1 GENERAL INFORMATION

1.1 Background

The Medicare Prescription Drug Benefit program was established by section 101 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA), as amended by the Patient Protection and Affordable Care Act, as amended, and is codified in sections 1860D-1 through 1860D-43 of the Social Security Act (the Act).

PACE organizations have a longstanding history of providing statutorily required prescription drugs to all participants. Prior to Part D, prescription drugs were included as a portion of the Medicaid capitation rate. However, the MMA mandates that State Medicaid programs may no longer cover Part D drugs on behalf of dual eligible beneficiaries. PACE organizations may elect to offer a Part D plan in a similar manner as MA-PD local plans in order to account for this shift in payer source for prescription drugs.

This chapter of the PACE provider application serves as the Medicare Part D application.

NOTE: CMS reserves the right to amend or cancel this solicitation at any time. CMS also reserves the right to revise the Medicare Prescription Drug Benefit program implementation schedule, including the solicitation and bidding process timelines.

1.2 Summary of PACE Organization's Roles and Responsibilities

Each PACE Organization should have the ability to:

- Submit a formulary each year for CMS approval (as applicable).
- Submit a Part D bid each year for CMS approval.
- Administer the Part D benefit.
- Provide all required prescription drug services as outlined in the PACE statute and regulation.
- Operate quality assurance, drug utilization review, and medication therapy management programs in accordance with existing PACE requirements.
- Protect the privacy of beneficiaries and beneficiary-specific health information.
- Develop and/or maintain systems to support enrollment, provide claims-based data to CMS, accept CMS payment, and support e-prescribing.
- Provide necessary data to CMS to support payment, oversight, and quality improvement activities and otherwise cooperate with CMS oversight responsibilities.
- Ensure the integrity of the Medicare Trust Fund by eliminating fraud, abuse, and waste within its organization.

1.3 Summary Instructions for Part D Formularies (42 CFR §423.120)

Applicants that meet one or more of the definitive criteria for formularies described later in this document will be required to upload their plan formularies to HPMS using a pre-defined file format and record layout.

1.4 Summary Instructions for Part D Bids (42 CFR §423.265)

Each PACE applicant must submit to CMS, via HPMS, two Part D bids; 1 for dual eligible enrollees and 1 for Medicare-only enrollees. Applicants using this solicitation must apply to offer full risk Part D plans.

The applicants bid will represent the expected monthly cost to be incurred by the applicant for qualified prescription drug coverage in the plan's service area for a Part D-eligible beneficiary on a standardized basis. The costs represented in each bid should be those for which the applicant would be responsible. The bid will require the separate identification, calculation, and reporting of costs assumed to be reimbursed by CMS through reinsurance. CMS requires that the bid represent a uniform benefit package among all beneficiaries enrolled in the plan. The benefit packages submitted must be cross walked appropriately from the formulary (as applicable). Pursuant to 42 CFR §423.505(k)(4), the CEO, CFO, or an individual delegated with the authority to sign on behalf of one of these officers, and who reports directly to such officer, must certify (based on best knowledge, information and belief) that the information in the bid submission is accurate, complete, and truthful, and fully conforms to the requirements in section 42 CFR §423.265 of the regulations (except section 42 CFR §423.265(b), the applicability of which is discussed below). In addition, the pricing component of the bid must be certified by a qualified actuary.

PACE organizations must submit annual Part D bids and receive CMS approval of the Part D bids prior to providing or continuing to provide Part D benefits. Any PACE organization that wishes to either continue receiving Part D payment or begin receiving Part D payment in January of a given year, must submit their Part D bids no later than the first Monday in June of the year prior. The June bid submission deadline (42 CFR §423.265(b)) has been waived for newly forming PACE organizations pending the development of a methodology for accepting mid-year bids.

In order to prepare plan bids, Applicants will use HPMS to define their plan structures and associated plan service areas and then download the Plan Benefit Package (PBP) and Bid Pricing Tool (BPT) software. For each plan being offered, Applicants will use the PBP software to describe the detailed structure of their Part D benefit and the BPT software to define their bid pricing information. The formulary (as applicable) must accurately crosswalk to the PBP.

Once the PBP and BPT software has been completed for each plan being offered, Applicants will upload their bids to HPMS.

