1 of 2

May I please see your Medicare card to record the last four numbers and any letters of the Health Insurance Claim Number?

* Read if necessary: Providing this information is voluntary. There will be no effect on your benefits if you do not provide this information. Federal laws authorize us to ask for this information. Like all other information you have provided, your answer to this question will not be disclosed by NCHS or its agents, which includes the U.S. Census Bureau.

[Read if asked about specific laws]: The specific federal laws protecting your privacy and the confidentiality of your data are the Public Health Service Act, which is Title 42, U.S.C., Section 242m(d); the Confidential Information Protection and Statistical Efficiency Act, which is Title 5 of Public Law 107-347; and the Privacy Act of 1974, which is 5 U.S.C. § 552a. In addition, NCHS complies with the Federal Cybersecurity Enhancement Act of 2015 (6 U.S.C. §§ 151 & 151 note), which requires the federal government to protect federal computer networks by using computer security programs to identify cybersecurity risks like hacking, internet attacks, and other security weaknesses.

* Reports from memory are acceptable if the Medicare card (or some other form of documentation) is not available.

* Enter the last four numbers.

Question Text	Medicare refers to the Federal health insurance coverage for persons 65+ years of age and certain disabled persons under 65.

NHIS data have been linked with health-related records of government agencies such as the Centers for Medicare and Medicaid Services and the Social Security Administration. NHIS data have also been linked with death certificate data stored in the National Death Index (NDI). The NDI is a database of death certificate information provided to NCHS by State offices.

All personal identifying information is removed from the linked data files.

These are some examples of possible research studies using NHIS data together with other health-related records or the NDI:

[blt] Predicting the number of disabled persons in the U.S. based on health conditions reported in the NHIS.
[blt] Predicting the costs of Medicare based on health conditions reported in the NHIS.
[blt] Studying the risk of certain diseases for persons with and without health insurance.
[blt] Studying the health characteristics of people who retire early.
[blt] Calculating how long a person in the U.S. might live, based on his or her education, income, or race and ethnicity. |

Question Text	A job exists when there is a definite arrangement for regular work on a continuing basis, and the person holding the job receives pay or other compensation for his/her work. The schedule of hours or days can be irregular as long as there is a definite arrangement to work on a continuing basis.

A business exists when machinery or equipment of substantial value is used in conducting the business; an office, store, or other place of business is maintained; or the business is advertised to the public.

An individual is working for pay if he or worked for wages, salary, commission, tips, piece-rates, or pay-in-kind (e.g., room-and-board); worked for profit in his/her own business, practice or farm; worked as a civilian for the National Guard or Dept. of Defense; or performed exchange or share work on a farm.

Have a job or business but not at work includes individuals on annual leave or vacation (paid or unpaid); on maternity or family leave (paid or unpaid); at jury duty; involved in a labor dispute that is taking place at his/her place of employment; on sick leave (paid or unpaid); on a temporary lay-off (lasting less than 30 days), and the person expects to be called back within that time period.

An individual is looking for work if he or she is conducting an active job search, which includes filling out applications or sending out resumes; placing or answering classified ads; checking union/professional registers; bidding on a contract or auditioning for a part in a play; contacting friends or relatives about possible jobs; contacting school/college university employment offices; contacting prospective employers directly; contacting public or private employment offices.

Include as working, but not for pay at least 15 hours of work per week without pay or compensation in a business or farm operated by a related household member. Volunteer efforts should not be considered as working. Likewise, unpaid internships are not considered as working. |

Question Text	Taking care of house or family is any type of work around the house such as cleaning, cooking, maintaining the yard, caring for children or family, etc. Going to school means attending any type of public or private educational establishment both in and out of the regular school system. Retired, Temporarily unable to work for health reasons, and Disabled are respondent defined. On Layoff means that the person is waiting to be called back to a job from which they have been temporarily laid-off or furloughed. Layoffs can be due to slack work, plant retooling or remodeling, inventory taking, and the like. Do not consider a person who was not working because of a labor dispute at his/her own place of employment as being on layoff. Have job/contract and off-season includes school personnel (teachers, administrators, custodians, etc.) on summer vacation who have a definite arrangement, either written or oral, to return to work in the fall, are not considered to be on layoff during the summer. They may, however, be laid off from a summer job or looking for work for the summer months (but this would NOT be considered their main job or employment activity).

For Government Agencies: If the title clearly designates the main function of the agency, enter the name of the agency (e.g., the U.S. Census Bureau.) If the main function is not clear from the title, ask for and report the division or branch for which the person works.

