

Federal Maritime Commission

Automated Tariff Registration System (Form-1) User Manual

August 2007

Purpose

The Automated Tariff Registration System (Form-1) facilitates the registration of tariff publication locations by vessel-operating ocean common carriers (VOCCs), non-vessel-operating common carriers (NVOCCs), conferences, and marine terminal operators (MTOs) as required by Section 8 of the Shipping Act of 1984. The Federal Maritime Commission (FMC) uses Form-1 to permit shippers and other members of the public to obtain reliable and useful information concerning the rates and charges that will be assessed by common carriers and conferences for their transportation services; to ensure that carrier tariff publications are accurate and accessible; to protect the public from violations by carriers; and to review and monitor the activities of controlled carriers. Form-1 is available via the internet.

The purpose of this manual is to assist the FMC-1 Tariff Registration Form filer prepare and maintain the electronic FMC-1 form.
