

## SUPPORTING STATEMENT FOR PAPERWORK REDUCTION ACT SUBMISSION

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a hard copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information, or you may provide a valid URL link or paste the applicable section<sup>1</sup>. Specify the review type of the collection (new, revision, extension, reinstatement with change, reinstatement without change). If revised, briefly specify the changes. If a rulemaking is involved, make note of the sections or changed sections, if applicable.

**The purpose of Section 102(b)(6) of the Mutual Educational and Cultural Exchange Act of 1961 (Fulbright-Hays Act) is to promote and develop modern foreign language training and area studies throughout the educational structure of the United States. To help accomplish this objective, fellowships are awarded through US institutions of higher education to American doctoral dissertation fellows enabling them to conduct overseas research and enhance their foreign language proficiency.**

**Under the Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) program, individual scholars apply through eligible institutions for an institutional grant to support the research fellowship. These institutions administer the program in cooperation with the US Department of Education (US/ED) as provided under the authority of Sections 102(b)(6) and 104(e)(1) of the Mutual Educational and Cultural Exchange Act of 1961, 34 CFR Parts 662, the Policy Statements of the J. William Fulbright Foreign Scholarship Board (FSB), and the Education Department General Administrative Regulations (EDGAR).**

**One of the OMB-approved Government Performance and Results Act (GPRA) measures for the DDRA program is the “percentage of DDRA fellows who found employment that utilized their language and area studies skills within 8 years of receiving their award.” The efficiency measure for the DDRA program is “Cost per DDRA fellow who found employment that utilized their language and area studies skills within 8 years.” This new information collection is the tool that can gather the information necessary to address the GPRA performance and efficiency measures.**

2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.

**The survey is designed to be sent to DDRA grantee institutions, who administer the survey to their former DDRA fellows and report the results to the Department. The purpose of the survey is to collect information about DDRA fellows’ postgraduate**

---

<sup>1</sup> Please limit pasted text to no longer than 3 paragraphs.

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

**employment, and the degree to which the DDRA fellowships contribute to the fellows' postgraduate employment. Program staff will collect and analyze the fellow responses, and publish findings in a report, which will be posted on the program's web site.**

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or forms of information technology, e.g. permitting electronic submission of responses, and the basis for the decision of adopting this means of collection. Also describe any consideration given to using technology to reduce burden.

**This information collection will be 100% electronic. The survey is built into an online database owned by a contractor, with whom the Department will negotiate a contract. Program staff will use database to send the survey to DDRA grantee institutions, who will send their fellows a link to the survey. Fellows will access the database to complete their surveys and submit them into the online system. Program staff will access the fellows' completed surveys via the online database.**

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item 2 above.

**There is no duplication of the information collected via this survey. No similar information is available.**

5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden. A small entity may be (1) a small business which is deemed to be one that is independently owned and operated and that is not dominant in its field of operation; (2) a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field; or (3) a small government jurisdiction, which is a government of a city, county, town, township, school district, or special district with a population of less than 50,000.

**This collection does not impact small businesses or other small entities.**

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.

**If this survey is not conducted as described, the Department would not be able to collect data to respond to its GPRA performance and efficiency measures.**

7. Explain any special circumstances that would cause an information collection to be conducted in a manner:

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

- requiring respondents to report information to the agency more often than quarterly;
- requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;
- requiring respondents to submit more than an original and two copies of any document;
- requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;
- in connection with a statistical survey, that is not designed to produce valid and reliable results than can be generalized to the universe of study;
- requiring the use of a statistical data classification that has not been reviewed and approved by OMB;
- that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or that unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
- requiring respondents to submit proprietary trade secrets, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

**There are no special circumstances that would require the information collection to be conducted in any of the ways described.**

8. As applicable, state that the Department has published the 60 and 30 Federal Register notices as required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.

Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instruction and record keeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years – even if the

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

The Department will publish the 60 and 30 day Federal Register notices as required by 5 CFR 1320.8(d). Public comments received will be reviewed and responded to by the Department, including comments on cost and hour burden.

**The Department has consulted with persons outside the agency to obtain their views on the survey, including representatives of those from whom the information is to be obtained, and from the Department's contractor, Avar Consulting, Inc., who analyzed the kinds of data collected and proposed recommendations for a new survey instrument.**

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees with meaningful justification.

**No payments or gifts are provided to respondents.**

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy. If personally identifiable information (PII) is being collected, a Privacy Act statement should be included on the instrument. Please provide a citation for the Systems of Record Notice and the date a Privacy Impact Assessment was completed as indicated on the IC Data Form. A confidentiality statement with a legal citation that authorizes the pledge of confidentiality should be provided.<sup>2</sup> If the collection is subject to the Privacy Act, the Privacy Act statement is deemed sufficient with respect to confidentiality. If there is no expectation of confidentiality, simply state that the Department makes no pledge about the confidentiality of the data.

**The Department makes no pledge about the confidentiality of the data. No PII is collected.**

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. The justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.

