14	Are systems protected by uninterruptible power supplies (UPS) to prevent damage from lightning and power outages?	This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring systems are protected by uninterruptible power supplies to prevent damage from lightning and power outages.
15	To protect from environmental threats, such as flood and fires, what is the backup and restoration policy and procedure for trust or financial transaction-related data? Please upload backup and restoration policy.	This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring there is a backup and restoration policy and procedure to protect from environmental threats such as flood and fires.
16	What level of backups are done daily, weekly, monthly?	This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring backups are performed daily, weekly, and monthly.
17	Is there an off-site emergency backup storage location?	This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring there is an off-site emergency backup storage location.
17a	If yes, where are the backups stored? Are they stored offsite at an emergency back-up location (i.e. in the cloud or off- site)?	This question is asked to determine where the backups are stored.
18	How often is backup restoration tested?	This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, in regards to IT by ensuring that backup restoration is tested on a regular basis.
20	Does the system use any wireless technology (WiFi or Bluetooth)?	This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement.
20a	If yes, are there policies and procedures covering wireless security? Please upload the wireless security procedures.	This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement.
20c	If wireless is used, what security configuration guides are followed?	This question is asked to determine and assess whether the compacting tribe uses wireless technology and if so, to ensure that proper internal controls are in place to preserve and protect fiduciary trust records, as required by the funding agreement.

So that we can...

This question is asked to determine and assess that the compacting tribe ensures that all payments are made to ONRR, unless otherwise specifically stated in the lease as required by 25 CFR §211.40 and §212.40.

This question is asked to determine and assess where payments are made when the tribe does not ensure all payments are made to ONRR and to determine if this is acceptable.

Determine if the Tribe monitors and reconciles production data from various systems to ensure accuracy.

To ensure the rules for restoration, evironmental laws and proper well closure procedures are followed, complied with, and coordinated with BLM.

To determine which Oil/Gas closure requirements and laws the Tribe, BIA or BLM has not complied with in order to develop a corrective action.

So that we can...

This question is asked to determine if the compacting tribe has access to Protrac This will assist the auditor in determining how much information the compacting tribe has access to and the capabilities and responsibilities they have in Protrac. Tribes who have access to Protrac track probates more accurately and efficiently.

This question is asked to determine if the tribe receives a list of probates in process from the BIA if they do not have access to Protrac. Tribes who have access to Protrac reports can track probates more accurately and efficiently than those who do not have access.

This question is asked to determine if the tribes that have access to Protrac use reports for case tracking and management purposes as an internal control.

This question is asked to determine and assess if the compacting tribe maintains fiduciary trust records in accordance with approved Department records retention procedures under the Federal Records Act as required by 25 CFR §15.503.

This question is asked to determine and assess the reason the tribe does not maintain fiduciary trust records in accordance with 25 CFR §15.503.

This question is asked to determine how many probates in process the tribe is working on and to assist in the calculation of backlogged probate cases, if applicable.

This question is asked to determine and assess if the compacting tribe immediately notifies the BIA or OST when either an official or unofficial death notification is received as required by 25 CFR §§15.101, 15.103.

This question is asked to determine and assess if the compacting tribe contacts potential heirs for required documents, family history, etc., upon the Notification of Death as required by 25 CFR §§15.104, 15.105.

This question is asked to determine and assess the amount of probate cases submitted to OHA during the evaluation period. This assists the auditor in calculating the average number of cases submitted to OHA used in calculating a backlog, if applicable.

So that we can...

This question is asked to determine and assess if the compacting tribe advises the mineral owner of the results of a bidding when the highest bid is below fair market value and obtains consent to approve a lease as required by 25 CFR §211.20(c) and 25 CFR §212.20(b)(2).

This question is asked to determine and assess the reason the tribe does not advise the mineral owner or obtain consent to approve a lease. This assists the auditor to determine if a finding should be noted or if there was an acceptable explanation.

This question is asked to determine and assess if the compacting tribe ensures that production bonuses and rental fees are collected by the Superintendent or Area Director prior to production as required by 25 CFR \$§211.40 and 212.40.

This question is asked to determine and assess the reason the compacting tribe did not ensure production bonuses and rental fees were not collected by the Superintendent or Area Director prior to production. This will assist the auditor to determine if a finding should be noted or if there was an acceptable explanation.

COUNTS

So that we can...

