

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 2010-0042)

TITLE OF INFORMATION COLLECTION: Central Data Exchange (CDX) Electronic State Implementation Plans (eSIP) Customer Survey

PURPOSE: The purpose of this survey is to get usability feedback from state, local and tribal users on the eSIP system program service in CDX.

On February 3, 2015, the U.S. Environmental Protection Agency notified state, local and tribal air agencies that they have the option to submit state implementation plans (SIPs) using the EPA’s new electronic web-based SIP (eSIP) submission system. States develop SIPs to assure they attain and maintain the National Ambient Air Quality Standards (NAAQS). The plans must be reviewed and approved by the EPA. The eSIP system is the EPA’s preferred method for air agencies to make SIP submissions. If a SIP submission is made through the eSIP submission system, all documents transmitted through the system will be considered part of the official SIP submission from the air agency. The eSIP system can reduce costs and lessen the burden on air agencies and the EPA by providing the option for electronic reporting.

DESCRIPTION OF RESPONDENTS: The respondents are state, local and tribal agencies users that can voluntarily submit state implementation plans and related documents to EPA electronically to comply with the National Ambient Air Quality Standards.
