

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

Specialized Template for Information Collections (IC) and Forms

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

The information collection, Alteration of Unreasonably Obstructive Bridges is utilized if a bridge is determined to be unreasonably obstructive under the Truman-Hobbs Act. Under the provisions of 33 U.S.C. 514, the bridge owner is required to prepare and submit general plans, specifications, and, if necessary geographic location to provide for the alteration of the unreasonably obstructive bridge.

There are no forms associated with this collection. The information contains no PII.

These plans and specifications submitted by the bridge owner will assist the Commandant in determining the apportionment of cost between the United States and the bridge owner as well as the partial payments to be made by the United States to the bridge owner as the alteration progresses.

The authority for this collection is 33 U.S.C. 516 and 33 U.S.C. 517.

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
The DHS Privacy Office finds that Alteration of Unreasonably Obstructive Bridges is a non privacy-sensitive collection of information. The collection does not involve a form, and no PII is collected. Information, including general plans, specifications, and, if necessary geographic location, is used in the determination of whether a bridge is an unreasonable obstructive, and requires alteration.
