FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the diversity of state approaches to CHIP and allow states flexibility to highlight key accomplishments and progress of their CHIP programs, AND
- Provide consistency across states in the structure, content, and format of the report, AND
- Build on data already collected by CMS quarterly enrollment and expenditure reports, AND
- Enhance accessibility of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments
 - * When "state" is referenced throughout this template it is defined as either a state or a territory.

PRA Disclosure Statement. This information is being collected to assist the Centers for Medicare & Medicaid Services (CMS) in partnership with States with the ongoing management of Medicaid and CHIP programs and policies. This mandatory information collection (42 U.S.C. 1397hh) will be used to help each state meet the statutory requirements at section 2108(a) of the Social Security Act to assess the operation of the State child health plan in each Federal fiscal year and to report the results of the assessment including the progress made in reducing the number of uncovered, low-income children. *Under the Privacy Act of 1974 any personally* identifying information obtained will be kept private to the extent of the law. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #1). The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

DO NOT CERTIFY THE REPORT UNTIL ALL SECTIONS ARE COMPLETE.

Section IIA: Enrollment And Uninsured Data

Table 1: Children enrolled in CHIP

This table is pre-filled with the state's SEDS data for the two most recent federal fiscal years. If the information is inaccurate, adjust the data in the SEDS report (See line 7: Unduplicated Number Ever Enrolled in the fourth quarter SEDS report) and refresh this page. (Note: It may take some time to see updated data.)

Program	FFY 2019	FFY 2020	Percent change FFY 2019-2020
M-CHIP (Medicaid			
Expansion Program)			
S-CHIP (Separate Child			
Health Program)			

1. If the percent change exceeds a 10% increase or decrease, what are some possible reasons for this change? (For example: Changes in outreach strategies or an expansion of programs.)

Table 2: Uninsured children (under age 19) below 200% FPL Current Population Survey

This table is pre-filled with rates of uninsured children below 200% of the Federal Poverty Line (FPL) based on three-year averages from the Current Population Survey. Significant changes are denoted with an asterisk (*).

Time period	Uninsure	Uninsured children Uninsured children as a percent of total children		
Time period	Number	Standard error	Percent	Standard error

Time pavied	Uninsured children		Uninsured children as a percent of total children	
Time period	Number	Standard error	Percent	Standard error

Table 3: Uninsured children (under age 19) below 200% FPL American Community Survey

This table is pre-filled with numbers of uninsured children below 200% of the Federal Poverty Line (FPL) based on single year estimates from the American Community Survey. Significant changes are denoted with an asterisk (*).

Time period	Uninsure	Uninsured children		Uninsured children as a percent of total children	
Time period	Number	Margin of error	Percent	Margin of error	
Percent	%	N/A	%	N/A	
change 2018					
vs. 2019					

- 2. What are some possible reasons for increases or decreases in the number of uninsured children in your state?
- 3. Were there any limitations on the American Community Survey data that could affect the reliability or precision of this data?

4.	Does your state have any alternate data source(s) or methodology for measuring the
	number and/or rate of uninsured children in your state?
	□Yes

If yes, please report the alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

 [7500]
- B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.
 [7500]
- C. What are the limitations of the data or estimation methodology? [7500]
- D. How does your state use this alternate data source in CHIP program planning? [7500]

a)

5. Anything else to share about the data on enrollment and uninsured children? [7500]

Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in the CHIP state plan. (If goals reported in the annual report now differ from Section 9 of the CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2018 and FFY 2019) will be populated with data from previously reported data in CARTS. If data are reported in the two previous years' reports that need to be updated/changed, please enter those data. If data are not reported for either of those two years, but data are now available for them, please enter the data. In the third column, please report the most recent data available at the time of submission for the current annual report (FFY 2020).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.

In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.

Additional instructions for completing each row of the table are provided below.

