

SUPPORTING STATEMENT
United States Patent and Trademark Office
Application for Registration to Practice before the United States Patent and
Trademark Office (USPTO)
OMB CONTROL NUMBER 0651-0012
March 2017

A. JUSTIFICATION

1. Necessity of Information Collection

This collection of information is required by 35 U.S.C. 2(b)(2)(D), which permits the United States Patent and Trademark Office (USPTO) to establish regulations governing the recognition and conduct of agents, attorneys, or other persons representing applicants or other parties before the USPTO. This statute also permits the USPTO to require applicants to provide information to demonstrate they are of good moral character and reputation and have the necessary qualifications to assist applicants with patent matters and to represent them before the USPTO.

The USPTO administers the statute through 37 CFR 1.21 and 11.5-11.60. These rules address the requirements to apply for the examination for registration and to demonstrate eligibility to be a registered patent attorney or agent before the USPTO and the requirements to practice in trademark and other non-patent matters. The Office of Enrollment and Discipline (OED) collects information to determine the qualifications of individuals entitled to represent applicants before the USPTO in the preparation and prosecution of patent matters. The OED also collects information to administer and maintain the roster of patent attorneys and agents registered to practice before the USPTO. Information concerning registered patent attorneys and agents is published by the OED in a public roster that can be accessed through the USPTO web site.

Table 1 identifies the proposed statutory and regulatory provisions that require the USPTO to collect this information:

2. Needs and Uses

The OED Director uses the information in this collection to determine whether the applicant is of good moral character and repute; has the necessary legal, scientific, and technical qualifications; and is otherwise competent to advise and assist applicants in the presentation and prosecution of patent applications.

The USPTO uses applicant information in determining whether an applicant may be added to, or an existing practitioner may remain on, the Register of Patent Attorneys and Agents.

The information collected, maintained and used in this collection is based on OMB and USPTO guidelines. This includes the basic information quality standards established in the Paperwork Reduction Act (44 U.S.C. Chapter 35), in OMB Circular A-130, and in the OMB information quality guidelines.

Table 2 outlines how the USPTO and the public use this information. There are eight forms associated with this collection.

Used by the USPTO to provide reasonable accommodation to eligible applicants.

3. Use of Information Technology

The USPTO does not presently use automated, electronic, or other technological collection techniques for the items in this collection of information.

At the present time, the USPTO does provide the option of using fillable forms for many items in this collection. This means that the respondent may type directly into the form on the computer. After typing the information into the form, the form will have to be printed locally, signed, and then submitted to the USPTO in accordance with the instructions in the General Requirements Bulletin. The USPTO continues to expand the number of fillable forms and may move toward electronic submission of those forms in the near future.

The basic contact information the USPTO collects about the attorneys and agents on the register, who are recognized to practice before the USPTO in patent matters, can be accessed by the public through the USPTO's website. When the public clicks on the link to the Roster of Patent Attorneys and Agents, the "Patent Attorneys and Agents Registered to Practice before the USPTO" page will open. From this page, the public can search for registered patent attorneys and agents through a search engine, by geographical region, or by searching through the entire list of registered patent attorneys and agents. The actual attorney/agent names are all formatted in the same manner, regardless of the search conducted: last name, street address, city, state, zip code, telephone number (optional), registration number, and an indication of attorney/agent/government employee status.

The OED Director may publish on the Internet the names and business addresses of all individuals seeking registration or recognition who pass the examination or for whom examination has been waived, as well as, publishing a notice in the *Official Gazette of the United States Patent and Trademark Office* to solicit information bearing on their moral character and reputation. The OED Director also publishes notices of administrative suspensions.

If the USPTO is notified by the patent office of another country that a registered patent agent is no longer registered or no longer in good standing before the patent office of that country, and does not show good cause why his or her name should not be removed from the register, the OED Director shall promptly remove the name from the register and publish that the name has been removed. The OED Director will also remove the names of patent agents who are no longer live in the country in which they are registered and publish that the names have been removed.

4. Efforts to Identify Duplication

The information in this collection is received prior to any other use by the USPTO. The business address of the applicant for registration may be duplicated on individual patent applications. Information concerning a practitioner's record with OED is confidential to the attorney/agent, while information regarding a patent may be shared with other members of a firm or be sent directly to an applicant.

5. Minimizing the Burden to Small Entities

This collection of information does not impose a significant economic impact on small entities or small businesses.

6. Consequences of Less Frequent Collection

This information is collected only at the time of application for registration or recognition to practice before the USPTO in patent matters or to update the roster of registered practitioners, as needed. It could not be conducted less frequently. If the collection of information were not conducted, the USPTO would not be able to admit registered practitioners to practice before the USPTO or keep the roster of registered practitioners updated.

7. Special Circumstances in the Conduct of Information Collection

There are no special circumstances associated with this collection of information.

8. Consultation Outside the Agency

The 60-Day Notice was published in the *Federal Register* on June 30, 2014 (79 Fed Reg. 36782). The comment period ended on August 29, 2014. One public comment was received.

