

## PRIVACY THRESHOLD ANALYSIS (PTA)

**This form serves as the official determination by the DHS Privacy Office to identify the privacy compliance requirements for all Departmental uses of personally identifiable information (PII).**

A Privacy Threshold Analysis (PTA) serves as the document used to identify information technology (IT) systems, information collections/forms, technologies, rulemakings, programs, information sharing arrangements, or pilot projects that involve PII and other activities that otherwise impact the privacy of individuals as determined by the Chief Privacy Officer, pursuant to Section 222 of the Homeland Security Act, and to assess whether there is a need for additional Privacy Compliance Documentation. A PTA includes a general description of the IT system, information collection, form, technology, rulemaking, program, pilot project, information sharing arrangement, or other Department activity and describes what PII is collected (and from whom) and how that information is used and managed.

Please complete the attached Privacy Threshold Analysis and submit it to your component Privacy Office. After review by your component Privacy Officer the PTA is sent to the Department's Senior Director for Privacy Compliance for action. If you do not have a component Privacy Office, please send the PTA to the DHS Privacy Office:

Senior Director, Privacy Compliance  
The Privacy Office  
U.S. Department of Homeland Security  
Washington, DC 20528  
Tel: 202-343-1717

[PIA@hq.dhs.gov](mailto:PIA@hq.dhs.gov)

Upon receipt from your component Privacy Office, the DHS Privacy Office will review this form and assess whether any privacy compliance documentation is required. If compliance documentation is required – such as Privacy Impact Assessment (PIA), System of Records Notice (SORN), Privacy Act Statement, or Computer Matching Agreement (CMA) – the DHS Privacy Office or component Privacy Office will send you a copy of the relevant compliance template to complete and return.

### *Specialized Template for Information Collections (IC) and Forms*

The Forms-PTA is a specialized template for Information Collections and Forms. This specialized PTA must accompany all Information Collections submitted as part of the Paperwork Reduction Act process (any instrument for collection (form, survey, questionnaire, etc.) from ten or more members of the public). Components may use this PTA to assess internal, component-specific forms as well.

## SPECIFIC IC/Forms PTA QUESTIONS

### 1. Purpose of the Information Collection or Form

The purpose of the information collection is to ensure that the mariner piloting a towing vessel has adequate equipment, charts, maps, and other publications. For inspected towing vessels, a muster list and emergency instructions provide effective plans and references for crew to follow in an emergency situation. The information is not submitted to the Coast Guard rather it is maintained on the vessel by the vessel operator.

There is no form associated with this collection. The information contains no PII.

The authority for this collection is 33 U.S. Code 1223 and 1231, 46 U.S. Code 3306 and 3703.

<b>DHS Privacy Office Comments:</b>	
<b><i>Please describe rationale for privacy compliance determination above.</i></b>	
The DHS Privacy Office finds that the Navigation Safety Information and Emergency Instructions for Certain Towing Vessels (1625-0082) is a non privacy-sensitive information collection. Information is collected under these instructions to ensure that the mariner piloting a towing vessel possess adequate equipment, charts, maps, and other publications, as well as a muster list and emergency instructions for inspected towing vessels. There is no form associated with this collection, and none of the information is submitted to the Coast Guard (it is maintained on the vessel). No PII is associated with this collection, therefore no PIA, SORN, or Privacy Act Statement are required.
