Form Approved
OMB No. 0920-0879
Expiration Date 01/31/2021

## Instructions

Welcome! This data collection is meant for state and local health department staff. Thank you for your interest in completing this survey. We hope to gain a better understanding of health departments' efforts to address ethics issues that arise in the practice of public health. Your feedback is important. It will help us understand how health departments are currently addressing ethical issues and what barriers may exist for implementing public health ethics activities. We are also interested in what data sources are available within your health department for evaluating the impact of having a systematic approach for addressing ethics concerns.

Completing the questionnaire is voluntary and takes approximately 11 minutes. There are no known risks or direct benefits to you from participating or choosing not to participate, but your answers will help CDC improve the public health ethics resources, training, and guidance that the Public Health Ethics Unit at CDC provides to health departments throughout the country. In order to preserve your privacy, we will not link your name or the name of your health department to your individual responses in our report of the findings.

If you have any questions or concerns about this survey, please contact Drue Barrett, PhD, Public Health Ethics Unit Lead, at phethics@cdc.gov or 404-639-4690.

CDC estimates the average public reporting burden for this collection of information as 11 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-0879).

## Section 4: Impact of Public Health Ethics Activities Is it important to be able to demonstrate the impact of a formal public health ethics process in your health department? Yes Unsure What data does your health department collect that would allow for an assessment of the impact of a formal ethics process? Your response(s) should not include any sensitive but unclassified information (SBU), which includes personally identifiable information (PII). In addition to this survey, we are conducting 60-minute telephone interviews with a subset of survey respondents to gain more detailed information about how state and local health departments are addressing ethical issues that arise in public health practice and what needs they may have in building ethics capacity. If you are willing to participate in a telephone interview, please select yes below. We will only be selecting 8 people for telephone interviews. Are you willing to participate in a follow-up interview? Yes No

| Survey Complete  |
|--|
| Thank you for participating in our survey. Your responses are very important to us. If you have any questions about the survey or the telephone interview, please feel free to contact Drue Barrett at Phethics@cdc.gov or 404-639-4690. |