The comment was directed to a specific regulatory requirement. Specifically, the commenter suggested that the USPTO revise 37 CFR § 11.25(a) to exclude traffic violation convictions from crimes that are required to be reported to the OED Director. However, this collection is not the appropriate forum for this comment. Section 11.25(a) was previously addressed in the Final Rule published at 73 FR 47650 (Aug. 14, 2008). The response to comments in that rulemaking explains that the burden on the practitioner to report such convictions of misdemeanors and felonies is reasonable and the information allows the OED Director to continue to oversee the good moral character of a practitioner. The USPTO continues to review its rules and will evaluate the commenter's suggestion in the event that an update to § 11.25(a) is warranted.

The USPTO has long-standing relationships with groups who frequently communicate their views on information collections, including the American Bar Association (ABA), American Intellectual Property Law Association (AIPLA), and International Trademark Association (INTA), as well as business groups, inventor associations, and users of our public facilities. Views expressed by these groups are considered in developing proposals for information collection requirements and during the renewal of an information collection. These organized groups did not communicate any comments regarding the present renewal.

9. Payment or Gifts to Respondents

This information collection does not involve a payment or gift to any respondent. Response to this information collection is necessary for recognition by the USPTO as a registered attorney or agent.

10. Assurance of Confidentiality

Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection contains information of a confidential nature, which is subject to the Privacy Act. This information is collected on Forms PTO-158 Application for Registration to Practice before the United States Patent and Trademark Office, PTO/275 Undertaking Under 37 CFR 11.10(b), and PTO-107A Data Sheet – Register of Patent Attorneys and Agents. Privacy Act Statements are included on all of these forms. A Systems of Records Notice was published in the *Federal Register* on March 19, 2013 (78 Fed Reg. 16839). Administrative controls, such as storage of records in lockable metal file cabinets or in metal file cabinets in secured rooms or premises, or electronic files stored in secure premises with access limited to those whose official duties require access, are used to safeguard this information as appropriate.

11. Justification for Sensitive Questions

The USPTO does request information of a sensitive nature on Forms PTO-158 Application for Registration to Practice Before the United States Patent and Trademark Office, PTO-158A Application for Registration to Practice Before the United States Patent and Trademark Office Under 37 CFR 11.6(c) By a Foreign Resident, PTO-158T Application for Reciprocal Recognition to Practice in Trademark Matters Before the United States Patent and Trademark Office Under 37 CFR 11.14(c), PTO-107S Mandatory Survey – Register of Patent Attorneys and Agents, and PTO-107A Data Sheet – Register of Patent Attorneys and Agents.

35 U.S.C. 31 requires that attorneys, agents, and others possess good moral character and reputation before they are allowed to represent applicants. The information is used to determine the suitability of the applicant as a potential registered patent attorney or agent. On the application forms and the data sheet, the USPTO informs the applicant that candor and truthfulness are considered to be significant elements of fitness relevant for practice before the USPTO, and that they should provide all information, even if it is unfavorable. If the applicant answers “Yes” to any questions, the USPTO also requests that the applicant provide a written statement detailing the facts of the situation and any associated documentation. The USPTO also warns the applicant that failure to disclose any of the requested information may result in either denial of registration or disciplinary proceedings under 37 CFR 11.22 if the applicant becomes a registered patent attorney or agent. The applicant also certifies by his or her signature that all of the information provided in the application is true and correct. The applicant is additionally warned that any willfully false statement or certification is considered to be a criminal offense and is punishable by law under 18 U.S.C. 1001.

12. Estimate of Hour and Cost Burden to Respondents

Table 3 calculates the anticipated burden hours and costs of this information collection to the public, based on the following factors:

- **Respondent Calculation Factors**

The USPTO estimates that it receives approximately 26,600 responses annually.

- **Burden Hour Calculation Factors**

The USPTO estimates that it will take the public from approximately 3 minutes (0.05 hours) to 40 hours, depending upon the complexity of the situation, to gather the necessary information, prepare the appropriate form or documents, and submit the information to the USPTO.

- **Cost Burden Calculation Factors**

The USPTO estimates that the remaining items in this collection will primarily be supplied by intellectual property legal professionals (patent attorneys and agents). The professional rate for attorneys in private firms is \$389 per hour, as published in a report by the 2013 Committee on Economics of Legal Practice of the American Intellectual Property Law Association.

13. Total Annual Non-hour Cost Burden

There are no capital start-up or maintenance costs associated with this information collection. However, this collection does have non-hourly costs due to recordkeeping requirements, filing fees, and mailing costs.

Because the Oath requires a notary public, there are processing costs for this collection. The average fee for having a document notarized is \$2. The USPTO estimates that it will receive 2,195 responses to this information collection per year as a result of this notary requirement, for a total cost of \$4,390 per year.

The application fees are broken out to demonstrate that the application forms can cover any one of five different categories:

- used for the registration examination fee for the USPTO-administered exam and the computerized exam administered by a commercial entity;
- used for registration fees only (former examiners; examination waived);
- used for registration fees for those who must prove fitness to practice;
- used for registration fees by a foreign resident (examination waived).

