions apply to use and access of online tools. You shall not assign or otherwise transfer any rights or obligations under these terms without Towers Watson's prior written consent.

## Participation Terms

By participating in Towers Watson's surveys, you will be deemed to have agreed to the following participation terms on behalf of your company and you represent that you have authority to submit data. As a participant in this survey, your company's name will be included on survey participant lists. Survey participants must submit data on a timely basis and provide an accurate and complete data submission, including, if relevant, long-term incentive information and responses to the policies and practices questions. Data may be submitted directly via the Towers Watson portal hosted in the USA. If your company's data submission is late or does not meet the requirements for a particular survey, Towers Watson may, at its discretion, limit/deny access to such survey results. For select surveys, participants must submit executive data to purchase executive products, middle management, professional and support data to purchase non-executive products and industry-specific functions/disciplines/positions to purchase associated industry-specific survey products.

Confidentiality and Use of Data. Participant data submitted to the surveys will be held in confidence. Towers Watson takes reasonable security precautions, including the same precautions Towers Watson takes to protect our own confidential information, to prevent unauthorized access. Participant data will be used by Towers Watson for purposes of creating aggregated survey results which are presented in a manner that protects individual company confidentiality. Participant data and survey results may be used by Towers Watson for training, quality assurance, research and development, compensation and/or benefits consulting services (e.g., market/job pricings) and general promotional activities such as trends analyses that are provided to survey participants.

Data Protection. Towers Watson may pass participant data, which may include individually identifiable information, within its global network of offices and affiliates (including the Towers Watson Global Resource Centre) and to subcontractors and providers of IT outsourcing who will be subject to appropriate data protection standards. The Global Resource Centre is located in Manila, The Philippines, and will be used to analyze such data in connection with the surveys. The Manila corporate entity is a wholly owned subsidiary in the Towers Watson group, and it is governed by the same information security policies and internal controls that govern the Towers Watson group as a whole. Notwithstanding the foregoing, for purposes of the FIRREA survey, participant data shall remain solely in White Plains, New York and shall be accessible only by Towers Watson employees assigned to work on such survey. Irrespective of where Towers Watson receives or holds such data, Towers Watson confirms that, acting as data processor, Towers Watson will take appropriate technical, physical and organizational/administrative measures to protect such data against accidental or unlawful destruction or accidental loss or unauthorized alteration, disclosure or access. Towers Watson will use such data only for the purposes described above or for other reasonable purposes which are related to the surveys and services, unless a participant instructs Towers Watson otherwise. Participant and Towers Watson shall each comply with applicable data privacy legislation and regulations.

## Introduction

We're pleased to present the results of the 2015 Financial Institutions Reform, Recovery and Enforcement Act (FIRREA) Compensation Survey. The survey report focuses on cash compensation and direct compensation data, including annual base salary, adjusted annual base salary, locality pay or geographic differentials, target short-term incentives, short-term incentive/bonus, other cash compensation, total cash compensation, and adjusted total cash compensation data. In addition, information on organization characteristics, and a variety of policy and practices information are included.

The data contained in this reference is based on the response of 31 organizations. The organizations have a median total full-time employment of 1,477 employees at their reported locations. Refer to the Overview of Survey Participants section for more information including a complete list of this year's survey participants.

This response enabled us to report on a total of 68 positions filled by a total of 26,088 employees.
The effective date is April 1, 2015.

## Survey Methodology

In accordance with our objective to publish only the most accurate and representative information possible, each questionnaire is thoroughly reviewed by compensation professionals and our proprietary data diagnostic programs before it is included in the database. The data is further reviewed using statistical modeling techniques, and survey respondents are contacted to confirm job matches, discuss high and low points of the data, and clarify specific rate and policy questions.

The results of any survey are highly dependent upon the quality of the data provided by participants. We take all appropriate measures to ensure that the input received from participants is accurate and complete. Our survey project teams carefully review each individual data submission to resolve omissions, inconsistencies, or other questionable input; they verify any questionable data directly with the participant.

Data input methodologies, data verification and proprietary data diagnostics programs are coupled with our employees' expertise and experience to resolve any anomalies, yielding a complete and accurate survey data base. Our quality assurance process is followed in this and all phases of conducting surveys and publishing survey results to ensure that all survey materials are reviewed by multiple employees.

Towers Watson Data Services (TWDS) publishes statistics only when a sufficient sample exists. Salary and total compensation data will be published only when five or more organizations have provided data for a given location or industry. All published statistics are consistent with recognized statistical standards and principles. At the time of release, published data will be at least three months old from the effective date of the data reported by survey respondents.

Data reported by individual companies may represent more than 30\% of aggregate data statistics and will be flagged as such. Any information disseminated is aggregated so that individual company data cannot be identified and TWDS ensures and maintains the confidentiality of individual company data. Under no circumstances will we disclose individual data.

# Guide to Finding and Using the Compensation Data in the Report 

# Guide to Finding and Using the Compensation Data in the Report 

## Locating Compensation Data in this Report

## Organization of Compensation Data Presentations

Compensation data in the printed report is organized by position and separated into two categories: All
Organizations and All Financials, Federal Reserve Banks and Federal Financial Regulatory Agencies. The data presentation for each position begins with an All Organization Summary that shows compensation data on a national basis and includes all participants.

## Geographic Analysis

Geographic data is presented for region as well as consolidated metropolitan areas (as sample size permits). All areas are presented alphabetically. For example, the data contributed by organizations in Alexandria, Fairfax, and other proximate Northern Virginia cities will be found in the following geographic groupings, described as follows:

Region:
Consolidated Metropolitan Area:

Southeast
Washington-Baltimore-Northern Virginia, DC-MD-VA

Survey statistics (weighted average, 10th percentile, 25th percentile, Median, 75th percentile, and 90th percentile) are displayed for each position and for each pay element. Please refer to the Explanation of Data Definitions for additional information.

## Guide to Finding and Using the <br> Compensation Data in the Report

## Suggestions for Using the Data in this Report

Organizations determine their compensation philosophies and assess their labor markets from a variety of perspectives. These include geographic, industry and organization size (e.g., revenue, assets or FTEs).

The use of valid, statistically-based information such as survey data minimizes uncertainty in compensation decision-making. Frequently, the only competitive information available is that developed through the use of survey methodology. While TWDS surveys are professionally tended, the following guidelines will help to reduce the likelihood of misjudgment and build your confidence in any decisions reached.

1. When making comparisons to survey data, the first step should always be to compare the duties and responsibilities of the job under consideration to the survey description. The survey description forms the basis for the collection of the survey data. Job titles should not be used in isolation since they can often be misleading as to job content.
2. When using the compensation data contained in this report, take time to review the data presented. For example, a few disproportionately high or low salaries reported for a job can influence the sample in a way that may make it less representative of the population. In such an instance, the average and weighted average salaries reported for the job may be less indicative of the central tendency of the population than the median value. One way to detect such an effect is through a comparison of the median, average and weighted average salaries. The extent to which they differ is an indication of the degree to which a few disproportionately high or low salaries are represented in the data.
3. It is TWDS policy to provide data in compliance with antitrust guidelines. Generally, it is more useful when making a decision to have some representative data than to have no data at all. The number of reporting organizations and incumbents in the job is an indicator of the breadth of representation in the sample. If the number of incumbents reported closely matches the number of reporting organizations, the relative influence of the participating organizations reporting is more evenly balanced.