1.4.1 CMS Review of Part D Bids

CMS will evaluate the bids based on four broad areas: 1) administrative costs, 2) aggregate costs, 3) benefit structure, and 4) plan management. CMS will evaluate the

administrative costs for reasonableness in comparison to other PACE bidders. CMS will also examine aggregate costs to determine whether the revenue requirements for qualified prescription drug coverage are reasonable and equitable. In addition, CMS will review the steps the PACE Part D sponsor is taking to control costs, such as through various programs to encourage use of generic drugs. Finally, CMS will examine indicators concerning plan management.

CMS is also required to make certain that bids and plan designs meet statutory and regulatory requirements. We will conduct an actuarial analysis to determine whether the proposed benefit meets the standard of providing qualified prescription drug coverage.

1.4.2 Overview of Part D Bid Negotiation

CMS evaluates the reasonableness of bids submitted by PACE Part D sponsors by means of an actuarial valuation analysis. This requires evaluating assumptions regarding the expected distribution of costs, including average utilization and cost by drug coverage tier. CMS could test these assumptions for reasonableness through actuarial analysis and comparison to industry standards and other comparable bids. Bid negotiation could take the form of negotiating changes upward or downward in the utilization and cost per script assumptions underlying the bid's actuarial basis. We could exercise our authority to deny a bid if we do not believe that the bid and its underlying drug prices reflect market rates.

1.5 Standard Contract with PACE Part D Sponsors

Successful Applicants will be deemed qualified to enter into a PACE program agreement that includes Part D coverage. Under this agreement the PACE Part D sponsor will be authorized to operate the Medicare Part D benefit for all eligible PACE participants. Only after the qualified Applicant and CMS have reached agreement on the Applicant's bid submissions will the Applicant be asked to execute its PACE program agreement.

1.6 General Enrollment Processing

CMS has developed a system to review an individual's eligibility for the Part D benefit. For individuals applying for enrollment in a Part D plan, CMS reviews an individual's status as a Medicare beneficiary. CMS tracks enrollments and ensures that the beneficiary does not enroll in more than one plan. Also, CMS tracks low-income subsidy status and auto-enrollments of full-benefit dual eligible individuals into Part D plans and facilitated enrollments for other low-income Medicare beneficiaries. Finally, CMS tracks disenrollments from Part D plans and will deny new enrollments during any given year unless the enrollment occurs during an allowable enrollment period. For additional information regarding enrollment processing, refer to the <http://www.cms.gov> website.

1.7 Eligibility for the Low Income Subsidy Program

Low-income Medicare beneficiaries receive full or partial subsidies of premiums and reductions in cost sharing under the Part D benefit. Certain groups of Medicare beneficiaries are automatically be eligible for the low-income subsidy program. These beneficiaries include Medicare beneficiaries who are full-benefit dual eligible individuals (eligible for full benefits under Medicaid), Medicare beneficiaries who are recipients of Supplemental Security Income benefits; and participants in Medicare Savings Programs as Qualified Medicare Beneficiaries (QMBs), Specified Low-Income Medicare Beneficiaries (SLMBs), and Qualifying Individuals (QIs). Beneficiaries who are low-income and who do not fall into one of the automatic subsidy eligibility groups apply for a low-income subsidy and have their eligibility determined by either the state in which they reside or the Social Security Administration (SSA). CMS has developed a database to track individuals who are automatically deemed subsidy-eligible or who are determined subsidy-eligible by states or SSA, and communicates the names and eligibility category of those individuals to Part D sponsors as part of the enrollment files from the enrollment processing system described below. For additional information regarding the low income subsidy program, refer to the www.cms.gov/ website.

1.8 Protection of Confidential Information

Applicants may seek to protect their information from disclosure under the Freedom of Information Act (FOIA) by claiming that FOIA Exemption 4 applies. The Applicant is required to label the information in question “confidential” or “proprietary”, and explain the applicability of the FOIA exemption it is claiming. This designation must be in writing. When there is a request for information that is designated by the Applicant as confidential or that could reasonably be considered exempt under Exemption 4, CMS is required by its FOIA regulation at 45CFR §5.65(d) and by Executive Order 12,600 to give the submitter notice before the information is disclosed. To decide whether the Applicant’s information is protected by Exemption 4, CMS must determine whether the Applicant has shown that— (1) disclosure of the information might to impair the government’s ability to obtain necessary information in the future; (2) disclosure of the information would cause substantial harm to the competitive position of the submitter; (3) disclosure would impair other government interests, such as program effectiveness and compliance; or (4) disclosure would impair other private interests, such as an interest in controlling availability of intrinsically valuable records, which are sold in the market. Consistent with our approach under the Medicare Advantage program, we would not release information under the Medicare Part D program that would be considered proprietary in nature.