A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal reported within a given strategic objective. All new goals should include a direction and a target. For clarification only, an example goal would be: "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

B. Type of Goal:

For each goal reported within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box a goal has been revised or added. Please explain how and why the goal was revised.
- Continuing: Check this box if the goal that is being reported is the same goal reported in previous annual reports.
- <u>Discontinued</u>: Check this box if the goal has been met and/or discontinued. Please explain why the goal was discontinued.

C. Status of Data Reported:

Please indicate the status of the data reported for each goal, as follows:

 Provisional: Check this box if the performance measure data for a goal is currently being modified, verified, or may change in any other way before they are finalized for FFY 2020.

Explanation of Provisional Data – When the value of the Status of Data Reported field is selected as "Provisional", the state must specify why the data are provisional and when the state expects the data will be final.

- Final: Check this box if the data are considered final for FFY 2020.
- Same data as reported in a previous year's annual report: Check this box if the data reported are the same data that your state reported for the goal in another annual report. Indicate in which year's annual report your state previously reported the data.

D. Measurement Specification:

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate the performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If "Other" measurement specification is selected, the explanation field must be completed.

HEDIS® Version:

Please specify HEDIS® Version (example 2016). This field must be completed only when a user selects the HEDIS® measurement specification.

"Other" measurement specification explanation:

If "Other", measurement specification is selected, please complete the explanation of the "Other" measurement specification. The explanation field must be completed when "Other" measurement specification has been selected.

E. Data Source:

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate source of the data, such as eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). Please also indicate the source of data used for the objectives related to access to care and use of preventative care, such as administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

F. Definition of Population Included in Measure:

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded), The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

G. Deviations from Measure Specification

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

H. Date Range: available for 2020 CARTS reporting period.

Please define the date range for the reporting period based on the "From" time period as the month and year which corresponds to the beginning period in which utilization took place and please report the "To" time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

I. Performance Measurement Data (HEDIS® or Other):

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether your state is reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give enough space to fully report on the measure, please use the "additional notes" section.

The preferred method is to calculate a "weighted rate" by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the "Numerator" and "Denominator" fields. In these cases, it should report the state-level

rate in the "Rate" field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled "Additional Notes on Measure," along with a description of the method used to derive the state-level rate.

J. Explanation of Progress:

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your state's progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your state's progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children's immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future qualityimprovement plans. In this section, your state is also asked to set annual performance objectives for FFY 2021, 2022 and 2023 Based on recent performance on the measure (from FFY 2018 through 2020), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain the rationale for setting these objectives. For example, if the rate has been increasing by 3 or 4 percentage points per year, the state might project future increases at a similar rate. On the other hand, if the rate has been stable over time, the state might set a target that projects a small increase over time. If the rate has been fluctuating over time, the state might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. The state might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, your state will be asked to comment on how the actual performance compares to the objective set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

K. Other Comments on Measure:

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

Measure: Measure: Measure:			

- 1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your state's CHIP population? What are the findings? [7500]
- 2. What strategies does your state's CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your state's CHIP population? When will data be available? [7500]
- 3. Has your state conducted any focused quality studies on your state's CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special heath care needs or other emerging health care needs? What are the findings? [7500]
- 4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your state's CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. [7500]

Enter any Narrative text related to Section IIB below. [7500]

Section III Assessment of State Plan and Program Operation

Section IIIA Program Outreach

Program outreach includes all efforts to increase awareness about the CHIP and Medicaid programs throughout the state.

- **1.** Has your state changed outreach methods over the past federal fiscal year? If so, what has been done differently?
- **2.** Is your state targeting specific populations in its outreach? (For example: minorities, immigrants, or children living in rural areas.)

If YES:

- a. Have these efforts been successful?
- **b.** How has the state measured the effectiveness of these efforts?
- **3.** What methods have been most effective in reaching low-income, uninsured children? (For example: TV, school outreach, or word of mouth)
- **4.** What percent of children below 200% of the Federal Poverty Level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? [For example: "23.78%"]
 - a. What is the data source?
- 5. Anything else to add about your state's outreach efforts? [7500]

Section IIIB Substitution of Coverage (Crowd-out)

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance decides to drop their private coverage and substitute it with publicly funded insurance coverage such as CHIP.