## Guide to Finding and Using the

Compensation Data in the Report

## Updating Survey Data

Most compensation professionals apply some type of update factor to survey data in order to keep pace with changes in the marketplace that may have occurred since the data was collected. A typical approach is to use anticipated salary growth (represented by current labor market data on salary increase budgets) in conjunction with the number of months elapsed since the effective date of the salary data. The following example illustrates this approach:

1. The prorated monthly estimate of the current year's budgeted salary increase figure ( $6.0 \%$ for this example) is divided by 12 (the number of months in a year).
$6.0 \% \quad \div \quad 12=0.5 \%$
2. The prorated monthly estimate ( $0.5 \%$ for this example) is multiplied by the number of elapsed months since the effective date of the data. Assuming the data was effective as of March 1 and the desired update is to November 1, eight months have elapsed for purposes of this example.
$0.5 \% \times 8=4.0 \%$
3. The prorated eight-month salary increase estimate (4.0\%) is added to the March 1 average salary for the position and survey in question ( $\$ 30,000$ for this example) to estimate the average November 1 salary.

| $\$ 30,000$ | $\times$ | .04 | $=$ | $\$ 1,200$ |
| ---: | ---: | ---: | ---: | ---: |
| $\$ 30,000$ | + | $\$ 1,200$ | $=$ | $\$ 31,200$ |

This approach to updating survey data is generally valid in times of relative economic stability. During periods of fluctuating inflation or recession, the figure should be adjusted upward or downward as the economic climate dictates. Due to numerous internal and external factors that affect compensation, Towers Watson does not recommend aging data beyond 18 months.

## Guide to Finding and Using the

Compensation Data in the Report

## Calculating a Salary Range Minimum and Maximum

The following shows how to calculate a salary range minimum and maximum around a given midpoint when the desired salary range spread (the percentage difference between minimum and maximum) has been established.

Let $Y$ symbolize the desired range spread
Let S symbolize the planned midpoint of the salary range
The formula for the limits (Minimum and Maximum) is:

$$
S \pm\{S[Y /(2+Y)]\}
$$

For example, if the desired range spread is $60 \%$ and the midpoint is $\$ 50,000$, the limits are:

$$
\begin{aligned}
\text { Desired range spread } & =\mathrm{Y}=60 \% \\
\text { Planned salary range midpoint } & =\mathrm{S}=\$ 50,000 \\
\text { Minimum } & =\mathrm{S}-\{\mathrm{S}[\mathrm{Y} /(2+\mathrm{Y})]\} \\
& =\$ 50,000-\{\$ 50,000[.60 /(2+.60)]\} \\
& =\$ 50,000-\{\$ 50,000(.23)\} \\
& =\$ 50,000-\{\$ 11,500\} \\
\text { Minimum } & =\$ 38,500 \\
& \\
\text { Maximum } & =\mathrm{S}+\{\mathrm{S}[\mathrm{Y} /(2+\mathrm{Y})]\} \\
& =\$ 50,000+\{\$ 50,000[.60 /(2+.60)]\} \\
& =\$ 50,000+\{\$ 50,000(.23)\} \\
& =\$ 50,000+\{\$ 11,500\} \\
\text { Maximum } & =\$ 61,500
\end{aligned}
$$

So, for a planned salary range midpoint of $\$ 50,000$ and a range spread of $60 \%$, the minimum and maximum of the range are $\$ 38,500$ and $\$ 61,500$ respectively.

## Explanation of Data Presentation Terms

## Explanation of Data Presentation Terms

## Position Comparison Table Definitions

Adjusted Annual Base Salary: Average annual base salary adjusted by locality pay or geographic differential. Displayed in thousands of dollars.

Adjusted Total Compensation: The adjusted total compensation paid to the employee matched to the position, which includes annual base salary adjusted by locality pay or geographic differential, short-term bonus/incentive, and other cash compensation. Displayed in thousands of dollars.

Annual Base Salary: Average annual salary as of April 1, 2015 for all employees in this position. Displayed in thousands of dollars.

Bonus/Other Cash Compensation Eligibility: Shows the percentage of incumbents who are eligible for bonus/other cash compensation.

Degree of Match: Shows the percentage allocation of degree of match, based on each incumbent's degree of match response.

Locality Pay or Geographic Differential: The locality pay or geographic differential percentage paid to employees in the position.

Number of Incs: The total number of employees for which compensation data is reported.
Number of Orgs: The total number of participating organizations providing data for the position.
Other Cash Compensation: Shows the other cash compensation paid to the employee matched to the position within the last 12 months. Displayed in thousands of dollars.

Salary Range Maximum: Maximum of the salary range for this position. Displayed in thousands of dollars.
Salary Range Midpoint: Midpoint of the salary range for this position. Displayed in thousands of dollars.
Salary Range Minimum: Minimum of the salary range for this position. Displayed in thousands of dollars.
Short-Term Bonus/Incentive: The bonus/incentive paid to the incumbent in the position. Displayed in thousands of dollars.

Target Short-Term Bonus/Incentive: Shows the average target bonus/incentive displayed as a percent of salary.

Total Cash Compensation: The total cash compensation paid to the employee matched to the position, which includes annual base salary, short-term bonus/incentive, and other cash compensation. Displayed in thousands of dollars.

Total U.S. FTEs: Displays total employees reported by organizations matching to the position.

## Explanation of Data Presentation Terms

## Calculated Statistics Definitions

Weighted Average: An average calculated by multiplying each occurrence of data by a weighting factor, e.g., average salary reported by the number of incumbents in the position at each reporting company. The results are added and then divided by the weighting of that factor, i.e., the total number of incumbents reported.

Organization Weighted Average: A simple arithmetic average is calculated by adding all occurrences of data, e.g., the average salary for a given job as reported by each survey participant, and dividing the result by the number of occurrences, i.e., the number of participants. Averages weigh each participant's input on an equal basis, regardless of the number of incumbents reported.

10th Percentile: The value in an array below which falls $10 \%$ of the sample and above which lies $90 \%$ of the sample. Together with the 90th percentile, a range of data can be identified that eliminates extremes in the sample and provides a more realistic dispersion of data.

25th Percentile: The value in an array below which falls $25 \%$ of the sample. Seventy-five percent, or threefourths, of the values in the sample are greater in magnitude than the 25 th percentile value.

Median: The value in the middle of an odd numbered array of data when the values are ordered by magnitude. Half of the values in the sample fall above this number and half fall below it. When the array contains an even number of values, the median is midway between the central values.

75th Percentile: The value in an array below which falls $75 \%$ of the sample. Twenty-five percent, or one-fourth, of the values in the sample are greater in magnitude than the 75 th percentile value.

90th Percentile: The value in an array below which falls $90 \%$ of a sample and above which lies $10 \%$ of the sample. Together with the 10th percentile, a range of data can be identified that eliminates extremes in the sample and provides a more realistic dispersion of data.

## Code Economist

0678 Supervisory Economist (Section Chief): Has overall responsibility for the output of the primary organizational unit within an economic research division. Designs and supervises a program of economic research to provide indepth analysis of the US economy and international developments. Prepares and implements programs for the analysis of ongoing economic developments, the production of economic statistics, regulation of financial markets, and forecasts of real and financial variables, which serve as inputs to the formulation and implementation of the organization's national economic policy. Has in-depth knowledge in a wide array of economic areas, as well as demonstrated professional scope and substantial achievements that satisfy the qualifications of a Senior Economist. Additionally, the Chief bears a much broader set of managerial responsibilities. Consults directly with senior management, and, at times, with the head of the organization and other members of the organization's governing body. Typically requires a Ph.D. in economics or statistics.
0679 Senior Economist: A highly skilled and experienced economist whose work is distinguished from other economists by expertise in one or more of the following areas: economic analysis, research, communication, or database management. Has accumulated an outstanding record of substantial publications in professional journals and academic books, key contributions to the staff's economic analysis, development of quantitative methods, or database management. Independently develops and drafts speeches and testimony, special briefings, research and analysis of current developments and regulatory issues. Provides leadership and coordination in his/her areas of expertise; may lead the work of small groups within a section or take responsibility for particular tasks. May act as backup for Chief in Chief's absence and may coordinate small working groups. Reports to Section Chief, but has significant contact with senior management. Acknowledged expert who provides leadership across the organization in area(s) of specialization, often involving complex economic or statistical issues. Typically requires a Ph.D. in economics or statistics.

