

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

The purpose of the information collection is to ensure that a vessel meets the applicable subdivision and stability standards. Plans and other information submitted are normally developed by the shipyard, designer, or manufacturer to assure the construction and safe operation of a vessel. The material and information required is not solely for Coast Guard use, although the material does contain the information necessary to meet Coast Guard regulations. There is no form associated with this collection. The information is vessel-specific—not PII.

The authority for this collection is 46 U.S.C. 3306.

| DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i> | |
| The DHS Privacy Office finds that the Plan Approval and Records for Subdivision and Stability Regulations – (Title 46 CFR Subchapter S) is a non privacy-sensitive information collection. Information is submitted by the shipyard, designer, or manufacturer of a vessel to ensure the construction and safe operation of a vessel. There is no form associated with this collection, and none of the information is submitted to the Coast Guard (it is maintained on the vessel). No PII is associated with this collection, therefore no PIA, SORN, or Privacy Act Statement are required. | |