1.		your state's Separate CHIP program require a child to be uninsured for a um amount of time before enrollment (the waiting period)?
	□ No □ Yes □ N/A	s A, Medicaid Expansion CHIP only
	If YES	S:
	a.	How long does your state's program require a child to be uninsured before enrollment?
	b.	Which population groups does the period of uninsurance apply to? (Include Federal Poverty Levels for each group.)
	C.	What exemptions apply to the period of uninsurance?
2.		your state's program match prospective enrollees to a database that also s their private insurance status?
	□No	
	□Yes	5
	□ N/A	
	a.	Which database do you use?
3.	What	percent of individuals screened for CHIP eligibility can't be enrolled because

they have group health plan coverage? [For example "23.17%"]

4.	What percent of individuals with group health insurance who are subject to the waiting period meet state and federal exemptions?
	To calculate this number: Divide the number of individuals subject to the waiting period who meet an exemption by the total number of individuals subject to the waiting period, then multiply this number by 100.
5.	Does your state track the number of individuals who have access to private insurance?
	□ No

If YES:

☐ Yes

- **a.** How many individuals who enrolled in CHIP over the last FFY (federal fiscal year) had access to private insurance when they applied?
- **b.** How many individuals were enrolled in CHIP during the last FFY?
- **c.** What percent of individuals that enrolled in CHIP had access to private health insurance when they applied? [Divide 5a by 5b and multiply by 100]
- 6. Anything else to add about this section that wasn't already covered? Did your state run into any limitations when collecting data? [7500]

Section IIIC Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

Subpart A: Eligibility Renewal and Retention

1.	Does your state have authority in the CHIP State Plan to provide for presumptive eligibility in your Separate CHIP program, and has your state implemented this?
	□No
	□Yes
	\square N/A, Medicaid Expansion CHIP only
	If YES:
	a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination?
	b. Of those children who are presumptively enrolled, what percent are determined fully eligible and enrolled in the program?
2.	In an effort to retain more children in CHIP, does your state conduct follow-up communication with families through caseworkers and outreach workers?
	□No
	□Yes
3.	Does your state send renewal reminder notices to families?
	□No
	□Yes

If YES:

- a. How many notices does your state send to families before disenrolling a child from the program?
- b. When does your state send your reminder notices to families? (How many days before the end of the eligibility period?)
- **4.** What other strategies does your state do to simplify the eligibility renewal process for families in order to increase retention?
- **5.** Which retention strategies are the most effective?
- **6.** How does your state measure the effectiveness? What data sources and methodology does your state use to track retention?

Subpart B: Eligibility Data

Table 1. Data on Denials of Title XXI Coverage in FFY 2020

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2020. Please enter the data requested in the table below and the template will tabulate the requested percentages.

If your state is unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
Total number of denials of title XXI coverage		
a. Total number of procedural denials		
b. Total number of eligibility denials		
i. Total number of applicants denied for title XXI and enrolled in title XIX		
☐ (Check here if there are no additional categories)		
c. Total number of applicants denied for other reasons. Please indicate:		

Measure	Number	Percent

2. Please describe any limitations or restrictions on the data used in this table:

Definitions:

- 1. The "the total number of denials of title XXI coverage" is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2020. This definition only includes denials for title XXI at the time of initial application (not redetermination).
 - **a.** The "total number of procedural denials" is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2020 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
 - b. The "total number of eligibility denials" is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2020 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible, obtained private coverage or if applicable, had access to private coverage during your state's specified waiting period, etc.)
 - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
 - **c.** The "total number of applicants denied for other reasons" is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2020.

Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the "Number" column, and the template will automatically tabulate the percentages.