0680 Economist II: Analyzes, forecasts, and reports on developments in domestic or international economies and financial markets; conducts economic analysis of options for regulatory decisions; designs and conducts longrange research aimed at improving theoretical and quantitative techniques. Possesses developed expertise in one or more specialized areas of economics or finance, providing analysis of complex issues using advanced theoretical and quantitative techniques. Reports to Section Chief but carries out assignments from direct supervisor and from senior management. Routine assignments are performed with considerable independence; more complex assignments may be reviewed by a supervisor. Must have capacity to take on significant responsibility for the quality and timeliness of work. May advise less experienced economists and oversee work of research assistants. Typically requires a Ph.D.
0681 Economist I: Analyzes, forecasts, and reports on developments in domestic or international economies and financial markets; conducts economic analysis of options for regulatory decisions; designs and conducts longrange research aimed at improving theoretical and quantitative techniques. Must have demonstrated knowledge and competence in the application of advance theoretical and quantitative techniques, typically acquired by completion of a Ph.D. in economics, finance, or a closely related field, or exceptional knowledge of economic data and institutions, typically acquired through related work experience. Works with independence on issues in his or her fields of expertise and to resolve technical and analytical problems. Assignments typically are reviewed by a supervisor. Typically requires a Ph.D.
Research Assistant: This is an entry level position. Provides support for the organization's economists, statisticians, and financial analysts in their research, current reporting, modeling, and forecasting; has general knowledge of principles of economics, statistics, or finance and ability to apply standard quantitative techniques. Provides assistance in data collection and publication programs, managing information flows, maintaining the database, and preparing data for use in analytical work. Typically provides assistance to 2 to 10 professional economists, statisticians, or financial analysts. Work may involve contacts at all levels within the division. Typically a recent college graduate with little to no experience.

## Code Legal

0683 Assistant/Deputy General Counsel: Reports directly to General Counsel. Provides advice and counsel on any legal matter or problem involving the company. Advises and renders opinions to top management with respect to the legal implications involved in establishing or changing company policy. Works with representatives from various departments on developing and modifying practices and procedures to conform with legal requirements. Drafts, reviews, and revises a variety of instruments involving the company's interests or the interests of customers. Acts as a liaison with outside legal firms. Represents the company in certain litigation. Keeps informed on all legislation affecting overall company operations. Possesses a Law Degree and must be a member of the Bar.

0684 Supervisory Senior Counsel: Handles the most complex legal issues of the Division, requiring expertise in one or more areas. Formulates policy recommendations, and manages the work of other attorneys. Assigns projects, establishes priorities and due dates, monitors progress and results, and evaluates performance. Represents the organization at domestic and international meetings and conferences, often with respect to significant policy issues. Typically requires a minimum 6-8 years of experience. Possesses a Law Degree and must be a member of the Bar.

0685 Senior Attorney: Provides legal recommendations and policy making advice to senior management.
Demonstrates a high degree of expertise in a specific legal area, and is competent in several other legal areas. Has significant leadership and administrative control in a major area of the division. Conducts legal research, proposing resolutions for the most complex legal issues in one or more of the following areas: merger and acquisition activity involving federal and state banking law; offering of new products by financial organizations; securities and anti-trust law; corporate and accounting issues; consumer credit laws and other regulatory matters. Provides guidance to attorneys and support staff. May represent the organization in litigation involving significant and/or sensitive issues. Typically requires a minimum of 4-6 years of experience. Possesses a Law Degree and must be a member of the Bar.

0686 Attorney (Full Performance Level): Independently drafts legal correspondence, memoranda, and opinion letters. Provides advice and counsel to clients in one or more functional areas. Researches, analyzes and interprets federal and state banking, securities, consumer, and/or administrative law issues. Develops new legal theories, legal precedents, and legal policies, where appropriate. Counsels management and staff on complex legal matters. Assists senior management in final resolution of legal issues in area of expertise. May represent the organization at financial institution meetings and negotiations. Assists in the training and development of other attorneys. Typically requires a minimum of 3-4 years of experience. Possesses a Law Degree and must be a member of the Bar.

0811 Attorney (Mid-Level): Serves as an intermediate performance level attorney. Prepares memoranda and correspondence. Counsels management, on the legal matters regarding safety, and soundness of operations, and advises on appropriate legal actions available. May assist senior management in final resolution of legal issues in area of expertise. May perform complex work which influences internal operations. Typically requires up to 2 years' experience practicing law. Possess a law degree and is a current member of the bar.

Attorney (Entry Level): Performs extensive legal research and writing. Prepares memoranda and correspondence; does initial drafting of orders that will be released as official statements of the organization; and responds to inquiries on official regulations and decisions. Works under close supervision of more experienced attorneys. Possesses a Law Degree and must become a member of Bar within 14 months of hire.

0688 Senior Paralegal: Processes complex requests, identifies and retrieves responsive documents, identifies portions of documents to be redacted, drafts response letters to requesters identifying exemptions that justify withholding of documents. Advises attorneys on technical aspects of drafting of regulatory documents to be published. Assists litigation and enforcement attorneys with legal research, preparation of briefs and other filings, preparation of record indices and hearing preparation. May accompany attorneys to trials and/or depositions. May direct/support the work of Paralegals. Typically requires 4-6 years or more experience as a paralegal.

0801 Paralegal: Processes simpler to moderately complex requests, identifies and retrieves responsive documents, identifies portions of documents to be redacted, drafts response letters to requesters identifying exemptions that justify withholding of documents. Advises attorneys on technical aspects of drafting of regulatory documents to be published. Assists litigation and enforcement attorneys with legal research, preparation of briefs and other filings, preparation of record indices and hearing preparation. May receive direction/support from Senior Paralegals. Typically requires 1-3 years of experience.

0689 Legal Secretary/Technician: Provides administrative and/or technical support that is specific to the legal function of the organization. Requires strong organizational skills, ability to deal with deadline pressure and prioritize assignments; knowledge of the legal division's functions and projects. Communicates with external organizations and court personnel to obtain legal information; maintains docket of pending litigation, produces memoranda, regulations, and drafts in specified legal format. Performs administrative duties in coordinating printing of briefs and other legal documents. May prepare standardized legal forms and documents or maintain legal information management databases. Possesses knowledge of legal terminology.

## Information Technology

0731 Supervisory IT Specialist: Performs the full range of first-line supervisory responsibilities for Information Technology staff in one or more of the following specialties: policy and planning, security, systems analysis, applications software, operating systems, network services, data management, systems administration and/or customer support. Identifies and resolves complex IT problems and issues that cross functional boundaries. Performs full range of project management activities. Manages multiple projects through the systems development life cycle from project initiation, through requirements, design and development, testing, implementation, maintenance and retirement. Leads project staff responsible for managing, administering, developing and/or maintaining information technology software applications. Formulates and administers the unit's budget, defining proposed expenditures for IT equipment, human resources, training, travel, conferences and other major activities.

0732 Supervisory IT Project Manager: Implements system development project management strategies/disciplines. Provides time, scope and cost analyses for project throughout its lifecycle. Makes recommendations on solutions to leadership and stakeholders. Ensures project objectives are set and roles of team members are clear. Monitors and reviews team inputs/outputs. Conducts risk, issue, and change management activities in a timely manner with quality resolutions. Produces standard project management documentation and communications, status, resource and budget plans.

0733 IT Project Manager: Oversees larger and more highly complex projects. Assembles project teams, assigns individual responsibilities, develops project schedules and is responsible for determining and acquiring resources needed. Must be familiar with the entire scope and requirements of project(s) and serves as liaison between team members and functional area management requesting project. Incumbents often possess highly specialized knowledge in one or more specific technologies.
0802 IT Specialist III (Full Performance): Requires broad knowledge and experience in software and information delivery. Security systems, and quality assurance. Serves as full performance level IT Specialist providing full range of support in all areas and functions associated with systems analysis and applications software. Designs and codes complex software applications. Manages, installs, maintains, monitors and/or troubleshoots all software to ensure integrity and optimum performance. Performs full range of project management activities.

