Instructions

Use of Form

Use FS Form 1832 to certify assignments of U. S. registered definitive securities. It is appropriately used only at the discretion of the Bureau of the Fiscal Service in one of the following circumstances:

- To correct a defective assignment already made on the back of a registered definitive security;
- To accommodate owners required to sign a large number of registered definitive securities; or
- To obtain the assignment of two or more geographically separated assignors.

Completion of Form – Print clearly in ink or type all information requested.

Item 1. Identification of Securities

Furnish the title of the securities and all identifying information shown on the face of the securities. The title of the securities includes the interest rate, type of security (note, bond, etc.), letter series if a note, call year if applicable, and maturity year. Show the CUSIP and furnish the face amount, serial number, and inscription of each security. If additional space is needed to identify other securities with the same inscription, attach another sheet and indicate this by marking the appropriate box in Item 3.

Item 2. Action Requested

Investors may use FS Form 1832 for the transactions listed in Items 2a through 2d. Check the appropriate box for the transaction desired. Only one transaction may be requested; a separate request must be completed for each transaction.

- a. Convert the definitive (paper) registered securities to an account in TreasuryDirect[®]. Furnish the TreasuryDirect account number and registration. There is no charge for conversion.
- b. Convert the definitive (paper) registered securities to a book-entry account with a commercial financial institution. Furnish the name of the institution, the nine-digit ABA Routing Number which identifies the institution, account information, and any special instructions for delivery.
- c. Allow matured or called definitive (paper) registered securities to be paid to another party. The payee must execute IRS Form W-9 and submit it with the securities.
- d. Request any other authorized transaction. Provide the type of transaction and any other appropriate information.

Item 3. Authorization and Certification

You must sign the form in the presence of an authorized certifying individual. You must also check the appropriate box to show whether additional securities are described on an attached sheet. If another sheet is attached for identification of other securities, you must initial and date that sheet.

The certifying individual must complete the certification section. Authorized certifying officers are available at financial institutions, including credit unions, in the United States. A notary public is not an acceptable certifying officer. Additional forms may be used, if necessary, to accommodate more than two owners. If joint owners of a security are in different locations, each person may complete a separate FS Form 1832 in the presence of an authorized certifying individual.