**No questions of a sensitive nature are asked of respondents.**

---

<sup>2</sup> Requests for this information are in accordance with the following ED and OMB policies: Privacy Act of 1974, OMB Circular A-108 – Privacy Act Implementation – Guidelines and Responsibilities, OMB Circular A-130 Appendix I – Federal Agency Responsibilities for Maintaining Records About Individuals, OMB M-03-22 – OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002, OMB M-06-15 – Safeguarding Personally Identifiable Information, OM:6-104 – Privacy Act of 1974 (Collection, Use and Protection of Personally Identifiable Information)

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

12. Provide estimates of the hour burden of the collection of information. The statement should:

- Indicate the number of respondents by affected public type (federal government, individuals or households, private sector – businesses or other for-profit, private sector – not-for-profit institutions, farms, state, local or tribal governments), frequency of response, annual hour burden, and an explanation of how the burden was estimated, including identification of burden type: recordkeeping, reporting or third party disclosure. All narrative should be included in item 12. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.
- If this request for approval covers more than one form, provide separate hour burden estimates for each form and aggregate the hour burdens in the ROCIS IC Burden Analysis Table. (The table should at minimum include Respondent types, IC activity, Respondent and Responses, Hours/Response, and Total Hours)
- Provide estimates of annualized cost to respondents of the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.

Respondent Type	Frequency of Response	Number of Respondents	Hours per Response	Annual Hour Burden	Burden Type	Cost to Respondents
Individuals	Annual	90	0.25	23	Reporting	\$0.00

13. Provide an estimate of the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14.)

The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of services component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and acquiring and maintaining record storage facilities.

- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.
- Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government or (4) as part of customary and usual business or private practices. Also, these estimates should not include the hourly costs (i.e., the monetization of the hours) captured above in Item 12

**Total Annualized Capital/Startup Cost: \$0.00**  
**Total Annual Costs (O&M) : \$0.00**  
**Total Annualized Costs Requested : \$0.00**

14. Provide estimates of annualized cost to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 in a single table.

Expense	Frequency of Expense	Number of Staff	Staff Hours	Wage/hour	Annual Cost
Clearance of Information Collection	Once every 3 years	1	80	\$62.62	\$5,009.60
Preparation of Qualtrics contracting package	Annual	1	40	\$62.62	\$2,504.80
Cost of Qualtrics License	Annual				\$7,000.00
Building survey in Qualtrics	Bi-annual	1	20	\$62.62	\$1,252.40
Distribution of survey to	Bi-annual	1	20	\$62.62	\$1,252.40

Tracking and OMB Number: (XXXX) 1840-NEW

RIN Number: XXXX-XXXX (if applicable)

<b>grantee institutions</b>					
<b>Technical Assistance to grantee institutions</b>	<b>Bi-annual</b>	<b>1</b>	<b>60</b>	<b>\$62.62</b>	<b>\$3,757.20</b>
<b>Collection of survey responses</b>	<b>Bi-annual</b>	<b>1</b>	<b>40</b>	<b>\$62.62</b>	<b>\$2,504.80</b>
<b>Analyzing survey responses</b>	<b>Bi-annual</b>	<b>1</b>	<b>100</b>	<b>\$62.62</b>	<b>\$6,262.00</b>
<b>Drafting Survey report</b>	<b>Bi-annual</b>	<b>1</b>	<b>120</b>	<b>\$62.62</b>	<b>\$7,514.40</b>
<b>Total</b>					<b>\$37,057.60</b>

15. Explain the reasons for any program changes or adjustments. Generally, adjustments in burden result from re-estimating burden and/or from economic phenomenon outside of an agency's control (e.g., correcting a burden estimate or an organic increase in the size of the reporting universe). Program changes result from a deliberate action that materially changes a collection of information and generally are result of new statute or an agency action (e.g., changing a form, revising regulations, redefining the respondent universe, etc.). Burden changes should be disaggregated by type of change (i.e., adjustment, program change due to new statute, and/or program change due to agency discretion), type of collection (new, revision, extension, reinstatement with change, reinstatement without change) and include totals for changes in burden hours, responses and costs (if applicable).

**Since this collection is new, the burden increases as a result of a program change due to new statute (the new GPRA performance and efficiency measures).**

16. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.

**The estimated time schedule is as follows: distribute the survey in September with a response deadline in the beginning of November. The data analysis, including cross-tabulations and a one-tailed t-test, would be completed by the end of December, corresponding tables would be completed by the end of February, and the report would be drafted by the end of April. The report must be cleared by the IFLE Acting Deputy Assistant Secretary and OCO before publication and web posting. In an ideal year, that would be completed by the end of June.**

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.

**The expiration date for OMB approval of the information collection will be displayed as required.**

18. Explain each exception to the certification statement identified in the Certification of Paperwork Reduction Act.

Tracking and OMB Number: (XXXX) 1840-NEW

Revised: XX/XX/XXXX

RIN Number: XXXX-XXXX (if applicable)

**No exceptions to the certification statement are sought.**