0803 IT Specialist II (Mid-Level): Requires general knowledge and experience in automated information systems. Serves as an IT Specialist and provides support in a variety of activities associated with systems analysis and applications software. Applies analytical processes to the planning, design, and implementation of new and improved information systems to meet the business requirements of customer organizations. Designs, documents, develops and/or modifies, tests, installs, implements, and supports new or existing applications software.

Position Descriptions

0810 Security Specialist: Manages and implements security processes and controls in one or more specialty areas, such as: Electronic Security, Physical Security, Emergency Management or Continuity of Operations. May work/liase with all levels of staff and outside contractors. Maintains awareness of current physical security systems, software upgrades, field equipment, and industry trends. Makes recommendations regarding new programs, technology, and techniques to enhance security and/or resolve problems. May perform or assist in performing periodic vulnerability assessments of the physical security operations of the facility to determine specific weaknesses/vulnerabilities.

0785 Librarian: Provides reference and research services to the organization, performing a variety of assignments in the areas of reference, acquisitions, cataloging, and periodical literature. Requires ability to use online databases and public access catalogs. Has responsibility for one or more of the following areas: provides reference and research services to a professional staff and to the general public; reviews publications, catalogs, library-oriented materials, advertisements, and internal requests to select documents appropriate for the library's collection; performs the cataloging function, as well as maintaining the accuracy and quality of the catalog; oversees all areas relating to periodical literature-both foreign and domestic; prepares library publications and releases; participates in or manages special projects designed to improve library services and performance. Typically possesses a degree in Library Science.

0813 Public Affairs Specialist (Full Performance Level): Focuses on the external communications and support for internal and community programs for the organization. Writes, edits, and manages external media materials, talking points, media outreach, press releases, public service announcements, fact sheets, and other material for distribution. Collaborates with other public affairs staff to coordinate draft material and responses to inquiries. Researches, prepares, and presents analysis of media coverage, news release, and public service program effectiveness and impact. Coordinates the posting of news releases to organizations web sites, e-mail distribution, and news release distribution services.

0786 Public Affairs Specialist: Focuses on the external communications and support for internal and community programs for the organization. Assists with writing and editing external media materials, media outreach, and media monitoring. Provides writing support for employee and organizational announcements and internal communications materials to ensure employee awareness and understanding. Coordinates, develops, and assists with activities, projects and programs in one or a combination of the following Public Affairs functional areas: communications, community relations, company giving programs, issue management, media relations, public relations/marketing, government affairs, and public policy.

0787 Staff Assistant to an Executive: Performs standard, advanced and confidential administrative duties for an executive of a division requiring broad experience, skill and knowledge of organization policies and practices. Prepares correspondence, memoranda, reports, etc. Composes routine correspondence and memoranda. Serves as a central point of communication and coordination between the Executive's office and other offices and external agencies. Screens telephone calls and visitors, and resolves routine and some complex inquiries. Schedules and maintains calendar of appointments, meetings and travel itineraries, and coordinates related arrangements. Prepares and distributes minutes of meetings. May utilize the assistance of one or more lower level administrative staff on a project basis.

Senior Staff Assistant: Serves as an administrative support staff member for a senior manager. Assists in the operation and coordination of all administrative and office functions. Instructs lower level administrative staff on office practices including telephone techniques, supply and records management, and development and maintenance of filing systems. Receives visitors, coordinates extensive travel arrangements, and screens all calls for the executive. Composes correspondence of a general administrative nature for executive's signature. Ensures efficiency in the administration of office policies, practices, and procedures, recommending changes as needed.

## Position Descriptions (continued)

## Pos.

## Code Administrative Services (continued)

0791 Staff Assistant: Uses basic knowledge to provide a variety of technical and administrative support for a manager or director over a unit or division. Manages a wide variety of office functions for the unit or division to ensure consistency and efficiency in the implementation of administrative policies, practices, and procedures. Prepares a variety of personnel, training, and accounting forms to document hours worked, leave, project codes, and travel activities. Schedules appointments, meetings, and conferences with individuals at all levels inside and outside of the organization.

0792 Clerk/Office Assistant: Performs routine but varied clerical duties in accordance with standard procedures. This includes clerical duties such as photocopying, compiling records, filing, tabulating, posting information, and distributing mail. Applies knowledge of department policies and procedures, and utilizes a general understanding of other departments' functions. Maintains records, prepares forms, verifies information and resolves routine problems.

0793 Mail Clerk: Prepares incoming mail for distribution and processes outgoing mail. Distributes and collects mail, determines and affixes postage and maintains records on postage, registered mail and packages.

## Matched Sample Analysis

The matched sample analysis below presents the percentage increase in Average Base Salary, Average Adjusted Base Salary, and Average Adjusted Total Cash Compensation for positions that could be matched to prior year's data. Only those organizations which participated in both the 2014 and 2015 surveys are included. All new positions and positions which underwent significant revision were excluded from this analysis. The \% Diff columns are averages of the individual percent differences. This method prevents the excessive influence of a single company.

## Policies and Practices

## Compensation Planning

| PREVALENCE OF ORGANIZATIONS WHO HAVE HAD SIGNIFICANT CHANGES IN IT'S COMPENSATION PLANS IN THE LAST 12 MONTHS |  |  |  |
| :---: | :---: | :---: | :---: |
|  | Organizations Who Have Had significant Changes in its Compensation Plans |  |  |
|  | \# of Organizations | \% of Organizations | \# of Responses |
| Entire Sample Combined | 8 | 30.8\% | 26 |

## Changes Include

- Agency 401(k) plan
- Change to Incentive Plan
- Compensation structure- fewer and broader
- Locality Pay changes
- New Variable Pay plan
- Process which allows managers to more effectively use their promotion budget

| PREVALENCE OF ORGANIZATIONS WHO HAVE HAD SIGNIFICANT CHANGES IN IT'S |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| COMPENSATION PLANS IN THE NEXT 12 MONTHS |  |  |  |  |  |  |

Planned Changes Include:

- Implementing a salary structure
- New CBA
- Variable Pay automation and changes to performance management system
- Transition Pay

## Position Comparison Tables

## Position: 0678 Supervisory Economist (Sec Chief)

## Position Description:

Has overall responsibility for the output of the primary organizational unit within an economic research division. Designs and supervises a program of economic research to provide in-depth analysis of the US economy and international developments. Prepares and implements programs for the analysis of ongoing economic developments, the production of economic statistics, regulation of financial markets, and forecasts of real and financial variables, which serve as inputs to the formulation and implementation of the organization's national economic policy. Has in-depth knowledge in a wide array of economic areas, as well as demonstrated professional scope and substantial achievements that satisfy the qualifications of a Senior Economist. Additionally, the Chief bears a much broader set of managerial responsibilities. Consults directly with senior management, and, at times, with the head of the organization and other members of the organization's governing body. Typically requires a Ph.D. in economics or statistics.

## Position: 0679 Senior Economist

## Position Description

A highly skilled and experienced economist whose work is distinguished from other economists by expertise in one or more of the following areas: economic analysis, research, communication, or database management. Has accumulated an outstanding record of substantial publications in professional journals and academic books, key contributions to the staff's economic analysis, development of quantitative methods, or database management. Independently develops and drafts speeches and testimony, special briefings, research and analysis of current developments and regulatory issues. Provides leadership and coordination in his/her areas of expertise; may lead the work of small groups within a section or take responsibility for particular tasks. May act as backup for Chief in Chief's absence and may coordinate small working groups. Reports to Section Chief, but has significant contact with senior management. Acknowledged expert who provides leadership across the organization in area(s) of specialization, often involving complex economic or statistical issues. Typically requires a Ph.D. in economics or statistics.

