Proposed Revised Addendum A

Manufacturer's Name	NDC1	NDC2	NDC3	AlternateID	Manufacturer's Average Sales Price	Number of ASP Units	Wholesale Acquisition Cost	Name of Drug or Biological	Strength of the Product	Volume Per Item	Number of Items Per NDC	Expiration Date of Final Lot Sold	Date of First Sale	Number of CAP Units Excluded	FDA Application Number	FDA Application Supplement Number	Additional FDA Application Number #1	Additional FDA Application Supplement Number #1	Additional FDA Application Number #2	Additional FDA Application Supplement Number #2	FDA Final Pre-Marketing Approval Date	FDA Approval Type	Description of FDA Approval Type	Descriptive Data Corrected

Column A	Column B	Column C	Column D	Column E
1) This is a required free form field	1) This is a requred field if Alternate ID is left blank	1) This is a requred field if Alternate ID is left blank	1) This is a required field if Alternate ID is left blank	1) This is a required field if NDC1, NDC2, or NDC3 is left blank.
	2) 5 digit number which identifies the labeler.	2) 4 digit number which identifies the product.	2) 2 digit number which identifies the package size.	2) Numeric or alphanumeric alternate drug identifier (ex. An NHRIC number) can be entered.
				3) Value must be 23 characters or less.

Column F - 1) This is a required field	Column G - 1) This is a required field	Column H - 1) This is a required field	Column I - 1) This is a required free form field	Column J - 1) This is a required field free form field
2) Value must be any positive or negative numbers including zero	2) Must show three decimal places	2) WAC must be a valid or positive number including zero	2) Must be alphanumeric limited to 100 characters	2) Must be alphanumeric limited to 500 characters
3) Value must include three decimal places.	3) Must be any valid positive or negative number including zero.	3) Value must include three decimal places.		
4) ASP should not be greater than WAC but ASP could be greater than WAC		4) "$" is not an allowed value.		
5) "$" is not an allowed value.				
Note: The CMS validation macro will flag an NDC if the ASP is greater than WAC .				

Column K - 1) This is a required free form field	Column L - 1) This is a required field	Column M - 1) This is not a required field	Column N - 1) This is a required field	Column O - 1) This is not a required field
2) Limited to no more than 12 alphanumeric characters.	2) Must be limited to a 10 digit numeric value.	2) Value must be in date format (MM/DD/YYYY).	2) Value must be in date format (MM/DD/YYYY).	2) Data must be numeric and show three decimal places.

Column K - 1) This is a required free form field

2) Limited to no more than 12 alphanumeric characters.

Column L - 1) This is a required field

2) Must be limited to a 10 digit numeric value.

Column M - 1) This is not a required field

2) Value must be in date format (MM/DD/YYYY).

Column N - 1) This is a required field

2) Value must be in date format (MM/DD/YYYY).

Column O - 1) This is not a required field

2) Data must be numeric and show three decimal places.

Column P - 1) This is a required field	Column Q - 1) This is not a required field	Column R - 1) This is not a required field	Column S - 1) This is not a required field	Column T - 1) This is not a required field
2) Data may include a mixture of alpha numeric and numeric values	2) Data may include a mixture of alpha numeric and numeric values	2) Data may include a mixture of alpha numeric and numeric values	2) Data may include a mixture of alpha numeric and numeric values	2) Data may include a mixture of alpha numeric and numeric values
3) Value is limited to 6 or 7 characters	3) Value is limited to 4 numeric characters.	3) Value is limited to 6 or 7 characters	3) Value is limited to 4 characters.	3) Value is limited to 6 or 7 characters
4) Character should not include dashes.		4) Character should not include dashes.		4) Character should not include dashes.
5) Field should not include blanks.				

Column U - 1) This is not a required field	Column V - 1) This is a required field	Column W - 1) This is a required field	Column X - 1) This is a required field if the FDA Approval Type is categorized as OTHER.	Column Y - 1) This is not a required field. Freeform field.
2) Data may include a mixture of alpha numeric and numeric values	2) Value must be in date format (MM/DD/YYYY)	2) Must only be values in FDA approval type list (ANDA, NDA, 510K, BLA, PMA, Human Tissue, Vaccine, Other).	This field should not be populated otherwise.	
3) Value is limited to 4 characters.	3) if there is no approval date, baseline date should be set to 01/01/1965.