1.9 Payment to PACE Part D Sponsors

Payments will be wired to the organization’s account on the first day of each month (or the last business day of the prior month if the first day of the month is not a business day). The monthly payment will include premiums that SSA or other agencies are deducting from beneficiary Social Security payments or other payments as well as those premiums CMS is paying on behalf of low-income individuals. Estimated monthly

reinsurance subsidies, low-income subsidies, and gap discount amounts are also included.

1.10 Applicability of the National Provider Identifier (NPI) to PACE Organizations

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated the adoption of standard unique identifiers for health care providers, as well as the adoption of standard unique identifiers for health plans. The purpose of these provisions is to improve the efficiency and effectiveness of the electronic transmission of health information. The NPI has been adopted as the standard unique identifier for health care providers. The National Plan and Provider Enumeration System (NPPES) is the entity that assigns these unique identifiers.

For purposes of HIPAA, PACE organizations may be defined as both health plans and health care providers. Any health care provider, as that term is defined for purposes of HIPAA that transmits any health information in electronic form in connection with one of the standard transactions, including electronically billing any health plan (including Medicare), must obtain an NPI. Health care providers are defined at 45 CFR §160.103 as “a provider of services (as defined in section 1861 (u) of the Act, 42 USC 1395x (u)), a provider of medical or health services (as defined in section 1861(s) of the Act, 42 USC 1395x(s)), and any other person or organization who furnishes, bills, or is paid for health care in the normal course of business.”

Although PACE organizations may meet the definition of a health care provider, as described above, only those that transmit health information in electronic form in connection with one of the standard transactions, including billing any health plan electronically must obtain an NPI. We note that in some instances, PACE organizations may elect to provide Medicare services to a beneficiary prior to the beneficiary’s effective date of PACE enrollment. These services may be billable under Medicare Fee-For-Service. To the extent a PACE organization that is a HIPAA health care provider elects to bill Medicare electronically for these non-PACE services, an NPI would be needed.

In addition, consistent with HIPAA requirements, as health plans, all PACE organizations (regardless of whether the NPI requirements apply to them as health care providers) are required to accept and recognize the NPI as the health care provider identifier in standard transactions that are submitted to them from health care providers or other health plans.

2 GENERAL INSTRUCTIONS

The following section provides instructions for completing this chapter of the application. The actual application forms are included under section 3.

Note: Nothing in this chapter of the PACE Provider Application is intended to supersede the regulations at 42 CFR Part 423 or Part 460. Failure to reference a regulatory requirement in this application does not affect the applicability of such requirement, and PACE Organizations are required to comply with all applicable requirements of the regulations in Part 423 or Part 460 of 42 CFR.

2.1 Summary Instructions and Technical Support

This application is to be completed by those newly forming PACE organizations that intend to provide the Part D benefit to eligible participants beginning in 2017. . Applicants must use the 2017 solicitation. CMS will not accept or review in any way those submissions using prior versions of the application.

Applicants must follow the instructions contained in the PACE Initial Application at <https://www.cms.gov/Medicare/Health-Plans/pace/Overview.html> to submit a Notice of Intent to Apply and initiate the application process. The Part D PACE application must be completed in HPMS.

2.2 For technical assistance in the completion of this application, please send an email to the DMAO portal at: <https://dmao.lmi.org> and click on the “PACE” tab. Instructions

In many instances Applicants are directed to affirm that they will meet particular requirements by indicating “Yes” next to a statement of a particular Part D program requirement. By providing such attestation, an Applicant is committing its organization to complying with the relevant requirements as of the date your contract is signed, unless an alternative date is noted.