## Position: 0680 Economist II

## Position Description:

Analyzes, forecasts, and reports on developments in domestic or international economies and financial markets; conducts economic analysis of options for regulatory decisions; designs and conducts long-range research aimed at improving theoretical and quantitative techniques. Possesses developed expertise in one or more specialized areas of economics or finance, providing analysis of complex issues using advanced theoretical and quantitative techniques. Reports to Section Chief but carries out assignments from direct supervisor and from senior management. Routine assignments are performed with considerable independence; more complex assignments may be reviewed by a supervisor. Must have capacity to take on significant responsibility for the quality and timeliness of work. May advise less experienced economists and oversee work of research assistants. Typically requires a Ph.D.

## Position: 0681 Economist I

## Position Description:

Analyzes, forecasts, and reports on developments in domestic or international economies and financial markets; conducts economic analysis of options for regulatory decisions; designs and conducts long-range research aimed at improving theoretical and quantitative techniques. Must have demonstrated knowledge and competence in the application of advance theoretical and quantitative techniques, typically acquired by completion of a Ph.D. in economics, finance, or a closely related field, or exceptional knowledge of economic data and institutions, typically acquired through related work experience. Works with independence on issues in his or her fields of expertise and to resolve technical and analytical problems. Assignments typically are reviewed by a supervisor. Typically requires a Ph.D.

## Position: 0682 Research Assistant

## Position Description:

This is an entry-level position. Provides support for the organization's economists, statisticians, and financial analysts in their research, current reporting, modeling, and forecasting; has general knowledge of principles of economics, statistics, or finance and ability to apply standard quantitative techniques. Provides assistance in data collection and publication programs, managing information flows, maintaining the database, and preparing data for use in analytical work. Typically provides assistance to 2 to 10 professional economists, statisticians, or financial analysts. Work may involve contacts at all levels within the division. Typically a recent college graduate with little to no experience.

## Position: 0683 Asst/Deputy General Counsel

## Position Description

Reports directly to General Counsel. Provides advice and counsel on any legal matter or problem involving the company. Advises and renders opinions to top management with respect to the legal implications involved in establishing or changing company policy. Works with representatives from various departments on developing and modifying practices and procedures to conform with legal requirements. Drafts, reviews, and revises a variety of instruments involving the company's interests or the interests of customers. Acts as a liaison with outside legal firms. Represents the company in certain litigation. Keeps informed on all legislation affecting overall company operations. Possesses a Law Degree and must be a member of the Bar.

## Position: 0684 Supervisory Sr Counsel

## Position Description:

Handles the most complex legal issues of the Division, requiring expertise in one or more areas. Formulates policy recommendations, and manages the work of other attorneys. Assigns projects, establishes priorities and due dates, monitors progress and results, and evaluates performance. Represents the organization at domestic and international meetings and conferences, often with respect to significant policy issues. Typically requires a minimum 6-8 years of experience. Possesses a Law Degree and must be a member of the Bar.

## Position: 0685 Senior Attorney

## Position Description

Provides legal recommendations and policy making advice to senior management. Demonstrates a high degree of expertise in a specific legal area, and is competent in several other legal areas. Has significant leadership and administrative control in a major area of the division. Conducts legal research, proposing resolutions for the most complex legal issues in one or more of the following areas: merger and acquisition activity involving federal and state banking law; offering of new products by financial organizations; securities and anti-trust law; corporate and accounting issues; consumer credit laws and other regulatory matters. Provides guidance to attorneys and support staff. May represent the organization in litigation involving significant and/or sensitive issues. Typically requires a minimum of 4-6 years of experience. Possesses a Law Degree and must be a member of the Bar.

## Position: 0686 Attorney (Full Performance Level)

## Position Description:

Independently drafts legal correspondence, memoranda, and opinion letters. Provides advice and counsel to clients in one or more functional areas. Researches, analyzes and interprets federal and state banking, securities, consumer, and/or administrative law issues. Develops new legal theories, legal precedents, and legal policies, where appropriate. Counsels management and staff on complex legal matters. Assists senior management in final resolution of legal issues in area of expertise. May represent the organization at financial institution meetings and negotiations. Assists in the training and development of other attorneys. Typically requires a minimum of 3-4 years of experience. Possesses a Law Degree and must be a member of the Bar.

## Position: 0689 Legal Secretary/Technician

## Position Description

Provides administrative and/or technical support that is specific to the legal function of the organization. Requires strong organizational skills, ability to deal with deadline pressure and prioritize assignments; knowledge of the legal division's functions and projects. Communicates with external organizations and court personnel to obtain legal information; maintains docket of pending litigation, produces memoranda, regulations, and drafts in specified legal format. Performs administrative duties in coordinating printing of briefs and other legal documents. May prepare standardized legal forms and documents or maintain legal information management databases. Possesses knowledge of legal terminology.

## Position: 0731 Supervisory IT Specialist

## Position Description:

Performs the full range of first-line supervisory responsibilities for Information Technology staff in one or more of the following specialties: policy and planning, security, systems analysis, applications software, operating systems, network services, data management, systems administration and/or customer support. Identifies and resolves complex IT problems and issues that cross functional boundaries. Performs full range of project management activities. Manages multiple projects through the systems development life cycle from project initiation, through requirements, design and development, testing, implementation, maintenance and retirement. Leads project staff responsible for managing, administering, developing and/or maintaining information technology software applications. Formulates and administers the unit's budget, defining proposed expenditures for IT equipment, human resources, training, travel, conferences and other major activities.

## Position: 0805 IT/Systems Security Analyst

## Position Description:

Serves as an intermediate level analyst for computer security systems. Monitors current security systems to control access to systems and detects and reports violations. Assists in the development of new security measures as required. Analyzes hardware and software to provide security for microcomputers, mainframes, office systems, local and wide area networks, voice/data systems, etc. Conducts moderately complex risk assessments, risk certifications, software security reviews, changes in legislation, professional security standards, and business requirements.

## Position: 0735 Sr. Database Administrator

## Position Description:

Serves as technical advisor/consultant or project leader for complex database/data communications projects. Analyzes, enhances, and maintains the company's database and data communications systems. Analyzes, plans, installs, configures, enhances and maintains database/data communications software, such as performance monitors, application development tools, and database utilities. Deviates from traditional methods to design and maintain systems. Expertise is greater than full-performance/journey level database administrator. Works simultaneously on several complex projects.

## Position: 0806 Database Administrator

## Position Description:

Serves as technical advisor/consultant for moderate/less complex database/data communications projects. Analyzes, enhances, and maintains the company's database and data communications systems. Analyzes, plans, installs, configures, enhances and maintains database/data communications software, such as performance monitors, application development tools, and database utilities. Uses standard methods to design and maintain systems. May work simultaneously on several projects.

## Position: 0736 Systems Engineer

## Position Description

Responsible for the overall systems infrastructure including engineering, implementation and integration, and technical services and support. Designs, implements/installs, maintains, and administers infrastructures including hardware, software, and various configurations. Monitors overall performance to proactively identify potential issues and tune appropriately. Performs root cause analysis on failed components and implements corrective measures. Works with others to establish and improve processes and procedures. May have sole responsibility for projects and participate in disaster recovery exercises. Generally focuses on projects for one of the following disciplines: Unix, Windows, AS400, storage, reporting, testing, middleware, or other software.

## Position: 0807 Sr Financial Systems Analyst

## Position Description

Provides support/direction to lower level analysts. Responsible for the analysis of economic, financial and structure data. Analyzes the most complex reporting series and structure data questions and problems; responds to client inquiries in the areas of regulation, automation, data transactions and structure processing. Performs primary financial and structure data analysis for data series and may review the work of lower level analysts. May lead in the development of new analytical techniques to be used for crosssectional and time-series analysis of data trend. Requires advanced knowledge of financial/accounting principles, data processing issues, computer operations and various PC software packages. May make modifications to established standards and procedures.

## Position: 0742 Accountant (Financial Practices)

## Position Description:

Focuses on the oversight and interpretations and analyzes technical and complex accounting and financial reporting issues. Position responsibilities include: participating in accounting consultations often involving unique, novel or complex accounting proposals or treatments in registrant financial statements; studying proposed statements of the Financial Accounting Standards Board (FASB) and International Accounting Standards Board (IASB); evaluating issue summaries under consideration by the FASB's Emerging Issues Task Force (EITF) and the IASB's International Financial Reporting Interpretations Committee (IFRIC); and preparing drafts of staff accounting bulletins (SABs) and financial reporting releases (FRRs) or other rulemaking materials. Reviews matters appealed from another Division or Office and assists in the evaluation of enforcement cases against registrants and auditors.

