<i>Question Text</i>	<p>Days in bed are any days during which the sample adult stayed in bed MORE than half of the day because of illness or injury. "More than half of the day" is defined as more than half of the hours that the sample adult is usually awake. Count as days in bed all days a sample adult spent as an overnight patient in a hospital, sanitarium, nursing home, etc., whether or not the patient was actually lying in bed, even if there was no illness or injury.</p> <p>A bed is anything used for lying down or sleeping, including a sofa, cot or mattress.</p> <p>Always probe for an exact number. If the sample adult reports a range or interval, assist the sample adult in making an estimate by probing. For example, you might ask "Could you give me a more exact number?"</p>

<i>Question Text</i>	<p>"Problem" is the sample adult's perception of a departure from physical, mental or emotional well-being. This includes specific health problems, such as a disease or condition, a missing extremity or organ, or any type of impairment. It also includes more vague disorders not always thought of as health related problems or illnesses such as alcoholism, drug dependency or reaction, senility, depression, retardation, etc.</p> <p>"Special Equipment" is any device, tool, utensil, instrument, implement, etc., used as an aid in performing an activity because of a physical, mental or emotional problem. This includes the use of adult "diapers" for incontinence. For example: a spoon is not normally considered as "special equipment"; however, a uniquely designed or functioning one used for eating by a person because of physical, mental, or emotional problems is considered "special equipment."</p>

Condition numbers

Fill Instructions

Fill1 = [if the number of conditions indicated in questions AHS.091_1 - AHS.171_3 as having at least a little bit of difficulty (i.e. answers are 1-4) is less than or equal to 3]

Fill2 = [if the number of conditions indicated in questions AHS.091_1 - AHS.171_3 as having at least a little bit of difficulty (i.e. answers are 1-4) is greater than 3]

Special Instructions

The fill to be applied in the question text for Fill 1 is conditional on how many of the responses to questions AHS.091_1 through AHS.171_3 were either 1,2,3 or 4 (i.e. the respondent had a least a little difficulty carrying out the particular activity/action). If only one of these questions has an answer that meets the criteria (i.e. 1-4), then the question text is "What condition or health problem causes you to have difficulty with [condition 1]?". If only 2 questions had answers in the 1-4 range, the question text is "What condition or health problem causes you to have difficulty with [condition 1] or [condition 2]?". If 3 questions had such answers, use the question text provided.

Use the following phrases to fill in the question text when the conditions for Fill 1 apply:

- FLWALK: walking a quarter of a mile
- FLCLIMB: walking up 10 steps
- FLSTAND: standing for 2 hours
- FLSIT: sitting for 2 hours
- FLSTOOP: stooping, bending or kneeling
- FLREACH: reaching up overhead

<i>Question Text</i>	There are currently two types of tetanus shots available today. One is the Td or tetanus-diphtheria vaccine and the other is called Tdap or Adacel (trademark) or Boostrix (trademark). They are similar except the Tdap shot also includes a pertussis (per-TUH-sis) or whooping cough vaccine. Thinking back to your most recent tetanus shot, did your health care provider tell you or did the vaccine information sheet say the vaccine included the pertussis or whooping cough vaccine? The shot is often called Tdap or ADACEL (trademark) or BOOSTRIX (trademark).