Additional supporting documentation is notated in the following manner throughout the application and is to be submitted as follows:

- Forms: documents supplied by CMS that are contained at the end of this application. They are to be completed by the Applicant and uploaded in HPMS as part of the application.
- Legal documents such as subcontracts should be provided as an upload in the Contracting section of the HPMS application.

CMS will check the Part D application for completeness shortly after its receipt. We will notify Applicants of any deficiencies and afford them the opportunity to amend their Part D applications.

CMS may verify a sponsor’s compliance with qualifications it attests it will meet, through on-site facility visits as well as through other program monitoring techniques.

Failure to meet the requirements attested to in the Applicant’s response to this solicitation and failure to operate its Part D plan(s) consistent with the requirements of

the applicable statutes, regulations, and the Part D contract may disqualify it from participation in the Part D program.

An individual with legal authority to bind the Applicant shall sign and submit the certification.

This solicitation does not commit CMS to pay any cost for the preparation and submission of a Part D application.

2.3 Application Acceptance and Submission Timeframe

PACE Applications are reviewed on a quarterly basis in accordance with the timeline in the PACE application.

2.4 Part D Waivers

CMS is authorized to grant waivers of Part D program requirements where such a requirement conflicts with or duplicates a PACE requirement, or where granting such a waiver would improve the PACE Organization's coordination of PACE and Part D benefits. The following waivers are in effect for all PACE organizations.

Any waiver granted by CMS will apply to all similarly situated PACE Organizations.

PACE Organizations that identify the need for additional Part D waivers should submit a waiver request in conjunction with the PACE application. Please use the naming convention "waiver request" and include as separate document in the PACE application zip file. The Part D waiver request package must include:

1. Information identifying the submitted document(s) as a waiver request;
2. The regulatory provision to be waived;

3 APPLICATION FORMS

3.1 Management and Operations

3.1.1 Subcontractor (first tier, downstream, and related entities) Function Chart

A Part D sponsor may meet program requirements by delegating the performance of certain required functions to entities with which it contracts directly, referred to in the Part D regulations (§423.501) as “first tier entities.” These entities may in turn contract with other entities, defined as “downstream entities,” for the performance of the delegated function. A related entity is an entity that is a parent, subsidiary, or subsidiary of the parent of the Part D Sponsor. A related entity may be either a first tier or downstream entity.

Where an applicant has elected to use subcontractors to meet Part D requirements, it must demonstrate that it has binding contracts in place that reflect these relationships. These contracts serve as the legal links that form the applicant’s “chain of delegation,” extending from the applicant to the entities (first tier or downstream) that will actually perform the stated function on the applicant’s behalf. Where the function is to be performed by a downstream entity, there must be contracts in place through which the applicant has delegated a function to a first tier entity, which has in turn delegated that function to the downstream entity.

Applicants must identify in the chart below the first tier and downstream entities with which it has contracted to perform the listed Part D functions.

Note concerning parent and subsidiary relationships: In establishing its subcontracting arrangements, an applicant must clearly demonstrate that it has elected to delegate certain Part D functions to first tier and downstream entities. Where an applicant is a subsidiary to a parent organization and that organization purports to contract with other entities on the applicant’s behalf, the applicant must consider the parent organization a first tier entity and provide a contract between itself and its parent that meets Part D requirements. CMS will not consider any other types of materials, including articles of incorporation, organizational charts, or lists of board members or senior executives, that the applicant might believe demonstrate that the parent is authorized to contract on the applicant’s behalf.

In HPMS, on the Contract & Management/Part D Information/Part D Data Page, provide names of the first tier, downstream and related entities you will use to carry out each of the functions listed in this chart and whether the first tier, downstream and related entities are off-shore. Organizations applying for an SAE should ensure that the information in HPMS is up-to-date for the current contract year.

(Indicate with “name of Applicant’s Organization” where applicant will perform those functions)

3.1.2 First Tier, Downstream, and Related Entity Relationship Chart

Provide a chart showing the relationship between the applicant and each first tier, downstream, and related entity identified in section 3.2.1. This chart must include the names of all entities in the contracting chain between the applicant and the entity performing the identified function.