Description	Number		Per	cent	
 Total number of children who are 		100			
enrolled in title XXI and eligible to be		%			
redetermined					
2. Total number of children screened for			100		

Description	Number	Perc	cent	
redetermination for title XXI		%		
3. Total number of children retained in				
title XXI after the redetermination				
process				
4. Total number of children disenrolled			100	
from title XXI after the redetermination			%	
process				
a. Total number of children disenrolled from				
title XXI for failure to comply with				
procedures				
b. Total number of children disenrolled from				100
title XXI for failure to meet eligibility				%
criteria				
i Disenrolled from title XXI because income				
too high for title XXI				
(If unable to provide the data, check

ii Disenrolled from title XXI because income				
too low for title XXI				
(If unable to provide the data, check				
here \square)				
iii Disenrolled from title XXI because				
application indicated access to				
private coverage or obtained private				
coverage				
(If unable to provide the data or if				
your state has a title XXI Medicaid				
Expansion and this data is not				
relevant check here □)				
iv Disenrolled from title XXI for other				
eligibility reason(s)				
Please indicate:				
(If unable to provide the data check here)				
c. Total number of children disenrolled from				
title XXI for other reason(s)				
Please indicate:				
(Check here if there are no additional				
categories 🗀)				

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data **[7500]**.

Definitions:

- 1. The "total number of children who are eligible to be redetermined" is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2020, and did not age out (did not exceed the program's maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12-month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
- 2. The "total number of children screened for redetermination" is defined as the total number of children that were screened by the state for redetermination in FFY 2020 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
- **3.** The "total number of children retained after the redetermination process" is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2020.
- 4. The "total number of children disenrolled from title XXI after the redetermination process" is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2020. This includes those children that states may define as "transferred" to Medicaid for title XIX eligibility screening.
 - **a.** The "total number of children disenrolled for failure to comply with procedures" is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2020 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - **b.** The "total number of children disenrolled for failure to meet eligibility criteria" is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state's CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state's specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
 - **c.** The "total number of children disenrolled for other reason(s)" is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
 - The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the "Number" column, and the template will automatically tabulate the percentages.

Description	Number		Per	cent	
1. Total number of children who are enrolled in		100%			
title XIX and eligible to be redetermined					

Des	cription	Number	Per	cent	
	Total number of children screened for redetermination for title XIX		100%		
	Total number of children retained in title XIX after the redetermination process				
	Total number of children disenrolled from title XIX after the redetermination process			100%	
i	a. Total number of children disenrolled from title XIX for failure to comply with procedures				
	 b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria 				100%
	 i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here □) 				
	ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: (If unable to provide the data check here □)				
	c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories □)				

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data **[7500]**.

Definitions:

1. The "total number of children who are eligible to be redetermined" is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2020, and did not age out (did not exceed the program's maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12-month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

- 2. The "total number of children screened for redetermination" is defined as the total number of children that were screened by the state for redetermination in FFY 2020 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
- **3.** The "total number of children retained after the redetermination process" is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2020.
- **4.** The "total number of children disenrolled from title XIX after the redetermination process" is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2020. This includes those children that states may define as "transferred" to CHIP for title XXI eligibility screening.
 - **a.** The "total number of children disenrolled for failure to comply with procedures" is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2020 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
 - **b.** The "total number of children disenrolled for failure to meet eligibility criteria" is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state's Medicaid eligibility criteria (i.e., income too high, etc.).
 - **c.** The "total number of children disenrolled for other reason(s)" is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.
 - The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2020

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required**.

The measure is designed to capture continuity of coverage for a cohort of children in title XIX and title XXI for 18 months of enrollment. This means that reporting spans two CARTS reports over two years, with enrollment status at 6 months being reported in the first reporting year, and 12 and 18-month enrollment status reported in the second reporting year. States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2020 (January, February, and March of 2020) for the FFY 2020 CARTS report. This same cohort of children will be reported on in the FFY 2021 CARTS report for the 12 and 18-month status of children newly identified in quarter 2 of FFY 2020. If your state's eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.

