According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #24). The time required to complete this information collection is estimated to average 40 per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

## Overview

States are required to demonstrate, and Centers for Medicare and Medicaid Services (CMS) has accepted a reasonable Payment Limit (UPL) based on a comparison of Medicaid (MCD) payments to equivalent Medicare (MCR) payment, Medicare principles, or customary/prevaling charges. CMS has developed guidance documents to help states meet requirements that can be downloaded from:

<http://www.medicaid.gov/medicaid-chip-program-information/by-topics/financing-and-reimbursement/accountab>

CMS is also introducing templates specific to each service and demonstration type, which have been developed to address requirements and increase comparability across states. This workbook contains templates for the Institutions for Medicaid demonstrations.

For each facility, please complete the attached IMD template.

States may apply different UPL formulas for state government owned or operated facilities, non-state government owned facilities and private facilities; however, the formula should be consistently applied to each provider within the category. A facility should only be included in one type of UPL demonstration. **In filling out these templates, data for each individual provider should be included on a separate row. Additionally, any supplemental payments made by the state should be reported separately for each provider and reported separately from regular Medicaid payments.** There may be instances where a variable is not applicable to the calculation. Please leave these variables blank.

## Information Requested:

CMS requests the following information for each IMD:

- **Demonstration Information** asks for basic information such as the state, demonstration rate year, service type (IMD type (cost, charges, payment)
- **Provider Identification** asks for provider identification numbers and names for each facility included, and the ownership type (private, non-state government owned, state-government owned)
- **Customary or Prevaling Charge Data** asks for base year data relevant to the calculation of the UPL
- **Medicaid Payment and Utilization Data for Base Period** asks for Medicaid utilization data used to calculate the UPL and payment data that is used to determine whether or not the state has made payments in excess of the UPL
- **Medicaid Payments Inflated to Demonstration Year** asks for inflationary or volume adjustment data that are made to account for changes in the Medicaid program that have occurred between the base and current rate year periods
- **UPL Calculation & Inflation to Demonstration Year** instructs the state to calculate the UPL and asks for inflationary or volume adjustment data to appropriately trend UPL data from the base to the current rate year
- **Adjustments to UPL** asks for other adjustments to the UPL that are not included in the UPL calculation
- **Calculation of UPL Gap** instructs the state to calculate the UPL gap for each facility by subtracting (adjusted/inflated) UPL from the calculated UPL

**Payment and Cost Data:** Enter to the nearest dollar (i.e. \$1,234,567.89 should be entered as \$1,234,568)

**Proportion and Percentage Data:** Enter with no more than four decimal places (i.e., 0.12345 should be entered as 0.1234)

Detailed descriptions for each variable are provided in the next sheet labeled "Data Dictionary." A hypothetical IMD is entered for each template to provide guidance regarding the data requested for each column.