3.1.3 Requirements in Contracts/Administrative Services Agreements

Except for SAE applicants, upload copies of executed contracts, fully executed letters of agreement, administrative services agreements, or intercompany agreements (in word-searchable .pdf format) with each first tier, downstream or related entity identified in Sections 3.2.2 and with any first tier, downstream, or related entity that contracts with any of the identified entities on the applicant's behalf. As noted above, this requirement applies even if an entity contracting on the applicant's behalf is the applicant's parent organization or a subsidiary of the applicant's parent organization. Unless otherwise indicated, each and every contract must:

Clearly identify the parties to the contract (or letter of agreement). If the applicant is not a direct party to the contract (e.g., if one of the contracting entities is entering into the contract on the applicant's behalf), **the applicant must be identified as an entity that will benefit from the services described in the contract.**

1. Clearly identify the parties to the contract (or letter of agreement). If the applicant is not a direct party to the contract (e.g., if one of the contracting entities is entering into the contract on the applicant's behalf), **the applicant must be identified as an entity that will benefit from the services described in the contract.**

2. Describe the functions to be performed by the first tier, downstream or related entity, and the reporting requirements the first tier, downstream, or related entity has to the applicant. 42 CFR §423.505(i)(4)(i)
3. Contain language clearly indicating that the first tier, downstream, or related entity has agreed to participate in your Medicare Prescription Drug Benefit program (except for a network pharmacy if the existing contract would allow participation in this program).
4. Contain flow-down clauses requiring that any services or other activity they perform in accordance with the contract be consistent and comply with the applicant's contractual obligations as a Part D sponsor. 42 CFR §423.505(i)(3)(iii)
5. Describe the payment or other consideration the first tier, downstream, or related entity will receive for performance under the contract.
6. Be signed by a representative of each party with legal authority to bind the entity.
7. Contain language obligating the first tier, downstream, or related entity to abide by all applicable Federal laws and regulations and CMS instructions. 42 CFR §423.505(i)(4)(iv)
8. Contain language obligating the first tier, downstream, or related entity to abide by State and Federal privacy and security requirements, including the confidentiality and security provisions stated in the regulations for this program at 42 CFR §423.136.
9. Contain language ensuring that the first tier, downstream, or related entity will make its books and other records available in accordance with 42 CFR §423.505(e)(2) and 42 CFR §423.505(i)(2). Generally stated, these regulations give HHS, the Comptroller General, or their designees the right to audit, evaluate and inspect any books, contracts, records, computers, or other electronic systems, including medical records and documentation involving transactions related to CMS' contract with the Part D sponsor and that these rights continue for a period of 10 years from the final date of the contract period or the date of audit completion, whichever is later. 42 CFR §423.505(e)(2) and (i)(2)
10. Contain language that the first tier, downstream, or related entity will ensure that beneficiaries are not held liable for fees that are the responsibility of the Part D sponsor. 42 CFR §423.505(i)(3)(i)
11. Contain language that delegated activities or reporting responsibilities may be revoked if CMS or the Part D sponsor determines the first tier, downstream, or related entity has not performed satisfactorily. The contract/administrative services agreement may include remedies in lieu of revocation to address this requirement. 42 CFR § 423.505(i)(4)(ii)
12. Contain language specifying that the applicant, upon becoming a Part D sponsor, will monitor the performance of the first tier, downstream, or related entity on an ongoing basis. **The contract must explicitly provide that the sponsor itself will perform ongoing monitoring. Language indicating that the sponsor has the right to monitor is not sufficient; the contract must affirmatively state that the sponsor will monitor the entity on an ongoing basis.** 42 CFR §423.505(i)(4)(iii)

13. If the first tier, downstream, or related entity will establish the pharmacy network or select pharmacies to be included in the network, contain language that the Part D sponsor retains the right to approve, suspend, or terminate any arrangement with a pharmacy. 42 CFR §423.505(i)(5)
14. If the first tier, downstream, or related entity will establish the pharmacy network or select pharmacies to be included in the network, contain language that payment to such pharmacies (excluding long-term care and mail order) shall be issued, mailed, or otherwise transmitted with respect to all clean claims submitted by or on behalf of pharmacies within 14 days for electronic claims and within 30 days for claims submitted otherwise. 42 CFR §§423.505(i)(3)(vi) and 423.520
15. Elements Specific to Long-Term Care Contracts

Note: CMS Long-Term Care Guidance included in Chapter 5 of the Prescription Drug Benefit Manual contains an updated list of performance and service criteria for contracting with long-term care pharmacies. Applicants should, at a minimum, incorporate these criteria in ALL LTC pharmacy network contracts. Applicant must list the criteria below, and then identify where the elements reside in the contract template(s) submitted.

