What do you think you will remember the most about the WQS Academy? Why?

EPA recently reorganized the WQS Academy agenda. Did you feel topics were presented in a logical order? Were there certain topics that should have come before others?

In an effort to reduce paper usage, the WQS Academy provided you with electronic files to supplement the live presentations at this Academy. (In previous Academies, all presentations were provided as printouts in a binder.) Would you support this practice of providing electronic files for future Academy sessions based on your experience this week? Why or why not?

Please provide any other information you think is relevant.

Thank you!