The FFY 2020 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018. For the FFY 2018 report, States only reported on lines 1-4a of the tables. In the FFY 2020 report, no updates will be made to lines 1-4a. For the FFY 2020 report, data will be added to lines 5-10a. The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

Instructions: For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2020, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2020 must have birthdates after August 2001, and children enrolled in March 2020 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your state's eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18-month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2020 report your state will enter data on lines 5-7a related to the 12-month enrollment status of children identified on line 1. Your state will also enter data on lines 8-10a related to the 18-month enrollment status of children identified on line 1. Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.

Note that all data must sum correctly in order to save and move to the next page. The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must

each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so when data are added or modified at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for in line 1 "All Children Ages 0-16" over the entire 18-month period. Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.

Definitions:

- **1.**The "total number of children newly enrolled in title XIX in the second quarter of FFY 2020" is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your state's population of "newly enrolled" in the Instructions section.
- **2.** The total number of children that were continuously enrolled in title XIX for <u>6 months</u> is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who were continuously enrolled through the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who were continuously enrolled through the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and who were continuously enrolled through the end of August 2020
- **3.** The total number who had a break in title XIX coverage during <u>6 months</u> of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who disenrolled and re-enrolled in title XIX by the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who disenrolled and re-enrolled in title XIX by the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and who disenrolled and re-enrolled in title XIX by the end of August 2020 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
- **4.** The total number who disenrolled from title XIX, <u>6 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and were disenrolled by the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and were disenrolled by the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and were disenrolled by the end of August 2020
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
- **5.** The total number of children who were continuously enrolled in title XIX for <u>12 months</u> is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and were continuously enrolled through the end of December 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and were continuously enrolled through the end of January 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and were continuously enrolled through the end of February 2021

- **6.** The total number of children who had a break in title XIX coverage during <u>12 months</u> of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who disenrolled and then re-enrolled in title XIX by the end of December 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who disenrolled and then re-enrolled in title XIX by the end of January 2021
 - + the number of children with birthdates after September 2001 who were newly enrolled in March 2020 and who disenrolled and then re-enrolled in title XIX by the end of February 2021
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
- **7.** The total number of children who disenrolled from title XIX <u>12 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were enrolled in January 20208 and were disenrolled by the end of December 2020
 - + the number of children with birthdates after August 2001, who were enrolled in February 2020 and were disenrolled by the end of January 2021
 - + the number of children with birthdates after September 2001, who were enrolled in March 2020 and were disenrolled by the end of February 2021
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
- **8.** The total number of children who were continuously enrolled in title XIX for <u>18 months</u> is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2021
- **9.** The total number of children who had a break in title XIX coverage during <u>18 months</u> of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2021 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.

- **10.** The total number of children who were disenrolled from title XIX <u>18 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and disenrolled by the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and disenrolled by the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and disenrolled by the end of August 2021
 - 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from XIX.

Table 3b. Duration Measure of Children Enrolled in Title XXI

Specif	y how your state's "newly enrolled" population is defined:
	□ Not Previously Enrolled in CHIP or Medicaid— "Newly enrolled" is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2020, he/she would not be enrolled in either title XXI or title XIX in December 2019, etc.)
	Not Previously Enrolled in CHIP— "Newly enrolled" is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2020, he/she would not be enrolled in title XXI in December 2019, etc.)

