

**Dr. Nancy Foster Scholarship Program
Exit Evaluation and Two-Year Voluntary Alumni Evaluation**

This is a voluntary survey.

NOAA conducts the Dr. Nancy Foster Scholarship Program to encourage independent graduate level research—particularly by female and minority students. The reason for the collection of information is general program oversight, evaluation and performance assessment.

This Dr. Nancy Foster Scholarship Program evaluation gathers information about the pursuit and completion of degrees, employment and involvement in other programs related to your Dr. Nancy Foster Scholarship.

We thank you for your participation and feedback, as it will be of great help to NOAA. The data will be treated as confidential and will be reported only in statistical summaries so that individual members cannot be identified.

This reporting requirement is approved under the Paperwork Reduction Act of 1995, OMB Control No. 0648-0432. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection displays a currently valid OMB Control Number. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and reviewing the collection of information.

Send comments regarding this burden estimate or any other aspect of this collection, including suggestions for reducing this burden, to:
