

# STATE TECHNICAL ASSISTANCE NEEDS ASSESSMENT

## -- Regarding housing-related supports and services and care coordination services under Medicaid to individuals with substance use disorders

*April 2020*

**PRA Disclosure Statement** - *The information you provide in this data collection is completely voluntary. All data will be used only by the Centers for Medicare and Medicaid Services to inform technical assistance activities, regarding housing-related supports and services and care coordination services under Medicaid to individuals with substance use disorders. No data will be shared in any capacity or posted in the public domain. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 # 60). The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.*

Section 1018 of the SUPPORT for Patients and Communities Act authorizes the Secretary of Health and Human Services to “provide technical assistance and support to states regarding the development and expansion of innovative state strategies to provide housing-related supports and services and care coordination services under Medicaid to individuals with substance use disorders.” Mathematica and the Technical Assistance Collaborative (TAC) have been contracted by the Centers for Medicare & Medicaid Services (CMS) to conduct a Needs Assessment survey to support this work.

Finding safe and stable housing that promotes or enables recovery is essential for many Medicaid enrollees with substance use disorders (SUD). In the context of the opioid crisis, this work is critical. CMS estimates that nearly 12 percent of Medicaid beneficiaries over the age of 18 years have a SUD, and the Henry J. Kaiser Family Foundation estimates that 4 out of 10 non-elderly adults with opioid use disorder (OUD) are covered by Medicaid. Housing alone may not be sufficient to help individuals with SUD who have more complex and co-occurring conditions achieve successful tenancy. Services and supports are needed to enable individuals to obtain and retain housing, promote long-term stability, recovery, and improved health.

This survey will collect information from states on their current activities to support individuals with SUD in this area, as well as assess areas of need for technical assistance. CMS will use this information to guide technical assistance efforts to states for effectively designing housing-related supports and services and care coordination services under Medicaid for individuals with SUD.

Federal financial participation (FFP) is not available to state Medicaid programs for room and board (except in certain medical institutions). However, FFP is available under certain federal authorities for housing-related supports and services that promote health and community integration. These activities may include: a) linking individuals to assistance in finding and securing housing, b) offering services that support Medicaid eligible individuals in maintaining tenancy, and c) providing one-time moving expenses when individuals transition from certain medical institutions to the community. Housing-related supports and services are authorized based on an assessment of need and are identified in a person-centered service plan. The person-centered planning process reflects any needed services including non-Medicaid community resources.

CMS, Mathematica, and TAC are planning various types of technical assistance activities to support state Medicaid programs in expanding their work in this area. These activities may include: developing issue briefs that document lessons learned and best practices; conducting presentations and webinars; providing one-on-one consultation; and facilitating interactions among state stakeholders. We will also coordinate a learning collaborative for interested states to explore their work. The specific nature and timing of these activities will reflect the results of this needs assessment and the experiences of the learning collaborative.

### ***INSTRUCTIONS***

- All of the questions in the Needs Assessment ask about "your state." By "your state," we mean the specific state name printed on the front cover. Please answer **ONLY** for the specific state printed on the front cover.
- The Needs Assessment should be completed by staff knowledgeable about your state's housing-related services and supports under Medicaid for individuals with SUD.
- We ask that you please complete the Needs Assessment and return it to Mathematica by June 30, 2020.
- Terms that appear underlined in blue in the Needs Assessment are included in the attached Glossary of Terms.
- If you have any questions while you are completing the Needs Assessment, please contact our toll-free helpline at 1-844-595-0513, or email us at: [email address].
- Please keep a copy of your completed Needs Assessment for your records.
- If submitting the completed Needs Assessment electronically using the fillable PDF provided, please return the completed Needs Assessment via email to [email address]. A scanned paper copy of the completed assessment can also be emailed.
- If you would prefer to submit a completed paper copy via fax, please fax it to: 1-609-799-0005.
- If you prefer to submit a scanned, completed copy via US mail, please send it to:

## A. Status of Housing-Related Activities Under your State's Medicaid Program

**A1. Which of the following describes your state's level of interest or activity in developing and/or expanding strategies to provide housing-related supports and services under Medicaid to individuals with substance use disorders (SUD)?**

**MARK ALL THAT APPLY**

- 1  Governor's priority
- 2  Actively implementing a program offering housing-related supports and services
  - a  State-wide
  - b  Within selected regions or localities
- 3  Not currently implementing such a program
- 4  Currently receiving technical assistance from CMS or another organization supported by CMS to develop strategies
- 5  Interested in learning more within the next two years
- 6  At this time our state has other priorities
- 7  Other (*specify*) \_\_\_\_\_

**A2. Has your state previously worked on or completed a formal needs assessment to identify gaps in housing-related supports and services for Medicaid beneficiaries with SUD?**

- 1  Yes
- 0  No → **SKIP TO A5**

**A3. Briefly describe the major gaps in housing-related supports and services for Medicaid beneficiaries with SUD that were identified through this assessment and when applicable. Please include information about gaps by sub-populations and geographic areas including rural vs. urban areas.**

---

**A4. Do you have any written documents related to assessed needs in this area and/or efforts to address them, either planned or underway, that you would be willing to share?**

- 1  Yes **PLEASE ATTACH ALONG WITH SURVEY RESPONSE**
- 0  No

**A5. Has your state been engaged in any recent efforts to address the housing-related needs of Medicaid beneficiaries with SUD?**

- 1  Yes
- 0  No → **SKIP TO D1**

**A6. What lessons have you learned from your state's efforts to provide housing-related supports and services under Medicaid to individuals with SUD, if applicable?**

**MARK ALL THAT APPLY**

- 1  Leadership support (e.g., governor's office, state agency leadership, state commissions, legislature) is critical
- 2  Ability to analyze, share and/or match data is important
- 3  Cross-agency partnerships, particularly with state or local housing providers, are essential
- 4  Stakeholder involvement at a local/community level is needed
- 5  Medicaid and non-Medicaid resources to offer the range of supports needed to help individuals access and maintain housing is useful
- 6  Limitation of housing resources for individuals with SUD is a challenge
- 7  Availability of qualified providers to deliver housing related-supports and services is a challenge
- 8  Other (*specify*) \_\_\_\_\_
- 9  None

**A7. Efforts to address the housing-related needs of Medicaid beneficiaries with SUD were initiated by:**

**MARK ALL THAT APPLY**

- 1  State Opioid Response Grant Activities
- 2  [Medicaid Innovation Accelerator Program \(IAP\)](#)