Requirement	Citation
<i>Comprehensive Inventory and Inventory Capacity</i> – Network Long Term Care Pharmacies [NLTCPs] must provide a comprehensive inventory of Plan formulary drugs commonly used in the long term care setting. In addition, NLTCPs must provide a secured area for physical storage of drugs, with necessary added security as required by federal and state law for controlled substances. This is not to be interpreted that the pharmacy will have inventory or security measures outside of the normal business setting.	
<i>Special Packaging</i> -- NLTCPs must have the capacity to provide specific drugs in Unit of Use Packaging, Bingo Cards, Cassettes, Unit Dose or other special packaging commonly required by LTC facilities. NLTCPs must have access to, or arrangements with, a vendor to furnish supplies and equipment including but not limited to labels, auxiliary labels, and packing machines for furnishing drugs in such special packaging required by the LTC setting.	
<i>IV Medications</i> -- NLTCPs must have the capacity to provide IV medications to the LTC resident as ordered by a qualified medical professional. NLTCPs must have access to specialized facilities for the preparation of IV prescriptions (clean room). Additionally, NLTCPs must have access to or arrangements with a vendor to furnish special equipment and supplies as well as IV trained pharmacists and technicians as required to safely provide IV medications.	
<i>Compounding /Alternative Forms of Drug Composition</i> -- NLTCPs must be capable of providing specialized drug delivery formulations as required for some LTC residents. Specifically, residents unable to swallow or ingest medications through normal routes may require tablets split or crushed or provided in suspensions or gel forms, to facilitate effective drug delivery.	
<i>Pharmacist On-call Service</i> -- NLTCP must provide on-call, 24 hours a day, 7 days a week service with a qualified pharmacist available for handling calls after hours and to provide medication dispensing available for emergencies, holidays and after hours of normal operations.	
<i>Delivery Service</i> -- NLTCP must provide for delivery of medications to the LTC facility up to seven days each week (up to three times per day) and in-between regularly scheduled visits. Emergency delivery service must be available 24 hours a day, 7 days a week. Specific delivery arrangements will be determined through an agreement between the NLTCP and the LTC facility. NLTCPs must provide safe and secure exchange systems for delivery of medication to the LTC facility. In addition, NLTCP must provide medication cassettes, or other standard delivery systems, that may be exchanged on a routine basis for automatic restocking. The NLTCP delivery of medication to carts is a part of routine “dispensing”.	

Requirement	Citation
<i>Emergency Boxes</i> -- NLTCPs must provide “emergency” supply of medications as required by the facility in compliance with State requirements.	
<i>Emergency Log Books</i> -- NLTCP must provide a system for logging and charging medication used from emergency/first dose stock. Further, the pharmacy must maintain a comprehensive record of a resident’s medication order and drug administration.	
<i>Miscellaneous Reports, Forms and Prescription Ordering Supplies</i> -- NLTCP must provide reports, forms and prescription ordering supplies necessary for the delivery of quality pharmacy care in the LTC setting. Such reports, forms and prescription ordering supplies may include, but will not necessarily be limited to, provider order forms, monthly management reports to assist the LTC facility in managing orders, medication administration records, treatment administration records, interim order forms for new prescription orders, and boxes/folders for order storage and reconciliation in the facility.	
Provide that long-term care pharmacies must have not less than 30 days, nor more than 90 days, to submit to the Part D Sponsor claims for reimbursement under the plan. 42 CFR § 423.504(b)(20)	
Provisions requiring that long-term care pharmacies dispense drugs and report information as required by 42 CFR §423.154.	

3.2 HPMS Part D Contacts

A. In HPMS, on the Contract Management/Contact Information/Contact Data Page provide the name/title, mailing address, phone number, fax number, and email address for the following Applicant contacts. We recognize that due to the many PACE Part D waivers, several of the requested contacts bear no relevance for PACE organizations. However, for systems purposes all sections must be populated. Therefore, in instances where a contact does not apply, please list the Application Contact.

