

PRIVACY THRESHOLD ANALYSIS (PTA)

This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance
The Privacy Office
U.S. Department of Homeland Security
Washington, DC 20528
Tel: 202-343-1717

PIA@hq.dhs.gov

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

SPECIFIC IC/Forms PTA QUESTIONS

1. Purpose of the Information Collection or Form

- a. Describe the purpose of the information collection or form. *Please provide a general description of the project and its purpose, including how it supports the DHS mission, in a way a non-technical person could understand (you may use information from the Supporting Statement).*
If this is an updated PTA, please specifically describe what changes or upgrades are triggering the update to this PTA.

This PTA is being updated to document the form extension. The purpose of the Form I-907 is to request Premium Processing service for certain petitions or applications which are currently designated as eligible for premium processing by USCIS.

Currently, USCIS designated certain employment based immigrant and nonimmigrant visa petitions as eligible for the Premium Processing service. Petitioners may use Form I-907 to request expedited processing of certain employment-based visa categories. By filing the Form I-907 with the appropriate fee, the petitioner requests that his or her visa petition is processed within 15 calendar days. The processing time is met if USCIS issues an approval, a request for evidence, notice of intent to deny, or a denial notice within 15 calendar days of receipt or if the case is referred for investigation of suspected fraud or misrepresentation. Once USCIS receives a response to the request for evidence or notice of intent to deny, USCIS will guarantee 15-calendar-day processing from the date the response was received.

The Premium Processing is available for the *Form I-129, Petition for a Nonimmigrant Worker*, and *Form I-140, Immigrant Petition for Alien Worker*. Not all visa classifications within these forms are eligible for Premium Processing Service. For instance, the R-1 classification is only eligible after a successful on-site inspection at the location of employment.

Petitioner, applicant, or the attorney or accredited representative, may request Premium Processing service with the eligible petition or application, or after the eligible petition/application was already filed but before a final decision has been rendered. By filling out Form I-907, the petitioner, applicant, attorney or representative provides information about him or herself, the petitioning business (if not the filer of Form I-907) and the beneficiary.

Service Center Operations (SCOPS) is the responsible Program Office. SCOPS oversees the operations of the four regional service centers which process applications for immigration benefits based on the applicant’s employment in the United States.

The form I-907 relates to the USCIS mission by improving the efficiency and customer service of its delivery of immigration benefits to the public.

The previous form I-907 PTA, completed in July 2014, has expired. USCIS is resubmitting this PTA as part of the PRA renewal process. No substantive changes have been made to the form since the last PTA.

Relevant IT System

The form I-907 is processed in the Computer Linked Application Management System (CLAIMS 3) and stored in the subjects A-file.

- b. List the DHS (or component) authorities to collect, store, and use this information. *If this information will be stored and used by a specific DHS component, list the component-specific authorities.*

8 U.S.C. sections 1103 and 1356 authorizes USCIS to collect the information and the associated evidence for this benefit application.

DHS Privacy Office Comments: <i>Please describe rationale for privacy compliance determination above.</i>	
<p>USCIS is submitting this PTA to renew expiring compliance documentation for Form I-907. The purpose of the Form I-907 is to request Premium Processing service for certain petitions which are currently designated as eligible for premium processing by USCIS. There were no substantive changes to the form since the previous PTA adjudication.</p> <p>The DHS Privacy Office (PRIV) finds that Form I-907 is a privacy sensitive information collection that requires PIA coverage because it collects PII from members of the public. PRIV concludes that DHS/USCIS/PIA-061 Benefit Intake Process covers the collection and processing of the initial Form I-907 while DHS/USCIS/PIA-016(a) CLAIMS 3 covers the form's entry, use, and storage in that IT system. DHS/USCIS/PIA-003(b) IDDMP is necessary to provide coverage for the scanning of paper Form I-907 for entry into EDMS.</p> <p>PRIV agrees with USCIS that Form I-907 requires SORN coverage because PII it collects is stored in a system that retrieves information by a unique identifier. PRIV finds that the DHS/USCIS/ICE/CBP-001 Alien File SORN, which covers the collection, use, and maintenance of information from applicants as they move through the immigration process; and DHS/USCIS BIS SORN, which covers all information collected in the immigration benefit adjudication process not contained in the A-File, provides adequate coverage for Form I-907.</p> <p>PRIV finds that a Privacy Notice is required because form I-907 collects information from non-US Persons that is entered into a system of records. USCIS must update its privacy act statement to a privacy notice and eliminate reference to DHS-USCIS-015 Electronic Immigration System-2 in its routine uses. USCIS must also delete reference to 8 U.S.C. sections 1158, 1225, and 1228 and Title II of Public Law 105-100 as authorities of collection and replace it with 286(u) of the Immigration and Nationality Act (8 U.S.C. section 1356).</p>
