**Prescription Drug Information Study**  
Looking for **Participants for a Research Interview**

**Are you a primary care physician, endocrinologist, neurologist,  
nurse practitioner, or physician assistant?**

**Compensation for your participation will be provided!**

MedStar Health National Center for Human Factors in Healthcare is looking for **healthcare providers with prescribing authority** to assist with research on processing prescription drug information, which will include **eye tracking**.

- One hour session, outside of your normal work schedule
- Conducted between 8 a.m. and 7 p.m.
- MedStar location of your choice across the D.C., Maryland, and Virginia (DMV) area, including Baltimore
- Eligibility requirements:
  - Must have prescribing authority
  - Primary care providers must spend at least 50% of time on direct patient care; specialists must spend at least 20% of time on direct patient care
  - Must not have participated in interviews or focus groups in the past month

If you are interested in participating, please contact Tracy Kim at [Tracy.C.Kim@medstar.net](mailto:Tracy.C.Kim@medstar.net) or (202) 243-2593.
