

## PRIVACY THRESHOLD ANALYSIS (PTA)

**This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).**

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance  
The Privacy Office  
U.S. Department of Homeland Security  
Washington, DC 20528  
Tel: 202-343-1717

[PIA@hq.dhs.gov](mailto:PIA@hq.dhs.gov)

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

## Privacy Threshold Analysis (PTA)

### *Specialized Template for Information Collections (IC) and Forms*

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

<b>DHS Privacy Office Comments:</b> <i>Please describe rationale for privacy compliance determination above.</i>	
The DHS Privacy Office finds that the Record of Equipment for the Cargo Ship Safety Equipment Certificate, CG-3347B, is a non privacy-sensitive information collection. The form collects vessel-specific information that is used to certify that a ship meets International Convention for the Safety of Life at Sea (SOLAS) requirements, in order to generate certificates as proof of compliance with SOLAS. No PII is associated with this collection, therefore no PIA, SORN, or Privacy Ac Statement are required.
