

Maternal and Infant Health Initiative Developmental Measure: Use of Contraceptive Methods by Postpartum Women

Medicaid Adult Core Quality Measure - OR - 2015

Federal Fiscal Year

2015 ▼

Are you reporting on this measure? *

[View Implementation Guide](#)

- Yes
- No

Status of Data Reported

+/-

What is the status of the data being reported? *

- Provisional
- Final
- Same data as reported in a previous year's annual report

Specify the year of annual report in which data previously reported *

2014 ▼

Measurement Specification

+/-

Rate 1: Most effective or moderately effective contraception

- Office of Population Affairs/Centers for Disease Control and Prevention
- Other

Date Range

+/-

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

Definition of Population Included in the Measure

+/-

Definition of Denominator

Select all that apply (Must select at least one)

Denominator includes Medicaid population

Denominator includes CHIP population (e.g. pregnant women.)

Denominator includes Medicare and Medicaid Dually-Eligible population

Other

Specify *

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure? *

- Yes
- No

Explain which populations are excluded and why *

Specify Total Measure Eligible Population *

Which delivery systems are represented in the Denominator?

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

Fee-for-Service

Percentage of total state FFS population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Primary Care Case Management (PCCM)

Percentage of total state PCCM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Number of Health Plans *

Percentage of total state MCO/PIHP population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Integrated Care Models (ICM)

Percentage of total state ICM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Other

Describe *

Percentage of total other population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

If applicable, list the number of Health Plans represented *

Other Performance Measure

+/-

Rate 1: Most effective or moderately effective contraception

Please describe the other methodology used *

Would you like to validate the core measure data at this time?

Yes No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.