Definitions:

- The "total number of children newly enrolled in title XXI in the second quarter of FFY 2020" is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your state's population of "newly enrolled" in the Instructions section.
- **2.**The total number of children that were continuously enrolled in title XXI for <u>6 months</u> is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who were continuously enrolled through the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who were continuously enrolled through the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and who were continuously enrolled through the end of August 2020
- **3.** The total number who had a break in title XXI coverage during <u>6 months</u> of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who disenrolled and re-enrolled in title XXI by the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020and who disenrolled and re-enrolled in title XXI by the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and who disenrolled and re-enrolled in title XXI by the end of August 2020 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
- **4.** The total number who disenrolled from title XXI, <u>6 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and were disenrolled by the end of June 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and were disenrolled by the end of July 2020
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and were disenrolled by the end of August 2020
 - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
- **5.** The total number of children who were continuously enrolled in title XXI for $\underline{12 \text{ months}}$ is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and were continuously enrolled through the end of December 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and were continuously enrolled through the end of January 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and were continuously enrolled through the end of February 2021

- **6.** The total number of children who had a break in title XXI coverage during <u>12 months</u> of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who disenrolled and then re-enrolled in title XXI by the end of December 2020
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who disenrolled and then re-enrolled in title XXI by the end of January 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and who disenrolled and then re-enrolled in title XXI by the end of February 2021
 - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
- **7.** The total number of children who disenrolled from title XXI <u>12 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were enrolled in January 2020 and were disenrolled by the end of December 2020
 - + the number of children with birthdates after August 2001, who were enrolled in February 2020 and were disenrolled by the end of January 2021
 - + the number of children with birthdates after September 2001, who were enrolled in March 2020 and were disenrolled by the end of February 2021
 - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
- **8.** The total number of children who were continuously enrolled in title XXI for <u>18 months</u> is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and were continuously enrolled through the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and were continuously enrolled through the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and were continuously enrolled through the end of August 2021
- **9.** The total number of children who had a break in title XXI coverage during <u>18 months</u> of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and who disenrolled and re-enrolled in title XXI by the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and who disenrolled and re-enrolled in title XXI by the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020and who disenrolled and re-enrolled in title XXI by the end of August 2021 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

- **10.** The total number of children who were disenrolled from title XXI <u>18 months</u> after their enrollment month is defined as the sum of:
 - the number of children with birthdates after July 2001, who were newly enrolled in January 2020 and disenrolled by the end of June 2021
 - + the number of children with birthdates after August 2001, who were newly enrolled in February 2020 and disenrolled by the end of July 2021
 - + the number of children with birthdates after September 2001, who were newly enrolled in March 2020 and disenrolled by the end of August 2021
 - 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

Section IIID: Cost Sharing

1.	Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year? If the state checks N/A for this question because no cost sharing is required, please skip to Section IIIE.
	a. Cost sharing is tracked by:
	☐ Enrollees (shoebox method)
	If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. [7500]
	 ☐ Health Plan(s) ☐ State ☐ Third Party Administrator ☐ N/A (No cost sharing required) ☐ Other, please explain. [7500]
2.	When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased? \Box Yes \Box No
3.	Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. [7500]
4.	Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. [500]
5.	Has your state undertaken any assessment of the effects of premiums/enrollmen fees on participation in CHIP?
	☐ Yes ☐ No
If s	so, what are the findings? [7500]
6.	Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

	☐ Yes ☐ No
If s	so, what are the findings? [7500]
7.	If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what are the findings? [7500]
Enter	any Narrative text related to Section IIID below. [7500]
	on IIIE: Employer sponsored insurance Program (including Premium tance)
1.	Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?
	☐ Yes, please answer questions below.☐ No, skip to Program Integrity subsection.
	Check all that apply and complete each question for each authority
	 □ Purchase of Family Coverage under the CHIP state plan (2105(c)(3)) □ Additional Premium Assistance Option under CHIP state plan (2105(c)(10)) □ Section 1115 Demonstration (Title XXI)
2.	Please indicate which adults your state covers with premium assistance. (Check all that apply.)
	□ Parents and Caretaker Relatives□ Pregnant Women
3.	Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how does your state coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) [7500]
4.	What benefit package does the ESI program use? [7500]