For Firms with more than one business: If activities are carried on in separate places, describe the business in which the person actually worked. If activities are carried on in the same place, describe the main activity.

For household or domestic workers: Determine if the person works for a business or private home. If it is a business, enter the name of the business. If it is a private home, enter "private home".

Manufacturing: Makes and sells its products in large lots to other manufacturers, wholesalers, or retailers.

Wholesale trade: Buys products in large quantities for resale to retailers, industrial users, or to other wholesalers.

Retail trade: Sells primarily to individual consumers and seldom makes products.

Some other kinds of business: Any other type of establishment that renders a service to individuals and/or organizations. Examples are hotels, dry cleaners, advertising agencies, restaurants, and automobile repair shops. |

Question Text

The entry should clearly state the kind of work or nature of duties performed by the person. The occupation entry should describe what the person does (e.g., shipping department supervisor, inventory clerk).

One word occupational descriptions are usually not adequate. For example, we need to know what type of nurse, engineer, clerk, or teacher a person is.

For Example:
 Inadequate   Adequate

 Adjuster   Claims adjuster, brake adjuster, machine adjuster, merchandise adjuster,

  complaint adjuster, insurance adjuster

 Engineer   Civil engineer, locomotive engineer, mechanical engineer,
aerospace engineer

 Scientist   Political scientist, physicist, sociologist, oceanographer, home economist

 Teacher   Kindergarten teacher, High school teacher, Special education teacher, College professor

Special Instructions	The fill to be applied in the question text for Fill 1 is conditional on how many of the responses to questions AHS.091_1 through AHS.171_3 were either 1,2,3 or 4 (I.e. the respondent had a least a little difficulty carrying out the particular activity/action). If only one of these questions has an answer that meets the criteria (I.e. 1-4), then the question text is "What condition or health problem causes you to have difficulty with [condition 1]?". If only 2 questions had answers in the 1-4 range, the question text is "What condition or health problem causes you to have difficulty with [condition 1] or [condition 2]?". If 3 questions had such answers, use the question text provided. Use the following phrases to fill in the question text when the conditions for Fill 1 apply: FLWALK: walking a quarter of a mile FLCLIMB: walking up 10 steps FLSTAND: standing for 2 hours FLSIT: sitting for 2 hours FLSTOOP: stooping, bending or kneeling FLREACH: reaching up overhead FLGRASP: grasping or handling small objects FLCARRY: lifting or carrying 10 pounds FLPUSH: pushing or pulling large objects FLSHOP: going out for things FLSOCL: participating in social activities FLRELAX: relaxing at home

Question Text	The next question is about electronic cigarettes or e-cigarettes. You may also know them as vape-pens, hookah-pens, e-hookahs, or e-vaporizers. Some look like cigarettes, and others look like pens or small pipes. These are battery-powered, usually contain liquid nicotine, and produce vapor instead of smoke. Have you EVER used an e-cigarette EVEN ONE TIME? *Read if necessary: E-cigarettes and similar products can be bought as one-time, disposable products, as re-usable kits with a cartridge, or with refillable chambers. These usually contain a liquid, often called an "e-liquid" or "e-juice." Popular brands include NJOY, BLU, LOGIC, and VUSE.

Question Text	Always probe for an exact number. If the sample adult reports a range or interval, assist the sample adult in making an estimate by probing. For example, you might ask "Could you give me a more exact number?" Include as alcohol all types of beer (including stout, ale, malt liquor, or light beer, but does not include alcohol-free beer), wine (including port, sherry, sangria wine coolers, and champagne), and liquor (including brandy, liqueurs, scotch, whiskeys, tequila and gin.) One drink is equivalent to a 12-ounce beer, a 5-ounce glass of wine, or one and one-half ounces of liquor

Question Text	Routine or preventive care is a health procedure or series of health procedures done to help a person avoid illness or to detect problems early. A general physical exam or check-up is an examination not for a specific condition or problem. This may include the following: a periodic health examination, a complete medical examination, an annual health check-up or a comprehensive physical examination. It does NOT include dental exams and vision tests.

Question Text	A nurse practitioner is a registered nurse who has completed an advanced program of study leading to an expanded role in health care. Nurse practitioners are able to take health histories, perform physical examinations, order tests, and prescribe treatments including medications. Nurse practitioners work under the supervision of a doctor, but not necessarily in the presence of the doctor.

A nurse midwife is a registered nurse who has completed an advanced program of study leading to an expanded role in health care for women. Nurse midwives provide gynecological, pregnancy and delivery care to women. Nurse midwives work under the supervision of a doctor, but not necessarily in the presence of the doctor.

