INSTRUCTIONS FOR WH-226A SUPPLEMENTAL DATA SHEET FOR APPLICATION FOR AUTHORITY TO EMPLOY WORKERS WITH DISABILITIES AT SUBMINIMUM WAGES

Initial Applicants

Initial applicants must submit a WH-226A for each work site counted in Item 6 of the WH-226, including the main establishment. Items 1-5 of the WH-226A must be completed. Any remaining items on the WH-226A must be completed if the information is available at the time of application.

Renewal Applicants

Renewal applicants must submit a complete WH-226A for each work site counted in Item 6 of the WH-226, including the main establishment. All items on the WH-226A must be completed.

ITEM INSTRUCTIONS

Item 1

Provide the name of the establishment / work site covered by this form. Remember that the main establishment is also considered a work site if workers are employed there at subminimum wages.

Item 2

Provide the physical address of the establishment / work site.

Item 3

Indicate whether the work site is the main establishment, a branch establishment, an off-site work location, or a School Work Experience Program work site.

Main Establishment: The primary location of the employer that files this application on behalf of all its associated work sites. (There can only be one main establishment.)

Branch Establishments: A branch establishment is a physically separate work site that is part of the same organization as the main establishment.

Off-site Work Location: An off-site work location is a work site typically on the premises of a separate establishment, where workers with disabilities, or a group of workers with disabilities, are placed in work settings along with job coaches (staff of the rehabilitation or work center).

School Work Experience Program (SWEP): A school-operated program in which students with disabilities may be placed in jobs with private industry within the community. School employers are responsible for compliance with all applicable child labor laws, minimum wage standards, and certificate and recordkeeping requirements. The school may submit a group application which covers all students with disabilities and all of the business locations at which the students will be placed.

Item 4

Mark "yes" if the employer has a Service Contract Act (SCA)-covered contract to provide services to the Federal Government and work under that contract is performed at this work site.

Item 5

Mark "yes" if the employer has a contract with the Federal Government for services or concessions that was entered into on or after January 1, 2015, which indicates that the contract may be subject to Executive Order 13658 (Establishing a Minimum Wage for Contractors).

Item 6

Count *all* employees who were paid subminimum wages and performed work at this work site during the most recently completed fiscal quarter that ended on the date provided in Item 7(a) of the WH-226. Include workers who were employed for less than the full fiscal quarter, *i.e.* three-month period.

Item 7

Provide the following information for every employee counted in Item 7. The employer may use additional pages of this chart, attach a printed spreadsheet, or submit this information in another format.

- (a) Provide the full name of the worker.
- (b) If the worker performed more than one job *at this work site* during the most recently completed fiscal quarter, provide the total number of jobs performed.
- (c) Provide the average (mean) number of hours *per week* the employee worked on all jobs at this work site during the most recently completed fiscal quarter. Calculate this by taking the total number of hours the employee worked during the most recently completed three-month fiscal quarter and dividing by the number of weeks in the quarter (13 weeks). For example: 260 hours worked in the quarter ÷ 13 weeks per quarter = 20 hours per week average.
- (d) Average earnings are computed by dividing the total earnings of the individual worker by the total number of hours worked during the most recently completed fiscal quarter. Note: The total number of hours worked should only include the compensable work time (for example, generally would not include time spent in rehabilitation, therapy, etc.). For example, John Jones earned \$900 during the fiscal quarter and he worked 300 hours. $\$900 \div 300 \text{ hours} = \3.00 per hour, therefore, Mr. Jones's average earnings per hour are \$3.00.

For Items 7(e) – 7(j), provide the following information for the work performed in the most recently completed fiscal quarter. If the worker performed more than one job at this work site at a subminimum wage, provide the following information for the job for which this worker worked the most number of hours in the most recently completed fiscal quarter. For example, John Jones performed three jobs over the last quarter: contract for assembling bolts totaling 65 hours, contract for assembling boxes totaling 42 hours, and contract for shredding totaling 25 hours. The employer should provide responses to 7(e) – 7(j) for Mr. Jones based on his bolt assembly.

- (e) Describe the type of work performed by this worker in the job for which the worker worked the most number of hours at a subminimum wage rate. Examples may include: sewing, janitorial, box assembly, laundry, etc.
- (f) Identify the primary disability that affects the worker's productivity for the job identified in Item 7(e). Use the following categories:
 - Intellectual/Developmental Disability (IDD)
 - Psychiatric Disability (PD)
 - Visual Impairment (VI)
 - Hearing Impairment (HI)
 - Substance Abuse (SA)
 - Neuromuscular Disability (NM)
 - Age Related Disability (AR)
 - Other (OT), Specify
- (g) Provide the prevailing wage rate for the job identified in Item 7(e).
- (h) Provide the employee's most recent productivity rating for the job identified in Item 7(e). For work paid hourly, the productivity rating is the employee's productivity in proportion to the standard-setter's that was determined by the employee's time study. For piece rate work, no calculation is required, enter "n/a – piece rate".
- (i) For work paid hourly, provide the employee's commensurate wage rate per hour for the job identified in Item 7(e). This should be the wage rate actually paid to the worker for this job. For piece rate work, provide the employee's average earnings per hour for the job identified in Item 7(e).
- (j) Provide the employee's total hours worked on the job identified in Item 7(e) over the most recently completed fiscal quarter.
- (k) Answer "yes" if the employee also performed work at another work site for which a WH-226A is attached. Include the worker on the WH-226A corresponding to each work site.

Please see below for an example of how to complete Item 7.
