Former Sponsor Qualitative Interview Feasibility Interview Protocol

INTRODUCTION

Hello, my name is _____ and I work for Insight Policy Research, a research company in Arlington, Virginia. Thank you [again] for taking the time to participate in this research study. May I just check, am I speaking with <NAME FROM QUANTITATIVE SURVEY RECRUITMENT>. Great! [Just to remind you that] Insight is working with the Food and Nutrition Service, U.S. Department of Agriculture, on a study about the Summer Meals Programs and how these programs can be improved so more children can take part. Part of this study includes talking directly with former sponsors of Summer Meals programs to better understand if there are parts of the programs that could be improved. We have developed an interview guide to use while talking with former program sponsors. Before we conduct these interviews on a broader scale, we are interested in identifying areas for improving the questions. The goal is to ensure that the questions are easy to understand and answer.

Today I will conduct the interview with you that we are planning to use for the broader study. When we are finished, I'll ask you about your experience answering the questions. There are no right or wrong answers. Our purpose is not to compile information on you or your program. Instead, your interview along with those of other sponsors, will help us improve the questions and estimate how long the interview takes.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Services, Office of Policy Support, 3101 Park Center Drive, Room 1014, Alexandria, VA 22302 ATTN: PRA (0584-0606). Do not return the completed form to this address.

INFORMED CONSENT

Before we get started, there are a few things I should mention.

- This is a research study, and your participation is voluntary. If you prefer not to answer any questions just say so and we'll go on to the next one. It's also okay if you change your mind after starting and would rather not participate. If you choose not to participate or answer a question, it will not have any impact on <PROGRAM / SITE>.
- All your answers, everything you say, will be kept confidential. We will not use your name or other identifying information in any reports, though we may include quotes you provide in our reports.
- The thoughts and opinions that you share during our discussion will be used for research purposes only. We will combine your responses with those from other former sponsors. They will not be used as an evaluation of your work, your staff's work or <SPONSORING ORGANIZATION>.
- There are no direct benefits to you or <SPONSORING ORGANIZATION> for participating in this study.
- This discussion will take about an hour.
- We will also plan to audio record our conversation. This helps me so I can listen to what you are saying and won't have to take a lot of detailed notes while you are talking. It will also help when we write up a summary of this interview.
- Only project staff will have access to the recording and other project materials. These materials will be destroyed once we have completed the project

We have planned for this discussion to last no more than an hour.
