## 1. Form-Fillable Instructions

### Overview

USPTO fill-in PDF forms use the features provided with Adobe Acrobat products. There is some validation of the information you enter but you are still responsible for entering all required information (instructions may require some information to be handwritten on the form).

### Software Requirements

To view, complete and print USPTO fill-in PDF forms you will need the free [Adobe Acrobat Reader](#) software installed on your computer. Version 7.0.8, 7.0.9, 8.1.1, or 8.1.2 of Adobe Reader is recommended.

### Opening the Form

Your web browser may be configured with an Adobe Reader plug-in to automatically open the file within your browser's window upon download. To download the file directly to disk, right click the form title link then select "Save Target/Link As..." from the menu. Use Adobe Reader to open the file.

## Completing the Form

When positioning the cursor on a fill-in area or element, the cursor will change appearance. The I-beam pointer allows you to type text. The hand pointer allows you to select a check box or radio button.

Enter the appropriate data in each box or field. To move from one field to the next, press the Tab key. You can also use your cursor to move from field to field. Place your cursor in the field you want to fill in, then left-click.

Some fields limit the maximum number of characters you can enter and may automatically advance to the next field.

For additional help with fill-in forms, see the Adobe Reader's online help information.

### Tips:

- Use the latest version of Adobe Reader in order to ensure the form's full functionality
- This fill-in form permits the entered data to be automatically loaded into the Office's electronic systems, such as PALM when electronically submitted. Printing the form, scanning it to create a PDF and submitting the scan of the printed form will require Office Personnel to key in the information by hand.
- Save a copy of your work to avoid loss.
- The USPTO is only accepting certain types of applications electronically. Visit [www.uspto.gov](http://www.uspto.gov) for more details

## 2. Detailed Form Instructions by Field

### Inventor Information:

Inventor	One who contributes to the conception of an invention. The patent law of the United States of America requires that the applicant in a patent application must be the inventor.
