**[INSERT PREP PROGRAM, E.G. PREIS]
IMPLEMENTATION PLAN TEMPLATE**

An implementation plan is a tool that provides detailed documentation of approaches and strategies for program implementation. The plan can be used during the program development process, as a guide to help you map or outline how and where you plan to implement your program, and who is involved. Identifying each step in the process ensures that your team and your partners have a clear understanding of what the program is and how it should be implemented. It can also be used to identify and think through potential challenges and proposed solutions before implementation begins.

This implementation template is designed to assist you in Phase 1 of the planning period with a focus on program development. All [INSERT PREP PROGRAM, e.g. PREIS] implementation plans should be finalized and approved by [INSERT DATE, e.g. the end of Phase I (June 30, 2017)]. The first completed draft of your implementation plan is due to your Project Officer by [INSERT DATE, e.g. May 15, 2017]. Please plan on approximately four hours to complete this template. Participation is voluntary, and all information will be kept private.

Public reporting burden for this collection of information is estimated to average 60 minutes per response, including the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This information collection is voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: Reports Clearance Officer (Attn: OMB/PRA 0970-0356), Administration for Children and Families, Department of Health and Human Services, 330 C. St. SW, 4th Floor, Washington, DC 20201.

III. Schedule of Delivery

[This information must be tailored to the requirements of PREP programs. – Information provided for other grant programs should be reported in accordance with the program requirements.]

Please complete the table below to describe all the components of the program funded under the grant, including the Adulthood Preparation Subjects.

Row A: List each component that will be offered (including any group or individual sessions, case management, social media or digital technology, service learning, other curricula or services).

Row B: For each component, describe the amount, duration, and intended dosage (e.g. Five 1 - hour sessions over 3 weeks for a total of 15 hours of programming).

Row C: Briefly describe the content of each component.

Row D: Describe who will deliver the content.

Row E: Describe the setting(s) in which the content will be delivered.

If you have more than one treatment group, please duplicate the treatment table.

IX: Fidelity Monitoring

Submit Table for Each Site if Needed

[This information must be tailored to the requirements of PREP programs – Information provided for other grant programs should be reported in accordance with the program requirements.]

Please describe how you will monitor fidelity for the treatment group activities and, if applicable, the control group activities. PREIS strongly recommends formal observations for a minimum of 10% of sessions for each implementation cycle. In the beginning of the implementation phase, Phase II, PREIS grantees will be expected to conduct either informal, formal, or a combination of both on a more frequent basis than 10%. The exact frequency level should be determined with your PO.