5.	Are there any minimum coverage requirements for the benefit package? Yes No
6.	Does the program provide wrap-around coverage for benefits? ☐ Yes ☐ No
7.	Are there limits on cost sharing for children in your state's ESI program? Yes No
8.	Are there any limits on cost sharing for adults in your state's ESI program? Yes No
9.	Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your state's premium assistance program? Yes No If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum [7500]?
10	Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).
	Number of adults ever-enrolled during the reporting period Number of children ever-enrolled during the reporting period
11	Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2020.
	Children Parents
12	During the reporting period, what has been the greatest challenge your state's ESI program has experienced? [7500]

- **13.** During the reporting period, what accomplishments have been achieved in your state's ESI program? [7500]
- **14.** What changes has your state made or planning to make to the ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**
- **15.** What do you estimate is the impact of your state's ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**
- **16.** Provide the average amount each entity pays towards coverage of the dependent child/parent under your state's ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If your state offers a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	То
Children	% of FPL [5]	% of FPL [5]
Parents	% of FPL [5]	% of FPL [5]

20. Is there a required period of uninsurance before enrolling in premium assistance? ☐ Yes ☐ No
If yes, what is the period of uninsurance? [500]
21. Does your state have a waiting list for its program? ☐ Yes ☐ No
22. Does your state cap enrollment for its program? ☐ Yes ☐ No
23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? [7500]
Enter any Narrative text related to Section IIIE below. [7500]
Section IIIF: Program Integrity COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS) 1. Does your state have a written plan that has safeguards and establishes methods and procedures for:
(1) prevention: ☐ Yes ☐ No

	(2) investigation:
	□ No(3) referral of cases of fraud and abuse?□ Yes□ No
	Please explain: [7500]
	Do managed health care plans with which your state's program contracts have written plans?
	☐ Yes ☐ No
	Please Explain: [500]
2.	For the reporting period, please report the
	Number of fair hearing appeals of eligibility denials
	Number of cases found in favor of beneficiary
3.	For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:
	Provider Credentialing
	Number of cases investigated
	Number of cases referred to appropriate law enforcement officials
	Provider Billing
	Number of cases investigated
	Number of cases referred to appropriate law enforcement officials
	Beneficiary Eligibility
	Number of cases investigated
	Number of cases referred to appropriate law enforcement officials
Ar	e these cases for:
	CHIP □
	Medicaid and CHIP Combined $\ \square$
4.	Does your state rely on contractors to perform the above functions?
	\square Yes, please answer question below.
	□No

Does your state contract with managed care health plans and/or a third party ontractor to provide this oversight?
□Yes
□ No
Please Explain: [500]

5. If your state relies on contractors to perform the above functions, how does your

state provide oversight of those contractors? Please explain: [7500]

Section IIIG: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Separate CHIP program but data are not reported in this section, please explain why. Explain: [7500]

1. Information on dental care for children in Separate CHIP programs. Include all delivery system types, e.g. MCO, PCCM, FFS.

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

a. Annual dental participation table for children enrolled in Separate CHIP programs (please include ONLY children receiving full CHIP benefits and supplemental benefits).

FFY	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Individuals Enrolled for at Least 90 Continuous Days¹							

¹ Total Individuals Enrolled for at Least 90 Continuous Days – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would <u>not</u> be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at

FFY	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Any Dental Services ² [7]							
Total Enrollees Receiving Preventive Dental Services ³ [7]							
Total Enrollees Receiving Dental Treatment Services ⁴ [7]							

the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

² **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

³ **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

⁴ **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth⁵? [7]

2	2. Does the state provide supplemental dental coverage?
	☐ Yes ☐ No
	If yes, how many children are enrolled? [7]
	What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section IIIG below. [7500]

Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children's Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality's CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

