Appendix D19. Reminder Email Invitation for Key Informant Interview (Former Sponsors)

Subject: Reminder - *Summer Meals Study* Telephone Discussion

Dear [FORMER SPONSOR CONTACT NAME]:

We recently sent you an email to schedule a telephone discussion with you about your prior experience operating the Summer Food Service Program (SFSP) or Seamless Summer Option (SSO). This is part of the U.S. Department of Agriculture’s *Summer Meals Study*. We would really appreciate your participation in this discussion and would like to schedule it as soon as possible.

The *Summer Meals Study* will help us to better understand who participates and how we could better meet the nutritional needs of children in the summer. The study will ask about how satisfied participants are with the programs, and why some families and their children do not participate in summer meals. We will also collect information on how the meals are served, where they are served, and how healthy the summer meals are. USDA is working with Westat to collect information from program sponsors, site supervisors, participating children, as well as children who do not participate, and their caregivers during Summer 2018. Please see the **attached** *Summer Meals Study* brochure for more detail.

The discussion will take 30 minutes and will provide us important information and perspectives about your prior experience as a sponsor, reasons for discontinuing participation in <SFSP/SSO/local program name>, whether you sponsored other meals programs, and any future plans for participation.

Your participation in this discussion is completely voluntary. However, your feedback will improve our understanding of the Summer Meal Programs, including what helps or does not help organizations participate. Please know that your responses will be kept private as required by law and will not be shared with anyone not involved with conducting the study. Neither your name nor any other information about your identity will be used in any reports. The information you provide will be combined with information from everyone who participates in the study. You may skip any question that you prefer not to answer. As described in the system of record notice (SORN) titled FNS-8 USDA/FNS Studies and Reports (published in the Federal Register on April 25, 1991, volume 56, pages 19078-19080), FNS and contractors working on their behalf may collect and analyze this information for research purposes and are required to have safeguards in place to keep data private.
