The objectives of the National Sea Grant College Program, as stated in the Sea Grant legislation (33 U.S.C. 1121-1131) are to increase the understanding, assessments, development, utilization, and conservation of the Nation's ocean, coastal, and Great Lakes resources. It accomplishes these objectives by conducting research, education, and outreach programs.

Grant monies are available for funding activities that help obtain the objectives of the Sea Grant Program. Both single and multi-project grants are awarded, with the latter representing about 80 percent of the total grant program. In addition to other standard grant application requirements, three forms are required with the grants. These are the Sea Grant Control Form 90-1, used to identify the organizations and personnel who would be involved in the grant and briefly summarize the proposed activities under the grant; the Project Record Form 90-2, which collects summary data on projects; and the Sea Grant Budget Form 90-4, which provides information similar to, but more detailed than on, forms SF-424A or SF-424C.

The National Sea Grant College Program Act (33 U.S.C. 1126) provides for the designation of a public or private institution of higher education, institute, laboratory, or State or local agency as a Sea Grant college or Sea Grant institute. Applications are required for designation of Sea Grant Colleges and Sea Grant Institutes.

Method of collection: Responses are made in a variety of formats, including forms and narrative submissions, via mail, fax or email. The Sea Grant Project Record Form and Sea Grant Budget Form must be submitted in electronic format through grants.gov if the grant applicant has the means to do so.

Estimated Total Annual Cost to Public: \$300 in recordkeeping/reporting costs.
