ERR5_AGEDOB_5

There is a difference between the age the computer calculated from [fill1: your/ALIAS's] date-of-birth and the age that you gave me.

I recorded [fill1: your/ALIAS's] date-of-birth as {AGEDOB_3<space>AGEDOB_4<,><space>AGEDOB_5}. Is that [fill1: your/ALIAS's] } correct date-of-birth?
* Please verify.

The calculated age is stored in AGE2.</p> <p>There are 4 main sections, number 1-4 below. Which section will be used depends on whether complete DOB information was entered in AGEDOB, and which part of DOB (month, day or year) is missing, if any. 3. If the birth month is missing (or month and day, because the day is useless without the month) two possible ages are calculated, AGE3 and AGE4, if the birth year is less than the current year. If the birth year = current year, an age of 0 is assigned to AGE2.

Question Text

This question is for those family members less than 18 years old who were previously reported as having a limitation.

The terms "conditions" and "health problems" are respondent defined.

Do not read the precoded categories to the respondent.

Enter "90 or 91" if the respondent mentions a condition or health problem not listed and then specify the condition exactly as the respondent states it.

Consider a person to be "limited" if he/she can only partially perform an activity, or can do it fully only part of the time, or cannot do it at all.

Question Text	<p>[b]HMO[b] - Health Maintenance Organizations are health delivery systems that offer comprehensive health coverage for hospital and physician services for a prepaid, fixed fee.</p> <p>[b]IPA[b] - type of HMO which contracts directly with physicians in independent practices, and/or contracts with one or more associations of physicians in independent practices, or multi-specialties. The plan is predominantly organized around solo/single practices.</p> <p>[b]PPO[b] - Preferred Provider Organizations are a form of managed care although not a "traditional" HMO. Enrollees in PPOs are encouraged to use designated or "preferred" health providers. Financial incentives for individuals include lower payments or coinsurance and maximum limits on out-of-pocket costs for in-network use. PPOs are less restrictive than HMO's in that visits to specialists are not dependent on the authorization by a member's primary care physician. Unlike HMOs, out-of-network usage is allowed by PPOs though at a higher cost to enrollee.</p> <p>[b]POS[b] - Point-of-Service plans are a form of managed care although not a "traditional" HMO. POS plans allow for "opt-out" or out-of-network coverage, but accompanied by strong economic incentives to the enrollees to use network providers. POS plans generally use gatekeepers for referrals to specialists in the network. It is this attribute that most readily distinguishes a POS plan from a PPO.</p> <p>[b]Fee-for-Service[b] - This is the traditional kind of health care policy. Insurance companies pay fees for the services provided to the insured people covered by the policy. This type of health insurance offers the most choices of doctors and hospitals. You can choose any doctor you wish and change doctors any time. You can go to any hospital in any part of the country. With fee-for-service, the insurer only pays for part of your doctor and hospital bills. A fee-for-service plan pays for covered services after services have been received.</p>

Question Text	<p>[b]TRICARE[b] is a regionally managed health care program for active duty and retired members of the uniformed services, their families, and survivors. TRICARE offers eligible beneficiaries four choices for their health care:</p> <p>[b]TRICARE Prime[b] - Under this TRICARE option, Military Treatment Facilities are the principal source of health care. Active duty military personnel are automatically enrolled in TRICARE Prime. Family members and survivors of active duty personnel and retirees and their family members and survivors under age 65 are also eligible for TRCARE prime.</p> <p>[b]TRICARE Extra[b] - Under this TRICARE option you choose a doctor, hospital, or other medical provider listed in the TRICARE Provider Directory. Anyone who is CHAMPUS (Comprehensive Health and Medical Plan for the Uniformed Services) eligible may use TRICARE Extra.</p> <p>[b]TRICARE Standard[b] - This is the new name for traditional CHAMPUS. Under this plan, you can see the authorized provider of your choice. Treatment may also be available at a Military Treatment Facility. Anyone who is CHAMPUS (Comprehensive Health and Medical Plan for the Uniformed Services) eligible may use TRICARE Standard.</p> <p>[b]TRICARE for Life (TFL)[b] - This option is available to all Medicare-eligible uniformed services retirees, Medicare-eligible family members, and Medicare-eligible widows/widowers and certain former spouses who were eligible for TRICARE before age 65. Beneficiaries are required to purchase Medicare Part B and MUST pay the appropriate Medicare Part B monthly premiums. TRICARE for Life pays secondary to Medicare.</p>

Question Text	<p>[b]Flexible Spending Accounts (FSAs)[b] - Health care flexible spending accounts are employer-established benefit plans that reimburse employees for specified medical expenses as they are incurred. These accounts are allowed under section 125 of the Internal Revenue Code. The employee contributes funds to the account through a salary reduction agreement and is able to withdraw the funds set aside to pay for medical bills. The salary reduction agreement means that any funds set aside in a FSA escape both income tax and Social Security tax. Employers may contribute to these accounts as well.</p> <p>Once the amount of contribution has been designated during an open enrollment period that occurs once each year, the employee is not allowed to change the amount or drop out of the FSA during the year unless he or she experiences a change in family status. By law, the employee forfeits any unspent funds in the account at the end of the year other than the 2.5-month grace period. There is no requirement to have a private health insurance plan with a FSA.</p>