## Position: 0746 Financial Accounting Mgr

## Position: 0747 Senior Accountant

## Position Description:

Prepares income and balance sheet statements, consolidated statements, and various other accounting statements and reports. Analyzes financial reports and records, making recommendations relative to the accounting of reserves, assets, and expenditures. Reviews and verifies the accuracy of journal entries and accounting classifications assigned to various records. Utilizes an automated accounting system to input, retrieve or display accounting information. Conducts special studies and develops or recommends accounting methods and procedures. Instructs or assigns work to lower level staff engaged in general accounting activities. Coordinates accounting matters with other departments, locations and divisions.

## Position: 0754 Contract Specialist

## Position Description:

Serves as program specialist in Acquisition Management. Performs all actions associated with developing and awarding the full range of contracts for goods and services. Independently plans complex solicitations using negotiated procurement, sealed bidding, and simplified acquisition procedures. Formulates contracting strategies, including planning and advising on contracting actions. Serves as the lead negotiator during contract negotiations; coordinates with technical, program, and legal personnel. Awards contracts and performs detailed contract administration functions.

## Position: 0756 Director (Examiner, Specialty Area)

## Position Description:

Serves as a director or senior manager for a division. Plans, organizes, implements and directs activities associated with one or more of the following areas: credit, capital markets, asset management issues; compliance process and consumer policy programs; capital markets and safety and soundness; or core policy development. Advises executive management on issues related to areas of expertise, directs work teams and interprets policies and procedures and represents the agency externally and internally on issues related to area of expertise. Directs and participates in the formulation and implementation of supervisory policies, examination procedures and supervisory guidance within assigned functional area. Takes action to ensure supervisory philosophies are effectively communicated, implemented and measured.

## Position: 0757 Field Manager

## Position Description:

Manages supervisory activities associated with an assigned portfolio of financial institutions. Provides daily supervision of the organization through a team of examiners. Determines appropriate strategies for individual financial institutions; assigns financial institutions to appropriate staff for continuous monitoring; implements/directs quality assurance and directs the execution of quality assurance functions. Maintains awareness of trends within the financial institutions industry and the financial services marketplace. Has signature authority for communications within assigned portfolio. Exercises first-line supervisory authority.

## Position: 0761 Examiner IV (Senior Level)

## Position Description:

As a commissioned examiner, serves as examiner-in-charge of complex financial institutions. May also serve as head of a significant functional area in the large financial institutions and assist in the ongoing supervision of major departments. Responsible for planning, coordinating, and monitoring supervisory activities. Assesses risk, develops supervisory strategies, determines scope of supervision activities. Develops responses to address risks within the institution. Prepares communications with Boards of Directors and financial institution management in order to foster positive changes within the financial institution.

## Position: 0761 Examiner IV (Senior Level)

## Competitive Market Data

## Position: 0762 Examiner III (Full Performance)

## Position Description:

As a commissioned examiner and with minimal supervision, evaluates financial institution activities, prepares report comments, and meets with financial institution management to discuss findings. Serves as examiner-in-charge of complex financial institutions. Plans, coordinates, and monitors supervisory activities, including assessing risk, developing supervisory strategies, determining scope of supervisory activities, and managing teams. Conducts moderately complex examinations of financial institutions to assess their safety and soundness and to monitor compliance with policies and procedures as well as applicable federal and state laws and regulations. Serves as primary point of contact with assigned financial institution or portfolio of institutions.

## Position: 0763 Examiner II

## Position Description:

Serves as a developmental professional. Assists in the ongoing supervision of a portfolio of a financial organization, subject to the review of more experienced examiners. Issues are generally of limited to modest complexity, such as those found in smaller to medium-sized financial organizations. Participates in discussions with the financial organizations' management and Board of Directors. Assists senior examination staff in developing future supervisory strategies. May act as examiner-in-charge of financial institutions with limited complexity.

## Position: 0764 Examiner I (Entry Level)

## Position Description

This is an entry-level financial institution examining position that may also include financial career interns. Under close supervision, assists or conducts financial institution supervisory procedures of limited complexity in financial institutions. Gathers, organizes, and analyzes selected data including examining business plans and budgets, accounting records, loan documents, audit reports, etc. Actively participates in self-study, on-the-job and formal training to acquire knowledge of basic procedures and practices used in the financial institution supervision process.

## Position: 0767 Sr Examiner (Compliance)

## Position Description:

As a commissioned examiner, serves as a senior staff member and EIC in the area of compliance. Responsible for applying examination techniques to determine a financial institution's overall compliance with appropriate laws and regulations including those utilized for detecting patterns of discriminate lending practices, Community Reinvestment Act (CRA), Anti-Money Laundering (AML), and Bank Secrecy Act (BSA) compliance. Develops supervisory strategies including plans to effect corrective action and programs to monitor progress for financial institutions of all levels of complexity. Relied upon by other examiners for advice on complex consumer, community, and related compliance matters.

## Position: 0812 RAD Director

## Position Description:

Serves as senior manager and/or director in Credit, Market, Compliance or Enterprise Risk Analysis. Plans, organizes, implements and directs activities associated with delivering expertise on quantitative economic modeling to bank examiners and policy makers within the organization. Models, develops and supervises risk simulation scenarios, quantitative modeling exam support, research projects, and analyses in area of expertise. Participates in the implementation of risk valuation models and conceives and implements regulations and supervisory requirements to limit and manage risk.

## Position: 0783 Human Resources Assistant

## Position Description:

Provides clerical/administrative support to one or more functional areas of Human Resources, such as recruitment and staffing, personnel records, employee or labor relations, compensation, benefits, training and/or equal opportunity/affirmative action. Processes various applications, employment, enrollment, pay change, informational and other confidential forms and records. Gathers information and prepares reports. Maintains and distributes as appropriate, current employee information, policy and procedure manuals and other communications. May conduct and summarize internal and external surveys to gather information for policy development and planning. May perform higher level duties involving employee communications, such as pre-employment screening, responding to routine questions on human resources policies and procedures, identifying potential issues and grievances, etc.

## Position: 0784 Security Director

## Position Description:

Develops and manages the Security Services Division with responsibility for personnel security, physical security, and continuity of operations planning. Establishes agencywide physical security policies and standards; performs periodic vulnerability assessments of the physical security operations of the facility to determine specific weaknesses. Develops policies and procedures for the personnel security program, which includes initiating and processing required employee and contractor suitability investigations to insure the minimum standards of fitness and integrity. Develops, implements, and maintains a Continuity of Operations plan for the agency. This is the highest level security position in the organization.

## Position: 0810 Security Specialist

## Position Description:

Manages and implements security processes and controls in one or more specialty areas, such as: Electronic Security, Physical Security, Emergency Management or Continuity of Operations. May work/liase with all levels of staff and outside contractors. Maintains awareness of current physical security systems, software upgrades, field equipment, and industry trends. Makes recommendations regarding new programs, technology, and techniques to enhance security and/or resolve problems. May perform or assist in performing periodic vulnerability assessments of the physical security operations of the facility to determine specific weaknesses/vulnerabilities.

## Position: 0813 Public Affairs Specialist (Full Performance Level)

## Position Description

Focuses on the external communications and support for internal and community programs for the organization. Writes, edits, and manages external media materials, talking points, media outreach, press releases, public service announcements, fact sheets, and other material for distribution. Collaborates with other public affairs staff to coordinate draft material and responses to inquiries. Researches, prepares, and presents analysis of media coverage, news release, and public service program effectiveness and impact. Coordinates the posting of news releases to organizations web sites, e-mail distribution, and news release distribution services.