The annual non-hour cost burden associated with filing fees is \$1,366,200 as outlined in Table 4 below:

Table 4: Filing Fees – Non-hour Cost Burden

	Total	26,635	- - -	\$1,366,200.00

Since all transactions and correspondence regarding registration occur via United States Postal Service there are mailing costs associated with this collection. The General Requirements Bulletin for Admission to the Examination for Registration to Practice in Patent Cases before the USPTO states that all business transactions with the USPTO should be in writing. OED transactions will be based exclusively on the written record pursuant to 37 CFR 1.2. All documents may be submitted to the USPTO by first-class mail through the United States Postal Service. Postage costs will range from \$0.49 to \$1.73.

Consequently, the USPTO estimates that it will receive 26,580 responses to this information collection per year subject to mailing costs, for a total annual postage cost of \$3,988.80.

Therefore, the total annualized non-hour cost burden for this collection based on recordkeeping requirements (\$4,390), filing fees (\$1,366,200), and mailing costs (\$3,988.80) amounts to \$1,374,578.80.

14. Annual Cost to the Federal Government

The USPTO uses a range of resources and staff to handle and process files and related activities associated with this information collection. The USPTO estimates that it takes a GS-9 step 5, a GS-11 step 5, and a GS-15 step 5 between 5 minutes (0.083 hours) and 40 hours to process a significant portion of the information in this collection.

The USPTO estimates that it will take a GS-15, step 5, 1,500 hours to develop and maintain a data bank of 2,000 questions and answers for the registration examination.

The USPTO incurs processing time and costs accounts resend User ID and Password Notices for practitioners. The USPTO estimates that it will take a GS-11, step 5, an average of 2 minutes (0.03 hours) for manual activities associated with account management, that is, generating letters, placing orders for automated notices, etc.

The cover page is a time-saving measure for the USPTO that simplifies document identification. At the present time, document identification is done by contractor support, General Clerk category. The USPTO estimates that it takes a General Clerk approximately 1 minute (0.02 hours) to process a cover page.

The hourly rates for this collection include:

- The hourly rate for a GS-15, step 5, is currently \$67.88. When 30% is added to account for a fully loaded hourly rate, inclusive of benefits and overhead, the cost per hour is \$67.88+ \$20.36, for a rate of \$88.24.
- The hourly rate for a GS-11, step 5, is currently \$34.26. When 30% is added to account for a fully loaded hourly rate, inclusive of benefits and overhead, the cost per hour is \$34.26 + \$10.28, for a rate of \$44.54.
- The hourly rate for a GS-9, step 5, is currently \$28.32. When 30% is added to account for a fully loaded hourly rate, inclusive of benefits and overhead, the cost per hour is \$28.32 + \$8.49, for a rate of \$36.81.
- The hourly rate for a General Clerk is \$31.25 per hour. This is a fully-loaded hourly rate.

15. Reason for Change in Burden

A) Changes in collection since previous renewal in 2014

OMB previously approved this collection in December 2014. The current collection contains:

- 21,935 responses
- 34,934 burden hours
- \$13,408,623.00 in respondent costs
- \$1,372,052.00 in annual (non-hour) costs

The item in IC line 4 (Application for Limited Recognition in USPTO Law School Program for Law Students to Practice Before the United States Patent and Trademark Office (Form PTO-158LS)) has been removed from the collection to avoid double-counting. IC line 4 has been replaced by a new item (Mandatory Survey – Register of Patent Attorneys and Agents (PTO-107S)), which is the cause of the change in burden.

B) Changes in Responses and Burden Hours from the Current Inventory

The proposed collection, as outlined in the tables above, seeks to modify the existing collection. The new proposed collection contains an estimated:

- 26,635 responses
- 37,284 burden hours
- \$14,373,939.00 in respondent costs
- \$1,374,578.80 in annual (non-hour) costs

Changes in Respondent Cost Burden

The total respondent cost burden for this collection has increased by \$965,316 (from \$13,408,623.00 to \$14,373,939.00) from the previous renewal of this collection in December 2014:

- Increase in responses. The change in respondent cost burden is due to the addition of a new IC item. The Application for Law Students has been removed, and a new item (Mandatory Survey – Register of Patent Attorneys and Agents) has been added to the collection.

Changes in Responses and Burden Hours

For this renewal, the USPTO estimates that the annual responses will increase by 4,700 (from 21,935 to 26,635) from the currently approved burden for this collection. This change is due to the following:

- Addition of a new IC item. The Application for Law Students has been removed, and a new item (Mandatory Survey – Register of Patent Attorneys and Agents) has been added to the collection.

Changes in Annual (Non-Hour) Costs

For this renewal, the USPTO estimates that the total annual (non-hour) costs will decrease by \$183.00 (from \$1,372,052.00 to \$1,371,869.00) from the currently approved costs for this collection. This change is due to:

- Removal of item (Application for Limited Recognition in USPTO Law School Program for Law Students to Practice Before the United States Patent and Trademark Office).