Note: The same individual should not be identified for each of these contacts. If a general phone number is given then CMS requires specific extensions for the individual identified. Under no circumstances should these numbers merely lead to a company’s general automated phone response system. Further, Applicants must provide specific email addresses for the individuals named.

Note: Contact definitions are provided in HPMS in the Contract Management/Contact Information/Contact Data/Documentation link entitled Contact Definitions.

This means that the Medicare Compliance Officer identified in HPMS contacts (see section entitled HPMS Part D Contacts) must be an employee of the Applicant, the Applicant's parent organization, or a corporate affiliate of the Applicant. A compliance program adopted and operated by an Applicant's first tier, downstream, and related entities is not sufficient to demonstrate that the Applicant meets the compliance program requirement.

3.18 Formulary Submission Requirements

3.18.1 Applicability of Formulary Submission Requirements

For purposes of formulary submission and review, the following paragraphs describe the definition of a formulary.

- **Cost sharing tiers:** Any coverage list that utilizes more than one cost sharing tier with differential co-pay or coinsurance, is considered a formulary.
- **Prior authorization:** Any coverage list that contains one or more drugs that must undergo prior authorization before dispensing is considered a formulary. If in the normal course of clinical practice, the prescribing physician uses FDA-approved indications and use criteria to determine appropriateness of therapy, this is not considered prior authorization.
- **Step therapy:** Any coverage list that contains one or more drugs that are part of a step therapy management program is considered a formulary. This includes any program that requires a certain drug to be used first, before a different drug can be dispensed. Step therapy can apply to certain drug classes or among brand and generic drug combinations.
- **Quantity limitations:** Any coverage list that contains one or more drugs with quantity limits is considered a formulary. Quantity limits are often used in cases where FDA-approved prescribing instructions state that only a certain number of doses should be used in a certain time period.
- **Steerage:** Any coverage list that contains one or more drugs that are considered preferred or drugs that are steered towards is considered a formulary. Common prescribing patterns are not considered steerage as long as there are no adverse consequences to physicians or patients if a particular drug is not chosen.

If a plan meets any of the five criteria referenced above, then their coverage list is considered a formulary and needs to be submitted to CMS for review and approval.

Only those applicants that have a coverage list that includes one of the items listed above will be required to adhere to formulary requirements specified in 42 CFR §423.120(b) and complete the application sections that follow.

Applicant agrees, when using a formulary, to meet all formulary submission deadlines established by CMS. Applicant further agrees that CMS may discontinue its review of the applicant's formulary submission upon the applicant's failure to meet any of the formulary submission deadlines. Note: While the P&T committee may be involved in providing recommendations regarding the placement of a particular Part D drug on a formulary cost-sharing tier, the ultimate decision maker on such formulary design issues is the Part D plan sponsor, and that decision weighs both clinical and non-clinical factors.	☐	☐	☐

C. If Applicant is intending for its Part D benefit to include use of a formulary, then the members of the P&T committee must be provided either directly by the Applicant or by the Applicant's PBM. The membership of the P&T committee must be comprised as described in items B, 10, 11 and 13 above. APPENDIX I – Applicant Submission of P&T Committee Member List and Certification Statement

This appendix summarizes CMS policy on Part D Applicant/Sponsor and PBM submission of P&T Committee membership, and the accountability that each Part D Applicant/Sponsor holds regarding the integrity of the P&T Committee whose membership is submitted either directly by the Part D Applicant/Sponsor or by the applicant/sponsor's PBM. This appendix also instructs Part D Applicants (or their PBM's) on how to submit the Applicant's P&T Committee membership list, and a Certification of P&T Integrity and Quality in the event the Applicant is planning to operate under a confidentiality agreement with its PBM (such that the PBM does not disclose the membership to the Applicant).

I. P&T Committee Member Disclosure to CMS

In the event the Part D Applicant/Sponsor has entered into a confidential agreement such that the PBM will not disclose its P&T Committee membership to the Part D Applicant/Sponsor, then it is the Part D Sponsor's responsibility to notify CMS that this information will be submitted by the Sponsor's PBM. Moreover, the Part D Applicant/Sponsor must ensure that the PBM notifies CMS of the P&T Committee membership. Also, the Part D Applicant/Sponsor should ensure that the PBM notifies the Sponsor that this information has been successfully submitted to CMS.