Position: 0787 Staff Assistant to an Executive

## Position Description

Performs standard, advanced and confidential administrative duties for an executive of a division requiring broad experience, skill and knowledge of organization policies and practices. Prepares correspondence, memoranda, reports, etc. Composes routine correspondence and memoranda. Serves as a central point of communication and coordination between the Executive's office and other offices and external agencies. Screens telephone calls and visitors, and resolves routine and some complex inquiries. Schedules and maintains calendar of appointments, meetings and travel itineraries, and coordinates related arrangements. Prepares and distributes minutes of meetings. May utilize the assistance of one or more lower level administrative staff on a project basis.

## Position: 0788 Senior Staff Assistant

## Position Description:

Serves as an administrative support staff member for a senior manager. Assists in the operation and coordination of all administrative and office functions. Instructs lower level administrative staff on office practices including telephone techniques, supply and records management, and development and maintenance of filing systems. Receives visitors, coordinates extensive travel arrangements, and screens all calls for the executive. Composes correspondence of a general administrative nature for executive's signature. Ensures efficiency in the administration of office policies, practices, and procedures, recommending changes as needed.

## Position: 0791 Staff Assistant

## Position Description

Uses basic knowledge to provide a variety of technical and administrative support for a manager or director over a unit or division. Manages a wide variety of office functions for the unit or division to ensure consistency and efficiency in the implementation of administrative policies, practices, and procedures. Prepares a variety of personnel, training, and accounting forms to document hours worked, leave, project codes, and travel activities. Schedules appointments, meetings, and conferences with individuals at all levels inside and outside of the organization.

## Position: 0792 Clerk/Office Assistant

## Position Description:

Performs routine but varied clerical duties in accordance with standard procedures. This includes clerical duties such as photocopying, compiling records, filing, tabulating, posting information, and distributing mail. Applies knowledge of department policies and procedures, and utilizes a general understanding of other departments' functions.
Maintains records, prepares forms, verifies information and resolves routine problems.

## Glossary of Terms

## Glossary of Terms

The survey reports present compensation information on all segments of the workforce. As a result, there is substantial continuity in the formats and content of data presentations from report to report. At the same time, each report is designed to provide data that is most pertinent to the specific types of jobs covered in the report as well as the expressed needs of subscribers. As a result of these variations in reports, some of the terms and scope factors contained in this Glossary do not appear in every report.

Assets: The total value, as of the last fiscal year, of all property having commercial or exchange value owned by a business, corporation or institution that may be used to discharge its liabilities.

Asset Size Group: Dollar range used to group organizations of similar asset size.
Average (Mean): A simple arithmetic average is calculated by adding all occurrences of data, e.g., the average salary for a given job as reported by each survey participant, and dividing the result by the number of occurrences, i.e., the number of participants. Averages, or means, weigh each participant's input on an equal basis, regardless of the number of incumbents reported.

Bonus: Bonuses can be paid from a formal plan or can be discretionary in nature. Generally, bonuses result from overall organizational financial results or a combination of financial results and individual performance.

Compa-Ratio: Current base salary divided by the salary range midpoint for each employee reported with both base salary and midpoint. The calculation is then averaged for all employees.

Credit Card Loans: All credit extended to individuals, or commercial or industrial enterprises through credit cards and related plans - outstanding at year-end, net of unearned discount.

Dividend Equivalent: Plans that grant a number of units to an executive, each of which creates rights to a payment equal to any dividends paid on a share of the company's stock. Dividend equivalent plans are similar to phantom stock option plans, except that payment is limited to dividend equivalents and does not include any stock price appreciation.

Executive: Employees in top-level management positions; they have major, organization-wide decision-making authority and responsibility for their functional area.

Exempt, Non-Management: Employees are "doers" with well-established work procedures. They are typically professional level employees, and are not required to be paid overtime under the provisions of the Fair Labor Standards Act (FLSA).

First Quartile (25th Percentile): The value in an array that falls at the first quarter, or 25th percentile, of the sample. Seventy-five percent, or three-fourths, of the values in the sample are greater in magnitude than the first quartile value.

FLSA Status: Refers to whether or not a particular position is exempt from the overtime provisions of the Fair Labor Standards Act.

Full-Time Equivalent (FTE) Employment: The number of U.S. full-time employees plus part-time employees converted to full-time equivalents. To convert part-timers to FTEs, sum all part-time hours and divide by baseline annual hours (e.g., 40 weekly hours $\times 52$ weeks $=2,080$ annual hours). This number is then added to the number of full-time employees to give you the total number of full-time equivalent (FTE) employees.

## Glossary of Terms

Grant Value: The number of shares or units multiplied by the stock/unit price at the time of the grant.
Hiring Rate: Rate paid to new hires.
Hourly Rate: The rate of pay paid to incumbents expressed in dollars and cents per hour. To convert an annual salary to an hourly rate, first convert the annual base pay to a weekly base pay by dividing by 52 , then divide the weekly rate by the number of hours in the organization's standard workweek.

Incentive: Compensation paid under a bonus, commission, profit-sharing, or other short-term cash compensation plan that provides awards based on management discretion or established criteria, such as the overall performance of the organization, achievement of goals, etc.

Income From Fiduciary Activities: Gross income from services rendered by the bank's trust department or by any of its consolidated subsidiaries acting in any fiduciary capacity. Does not include commissions and fees received for the accumulation or disbursement of funds deposited to IRAs or Keogh Plans when they are not handled by the trust department.

Industry: This designation refers to the primary industry classification of a reporting organization.
Long-Term Incentive: Variable compensation related typically to individual and/or company/group performance. Examples are stock option plans, performance share or unit plans, and restricted stock plans. Awards made under plans of these types are always in recognition of results longer than 12 months.

Long-Term Incentive Cash: A cash-based incentive plan whose performance cycle/period is longer than one year. Generally, performance periods in Long-Term Incentive cash plans are three years. Target awards under this type of plan are established and denominated in cash though the actual form of the award could be stock.

Management, Excluding Executives: Employees who have decision-making authority that has some impact on the organization, along with the delegation of authority to lower level employees. They exercise the usual authority of a manager concerning staffing, performance appraisals, promotions, salary recommendations and terminations.

Median (50th Percentile): The value in the middle of an odd numbered array of data when the values are ordered by magnitude. Half of the values in the sample fall above this number and half fall below it. When the array contains an even number of values, the median is midway between the central values.

Nonexempt Hourly: Employees who are hourly and paid overtime under the provisions of the Fair Labor Standards Act (FLSA).

Nonexempt Salaried: Employees who are salaried and paid overtime under the provisions of the Fair Labor Standards Act (FLSA).

Operating Budget: All financial expenditures made (excluding capital expenditures) by the organization during the last fiscal year.

Operating Revenue: In health care, it is net patient revenue plus other revenue such as government grants, endowments, contributions, etc.

## Glossary of Terms

Other Cash Compensation: Short-term cash compensation paid under variable pay or alternative reward programs that may include the following:

- Current Cash Profit Sharing
- Commission/Override
- Team/Small Group Incentives
- Individual Incentives
- Gainsharing Awards
- Key Contributor Retention Awards
- Spot Awards
- Technical Achievement Awards
- Lump Sum Merit Pay
- All other similar short-term cash payments, e.g., holiday bonuses

Percentile: A value identified by its position in an array, below which the data falls.
10th Percentile: The value in an array below which falls $10 \%$ of the sample and above which lies $90 \%$ of the sample. Together with the 90th percentile, a range of data can be identified that eliminates extremes in the sample and provides a more realistic dispersion of data.

25th Percentile: The value in an array below which falls $25 \%$ of the sample. Seventy-five percent, or three-fourths, of the values in the sample are greater in magnitude than the 25 th percentile value.

50th Percentile (Median): The value in the middle of an odd numbered array of data when the values are ordered by magnitude. Half of the values in the sample fall above this number and half fall below it. When the array contains an even number of values, the median is midway between the central values.

