

Appendix H13. Nonparticipant Caregiver Key Informant Interview Pretest Protocol

# Non-Participant/Caregiver Qualitative Interview Protocol

#### INTRODUCTION

Hello, my name is \_\_\_\_\_\_ and I work for Westat, a survey research company in Rockville, Maryland. Thank you [again] for taking the time to participate in this research study.

May I just check, am I speaking with <NAME FROM QUANTITATIVE SURVEY>. Great! [Just to remind you that] Westat is working with the Food and Nutrition Service, U.S. Department of Agriculture, on a study about who does and does not recives meals at summer programs and how these programs can be improved so more children can take part. Part of this study includes talking directly with people such as yourself about your experiences, if any, with summer food programs and what could be done to encourage more children to attend. We have developed a guide for our interviewers to use while talking with people. Before we conduct these interviews on a broader scale, we are interested in identifying areas for improving the questions we are going to ask. The goal is to ensure that the questions are easy to understand and answer.

Today I will conduct the interview with you that we are planning to use for the broader study and then when we are finished I'll ask you about your experience answering the questions. There are no right or wrong answers. Our purpose is not to compile information on you or your child(ren). Instead, your interview along with those of others will show us how to improve our interview and the questions we ask.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Services, Office of Policy Support, 3101 Park Center Drive, Room 1014, Alexandria, VA 22302 ATTN: PRA (0584-0606). Do not return the completed form to this address.

#### INFORMED CONSENT

Before we get started, there are a few things I should mention.

- This is a research study, and your participation is <u>voluntary</u>. If you prefer not to answer any questions just say so and we'll go on to the next one. It's also okay if you change your mind after starting and would rather not participate. If you choose not to participate or answer a question, it will not have any impact on <PROGRAM / SITE>.
- All your answers, everything you say, will be kept <u>confidential</u>. We will not use your name or other identifying information in any reports, though we may include quotes you provide in our reports.
- •
- The thoughts and opinions that you share during our discussion will be used for research purposes only. We will combine your responses with those from other parents or caregivers.
- This discussion will take about 30 minutes and you will receive \$20
- We will also need to <u>audio record</u> our conversation. This helps me so I can listen to what you are saying and won't have to take a lot of detailed notes while you are talking. It will also help when we write up a summary of this interview.
- Only project staff will have access to the recording and other project materials. These materials will be <u>destroyed</u> once we have completed the project

Do you have any questions? [ANSWER ALL QUESTIONS]

Do I have your consent to participate?

**IF YES:** Okay. I will turn the recorder on now.

[ONCE RECORDER IS ON, "Now that the recorder is on, today is DATE at TIME. Do I still have your permission to audio record this interview?" MAKE SURE YOU GET AN AUDIBLE "Yes" FROM RESPONDENT.]

### Procedures

First I'll ask you the questions we will be asking people. After that part of the interview is over, we'll stop and I'll ask you some questions abut your answers, including your reactions to the series of questions we had just completed. However, if there is anything that you don't understand or is confusing to you as we go through the questions it would be helpful if you could mention it at the time.

Do you have any questions before we start?