A physician assistant works under the supervision of a physician to provide diagnostic, preventative, and therapeutic health care services. Duties may include examining patients, interpreting and ordering x-rays and lab tests, and the diagnosis and treatment of minor injuries. |

Module	52
Section Name	FRT
Part	
Question ID	FRT.000
Variable Name	QA_DRUM_ROLL
Universe	
Universe-text	QA (Quality Assurance) check

Question Text

1. For clarification, here is the section that each QA check is located in:
   1 - Family - Food Security
   2 - Family - Functioning and Disability
   3 - Child - Mental Health (actually 2 checks, 1 for male, 1 for female)
   4 - Child - Health Status and Limitations (actually 2 checks, 1 for age < 3, 1 for age >= 3
   5 - Adult - ABCs of Heart Disease and Stroke
   6 - Adult - Health Status and Limitations
   71 - Adult -Adult Complementary Health

2. The QAASK# (1-71) fields are located at the datamodel level of the instrument.
   QAASK# = 1 if the question was selected, and empty if not selection

3. The QARNDM# (1,2,3F,3M,4,41,5,6,71) (the random # 0 to 9 selected for the fill),
     QACHK# (1,2,3F,3M,4,41,5,6,71) (the field that is asked of the FR), and
     QACHNG# (1,2,3F,3M,4,41,5,6,71) (note: M=male and F=Female)
(flag field to indicate the value entered by the FR did not match the random # (cannot be undone))
fields are located inside the block where the check is actually asked (FDB, CHS, etc.)

4. I've made the change to the setting of QACHNG# so that it will be:
   empty - if the check was not asked or answered
   0 - if the check was asked and the value entered matches the random value
   1 - if the check was asked and the value entered does NOT match the random value (cannot be undone)

5. For the child mental health check, there are actually 2 checks that are needed, 1 for the male path, 1 for the female path (much like there's a CMHAGM11_1 vs CMHAGF11_1). So I named the female fields as QARNDM3F, QACHK3F, QACHNG3F. I named the male fields as QARNDM3M, QACHK3M, QACHNG3M. Both can still use same QAASK3 as the flag to bring up the check.

6. For the child health status and limitations check, there are actually 2 checks that are needed, 1 for the age < 3 path, 1 for the age >= 3 path (much like there's a CCONDT1_1 vs CCONDT_1). So I named the age < 3 fields as QARNDM41, QACHK41, QACHNG41. I named the age >= 3 fields as QARNDM4, QACHK4, QACHNG4. Both can still use same QAASK4 as the flag to bring up the check.
Example:
1. In the FDB block, the check will appear between P2DFDRES and P2DFERR.
2. The allowable codes are only for the random number (QARNDM#) that will appear in the fill for the question text, "Please enter # for quality assurance." The input box correctly allows the FR to enter any digit between 0-9. If they enter the wrong value, then QACHNG# is set to 1 (and can't be unset even if they back up and change their answer).

3. The universe for asking a check would be that the previous question has an answer and the specific QAASK# field is set. For example, for QACHK2 (the one in FDB block) I have coded the universe as:
QAASK2 = 1 AND ((AGE >= 5 AND P2DFDRES <> EMPTY) OR (AGE < 5 AND P2DFSEE <> EMPTY))
QAASK# = 1 if the question was selected, and empty if not selection

Question Text	There are several different kinds of tests to check for colon cancer. Colonoscopy (colon-OS-copy) and sigmoidoscopy (sigmoid-OS-copy) are exams in which a doctor inserts a tube into the rectum to look for polyps or cancer. For a colonoscopy, the doctor checks the entire colon, and you are given medication through a needle in your arm to make you sleepy, and told to have someone drive you home. For a Sigmoidoscopy, the doctor checks only part of the colon and you are fully awake. Have you EVER HAD a colonoscopy? *Read if necessary: A polyp is a small growth that develops on the inside of the colon or rectum. Question Text	CT colonography, sometimes called virtual colonoscopy, is a new type of test that looks for cancer in the colon. Unlike regular colonoscopies, you do not need medication to make you sleepy during the test. In this new test, your colon is filled with air and you are moved through a donut-shaped X-ray machine as you lie on your back and then your stomach.

Before today, HAD YOU EVER HEARD of CT colonography or virtual colonoscopy?

*Read if necessary:

This is not the same as a colonoscopy or a sigmoidoscopy.

Unlike CT tests for other purposes, you DO take laxatives to clean out your colon for this test. |