This question is asked to determine and assess the internal controls of the compacting tribe to ensure that fiduciary trust records are preserved and protected, as required by the funding agreement, by ensuring only authorized users have access to them.

This question is asked to determine and assess the workload of the compacting tribe for instances of backlog. A tribe with a high volume of Restricted Accounts may indicate a backlog depending on resources.

This question is asked to determine and assess that the compacting tribe ensures that all distribution plans are approved by the BIA as required by 25 CFR §115.419.

This question is asked to determine and assess that the compacting tribe ensures that a Kennerly Letter is provided to the guardian/parents or representative when an account is restricted as required by 25 CFR §115.602.

This question is asked to determine and assess that the compacting tribe ensures that a copy of the distribution plan is given to the guardian and/or parents as required by 25 CFR §115.424.

This question is asked to determine and assess that the compacting tribe ensures that receipts for expenditures are collected as required by 25 CFR §115.417.

This question is asked to determine and assess that the compacting tribe ensures that annual reviews of distribution plans are conducted by a BIA Social Worker with a Master's of Social Work as required by 25 CFR §115.427.

This question is asked to determine and assess if the compacting tribe has a resolution specifying an age other than 18 years of age for access to specific trust funds. A resolution may allow a minor (under 18 years old) to access their trust funds sooner than 18 years old or later.

MANAGEMENT

So that we can...

This question is asked to determine and assess whether the compacting tribe has the authority to approve trust transactions without or on behalf of the BIA. If the tribe has approval authority, the auditor will not have to ensure transactions are not approved by the BIA.

This question is asked to determine the number of tribal trust acres the compacting tribe owns. This information is used to help the auditor determine if the tribe has tribal trust acres. This helps determine the risk or likelihood a trust transaction is performed for tribal trust. For example, if the tribe has a high amount of trust acres, the more likely the tribe has trust transactions.

This question is asked to determine the number of individual trust acres the compacting tribe is responsible for managing. This information is used to help the auditor determine if the tribe manages individual trust acres and helps determine the risk or likelihood a trust transaction is performed for Indian trust transactions.

This question is asked to determine the number of total reservation acreage under the jurisdiction of the tribe to determine the risk or likelihood a trust transaction is performed during the evaluation period.

This question is asked to determine the number of tribal members to determine the likelihood a trust transaction is performed during the evaluation period.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the report.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the corrective action plan.

This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. This question is asked to determine and assess if any ongoing investigations or investigations that transpired during the evaluation affect trust assets. If so, the auditor would determine if these investigations involving trust assets would need to be evaluated and included in the evaluation by reviewing the corrective action plan.

This question is asked to determine and assess if the tribe inquires with the Lockbox Coordinator to determine if any funds exist in the Suspense Deposit Account that are due to be disbursed to the tribe or individual land owners. If the Lockbox Coordinator is not contacted on a regular basis, the tribe or individual landowners may not be paid timely.

This question is asked to determine and assess the internal controls of the compacting tribe to ensure that a policy is in place to address potential conflicts of interest as required by 25 CFR §1000.355(d)(7)(iii)

This question is asked to determine and assess if the compacting tribe ensures that 2 copies of the audited financial statements and single audit report are submitted to OIEA as required by the funding agreement.

This question is asked to determine the compacting tribe's programs and staff to help the auditor determine points of contact for the evaluation and understand the organization's hierarchy and structure.

6b	If no, please explain.

WILDLAND FIRE

So that we can...

This question is asked to determine and assess if the compacting tribe has agreements or MOUs with external parties who provide WLF fire suppression for the tribe. This assists the auditor in determining if the tribe has adequate WLF suppression support and coverage to protect trust lands and assets.

This question is asked to determine and assess how trust lands and assets are protected if there are no agreements or MOUs with external parties for WLF suppression.

This question is asked to determine and assess if the the compacting tribe to ensure that the tribe has a Fire Management Plan that outlines the responsibilities and procedures in regards to fire management of trust assets.

This question is asked to determine and assess the reason the compacting tribe does not have a Fire Management Plan. This will assist the auditor in determining if the tribe has an adequate explanation or if this will be noted as a finding in the evaluation.

This question is asked to determine and assess if the compacting tribe ensures that all firefighters have their certifications updated.

This question is asked to determine and assess if the compacting tribe performs prescribed burns in accordance with a Prescribed Burn Plan.

This question is asked to determine and assess to determine the reason the tribe does not have a Prescribed Burn Plan if they perform prescribed burns.