⁵ Receiving a Sealant on a Permanent Molar Tooth -- Enter the unduplicated number of children enrolled in a separate CHIP program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Poid your state Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement? ☐ Yes ☐ No
If Yes, How Did your state Report this Survey (select all that apply): ☐ Submitted raw data to AHRQ (CAHPS Database) ☐ Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS) ☐ Other. Explain:
If No, Explain Why: Select all that apply (Must select at least one):
□ Service not covered □ Population not covered □ Entire population not covered □ Partial population not covered Explain the partial population not covered: □ Data not available Explain why data not available □ Budget constraints □ Staff constraints □ Data inconsistencies/accuracy Please explain: □ Data source not easily accessible Select all that apply: □ Requires medical record review □ Requires data linkage which does not currently exist □ Other:
 ☐ Information not collected. Select all that apply: ☐ Not collected by provider (hospital/health plan) ☐ Other:
☐ Other: ☐ Small sample size (less than 30) Enter specific sample size: ☐ Other. Explain:
Definition of Population Included in the Survey Sample:
Definition of population included in the survey sample: ☐ Denominator includes CHIP (Title XXI) population only. ☐ Survey sample includes CHIP Medicaid Expansion population. ☐ Survey sample includes Separate CHIP population. ☐ Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

Which Version of the CAHPS® Survey was Used? ☐ CAHPS® 5.0. ☐ CAHPS® 5.0H. ☐ Other. Explain:
Which Supplemental Item Sets were Included in the Survey? ☐ No supplemental item sets were included ☐ CAHPS Item Set for Children with Chronic Conditions ☐ Other CAHPS Item Set. Explain:
Which Administrative Protocol was Used to Administer the Survey? ☐ NCQA HEDIS CAHPS 5.0H administrative protocol ☐ HRQ CAHPS administrative protocol ☐ Other administrative protocol. Explain:

Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan Pursuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.
All states with approved HSI program(s) described in the CHIP state plan should answer "Yes" to question 1, and complete questions 2 and 3. If the state has an approved HSI that is not currently operating using Title XXI funds, please check "Yes", to question 1, include the program name and description in the table for question 2, and indicate in the narrative portion of this section that the state is not currently implementing the program.
1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?
☐ Yes, please answer questions below.
\square No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served

by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state's CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low- income Children Served by HSI Program ⁶

3) Please define a metric for each of your state's HSI programs that is used to measure the program's impact on improving the health of low-income children. In the table below, please list the HSI program title in the first column, and include a metric used to measure that program's impact in the second column. In the third column, please provide the outcomes for metrics reported in the second column. States that are already reporting to CMS on such measures related to their HSI program(s) do not need to replicate that reporting here and may skip to Section IV.

HSI Program	Metric	Outcome

 $^{^{6}}$ The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

HSI Program	Metric	Outcome

Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your state's planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2020. If your state has a combination program, only submit one budget; programs do not need to be reported separately.)

COST OF APPROVED CHIP PLAN

Benefit Costs	2019	2020	2021
Insurance payments			
Managed Care			
Fee for Service			
Total Benefit Costs			
(Offsetting beneficiary cost sharing			

Benefit Costs	2019	2020	2021
payments)			
Net Benefit Costs	\$	\$	\$

State Share			
TOTAL COSTS OF APPROVED CHIP			
PLAN			

2.	What were the sources of non-federal funding used for state match during the
rep	orting period?

3	State appropriations
3	County/local funds
3	Employer contributions
3	Foundation grants
3	Private donations
3	Tobacco settlement
8	Other (specify) [500]

- 3. Did your state experience a short fall in CHIP funds this year? If so, what is your state's analysis for why there were not enough federal CHIP funds for the program? [1500]
- 4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If your state has CHIP

enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2019		\$
2020		\$
2021		\$

B. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2019		\$
2020		\$
2021		\$

Section V: Challenges and Accomplishments

Share any notable challenges and accomplishments your state has experienced over the past year.

- **1.** Tell us about your state's political and fiscal environment. How has the environment impacted your state's ability to provide healthcare to low-income, uninsured children?
- **2.** What's the greatest challenge your state's program has experienced in the past FFY (federal fiscal year)?
- **3.** What are some of the greatest accomplishments your state's program has experienced in the past FFY?
- **4.** Anything else to add about your state's challenges and accomplishments that wasn't already covered? [Max 7500 characters]
