PRIVACY ACT STATEMENT

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 *et seq.*

Purpose: In order to manage U.S. fisheries, the NOAA National Marine Fisheries Service (NMFS) requires the use of permits or registrations by participants in the United States. A License Limitation Program (LLP) license is required for vessels participating in directed fishing for LLP groundfish species in the Aleutian Islands (BSAI) or Gulf of Alaska, or fishing in any BSAI LLP crab fisheries. As the selection process for the LLP has ended, no new licenses will be issued; an LLP license may only be obtained through transfer. Transferor and transferee information is collected on this form to determine eligibility to transfer and receive the LLP license.

Routine Uses: The Department will use this information to identify fishery participants and to determine transfer eligibility. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations. Disclosure of this information is also subject to all of the published routine uses as identified in the [Privacy Act System of Records Notice COMMERCE/NOAA-19](#), Permits and Registrations for the United States Federally Regulated Fisheries.

Disclosure: Furnishing this information is required to transfer a groundfish or crab license under the LLP Program; failure to provide complete and accurate information will prevent the determination of eligibility to transfer or receive an LLP license.

LICENSE LIMITATION PROGRAM (LLP) TRANSFER
GROUND FISH/CRAB LICENSE

Vessel-specific LLP

The transfer of a license that was issued based on the documented harvests from a vessel that did not have a Federal Fisheries Permit (FFP) during the period beginning January 1, 1988, through October 8, 1998, is restricted by regulation at 50 CFR 679.4(k)(7)(ix). Under this transfer restriction, this type of groundfish LLP license cannot be transferred separately and used on a vessel other than the original qualifying vessel, with two exceptions.

1. If the fishing history of a vessel that did not have an FFP was transferred before February 7, 1998, the qualifying vessel did not have to accompany the license.
2. A vessel that is subject to this provision but that is lost or destroyed can be replaced under the general vessel replacement provisions of the LLP.

However, subsequent transfers will require the license to be “coupled” with the existing vessel (i.e., the license cannot be transferred separately from the vessel named on the license).

Aleutian Island Area (AI) Endorsement

An AI area endorsement is issued based on the landings of vessels less than 60 feet length overall and is severable and transferable from the overall license. No other regulatory area endorsement in the existing LLP is allowed to be transferred separately from the LLP license to which it is attached. However, the AI area endorsement must be reassigned, or reattached, only to a trawl catcher vessel LLP license with a maximum length overall of less than 60 feet in order to be used.