75th Percentile: The value in an array below which falls $75 \%$ of the sample. Twenty-five percent, or onefourth, of the values in the sample are greater in magnitude than the 75th percentile value.

90th Percentile: The value in an array below which falls $90 \%$ of a sample and above which lies $10 \%$ of the sample. Together with the 10th percentile, a range of data can be identified that eliminates extremes in the sample and provides a more realistic dispersion of data.

Percentile Calculation Guidelines: Percentiles can be calculated by locating the desired rank, or position, in an array of data points and applying the formula:

$$
\mathrm{J}(\mathrm{~N}+1) / 100
$$

$J=$ the rank of the desired percentile (e.g., 10 for 10th percentile, 90 for the 90th percentile, etc.)
$\mathrm{N}=$ the number of data points
For example, the 10th percentile in an array of 49 salaries is the value of the fifth position in the array.

$$
\begin{aligned}
\text { 10th Percentile } & =10(49+1) / 100 \\
& =500 / 100 \\
& =5.0
\end{aligned}
$$

When there is no value in an array that corresponds exactly to the desired percentile or quartile, it may be interpolated. For example, the position of the 10th percentile in an array of 16 salaries is 0.7 of the way between the first and second salaries in the array.

| 10th Percentile | $=10(16+1) / 100$ |
| ---: | :--- |
|  | $=170 / 100$ |
|  | $=1.7$ |

## Glossary of Terms

Examples of Percentiles, Median and Interpolations

| Salary Array |  |  |  |
| :---: | :---: | :---: | :---: |

Performance Share/Units: "Share" plans contingently grant stock units that entitle the individual to actual shares of stock or their cash equivalent at time of payment, if predetermined objectives are achieved. The unit of value may appreciate or decline between the initial award and the payment date. "Unit" plans contingently grant units that entitle an individual to cash payments or their equivalent in stock if predetermined objectives are achieved. The unit value is fixed at the time of the award.

Phantom Stock: Plans that grant a number of units to an individual, each of which creates rights to a payment equal to any appreciation that occurs in the market value of a share of company stock between the date of grant and some future date, often accompanied by dividend equivalent payments. Phantom plans differ from other stock incentive plans in that no stock is actually transferred to a participating individual.

Product/Service Type: This designation represents the majority of a reporting organization's product and services available for sale (i.e., consumer or industrial).

Ratio of Median Salary to All Organization Median: The relationship of the median salary, expressed as a percent, to the median salary of the position for All Organizations. The [median salary divided by the All Organizations median salary] multiplied by 100.

Real Estate Loans Closed: The total dollar amount of all real estate loans closed or purchased during the year.

Responsibility Level: An indication of a position's decision-making responsibility and management's reliance on the position to make such decisions.

Restricted Stock: Awards from these types of plans are made in the form of shares of company stock. Actual shares of stock are credited to the employee, but the shares carry restrictions regarding continued employment with the organization for a specified period of time, during which the executive is not permitted to sell stock. Restricted Stock Awards serve as a "retention" device.

## Glossary of Terms

Salary: Fixed compensation paid weekly, monthly, or annually (rather than hourly), typically to jobs exempt from FLSA provisions, excluding any variable payments, such as bonus/incentive, other cash compensation, overtime payments or shift differentials.

Salary Range: A formal range of salaries that establishes the lowest and highest salary an organization is willing to pay for a given job.

Minimum: The bottom value in an established salary range, representing the lowest salary at which an employee in the position could be paid.

Midpoint: The middle value in an established salary range, representing the salary midway between the established minimum and maximum.

Maximum: The top value in an established salary range, representing the highest salary at which an employee in the position could be paid.

Sales Contests/Product SPIFFs: Sales Contest and Product SPIFFs are typically based on individual sales performance. They are not part of the sales incentives; they are separate and distinct from the sales incentive and may be earned regardless of the sales incentive plan. Product SPIFFs (Sales Performance Incentive Funding Formula) are incentives for performance in selling a particular product(s).

Sales Incentive (e.g., commissions, quota achievement plans): Sales Incentives are paid from formal sales compensation plans regardless of whether they are earned through commission rates or goal-based bonus formulas. Generally, sales incentives result from achieving specific sales results and can be tied to individual or sales team performance. They can also be earned from results of the organization as a whole where this measure provides an opportunity to earn a portion of target incentive under the sales incentive plan.

Sales/Revenue: Any income received by a company, group, division or subsidiary in exchange for goods or services.

SAR (Stock Appreciation Rights): Provide an individual with an election to receive an amount of cash or stock equal to the difference between current market value of company stock and the option price in lieu of exercising an underlying stock option. This allows the individual to receive an amount equal to the appreciation in the stock's value without raising the money that would be needed to exercise the stock option.

Scope Grouping: A display of compensation data arrayed in either a discrete or overlapping group based on, for example, annual sales, total assets (financial services organizations), operating revenue and total full-time equivalent (FTE) employment (not-for-profit organizations). Compensation information in each grouping represents the data for only those companies within each grouping parameter, allowing for an analysis of the impact of the organizational size measure on compensation.

Servicing Portfolio: The total dollar amount of all first residential and income (investment) property mortgage loans serviced by the company, as of year-end. Includes both loans that are carried on the books as assets and those that are not carried on the books.

## Glossary of Terms

Stock Options: These plans provide an individual with the right to purchase a specified number of shares of company stock at a fixed price over a stated time period (e.g., Nonqualified Stock Options or Incentive Stock Options). [Nonqualified Stock Options (NQSOs): Can be granted at a price below fair market value. The option may be exercised (i.e., shares of company stock may be bought from the company) at any time during the option period, unless exercise restrictions are placed on the option.] [Incentive Stock Options (ISOs): If the options meet specific requirements (e.g., the option price must be equal to or greater than the fair market value at grant, stock must be held for one year after exercise and two years after grant), then the executive is not taxed until sale of the stock (i.e., not taxed at exercise).]

Target Bonus: Formally established bonus and/or other cash compensation to be paid for the achievement of established performance criteria or goals.

Third Quartile (75th Percentile): The value in an array that falls at the third quarter, or 75th percentile, of a sample. Twenty-five percent, or one-fourth, of the values in the sample are greater in magnitude than the third quartile value.

Time-Lapse Restricted Stock/Units: The grant of restricted stock or restricted stock units with a vesting schedule based solely on the lapse of time. Company or individual performance has no effect on the vesting of the grant.

Total Assets: The consolidated assets of the reporting entity as of year-end.
Total Cash Compensation: The sum of base pay, bonus, and other direct cash compensation payments from variable pay programs.

Total Direct Compensation: The sum of salary, bonus or other cash compensation and the expected value of long-term incentive awards.

Weighted Average: An average calculated by multiplying each occurrence of data by a weighting factor, e.g., average salary reported by the number of incumbents in the position at each reporting company. The results are added and then divided by the weighting of that factor, i.e., the total number of incumbents reported.

Calculation of Weighted Average Salary

|  | Average Salary Reported |  | \# of Incumbents in Position |  |  | Average Salary Reported Multiplied by \# of Reported Incumbents |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Organization \#1 | \$ | 38,300 | x | 2 | = | \$ | 76,600 |
| Organization \#2 | \$ | 42,700 | X | 3 | = | \$ | 128,100 |
| Organization \#3 | \$ | 43,500 | X | 5 | = | \$ | 217,500 |
| Organization \#4 | \$ | 40,100 | X | 2 | = | \$ | 80,200 |
| Organization \#5 | \$ | 44,600 | X | 6 | = | \$ | 267,600 |
| Organization \#6 | \$ | 48,200 | X | 12 | = | \$ | 578,400 |
| Total |  | 257,400 |  | 30 | = | \$ | 1,348,400 |
|  |  |  | $\$ 1,348,400 \div 30$ (total \# of reported incumbents) = Weighted Average Salary of \$44,947 |  |  |  |  |

Year of Service: A year of service is a twelve-month period during which an employee works at least 1,000 hours. Years of service are used for participation, vesting, and the determination of accrued benefits.
