Paperwork Reduction Act Notice

Section 5(b) of the Railroad Unemployment Insurance Act (RUIA) requires the RRB to provide notice of claims for benefits to base-year employers. Employer responses to these notices are voluntary. Failure to provide information about questionable claims for benefits, however, may affect the amount that an employer is charged in benefits and the employer's tax contribution rate under the RUIA.

We estimate it takes an average of 2 minutes per response to complete, including the time needed for reviewing the instructions, getting the needed data, and reviewing your entries. Federal agencies may not conduct or sponsor, and respondents are not required to respond to, a collection of information unless it displays a valid OMB number. If you wish, send comments regarding the accuracy of our estimate or any other aspect of the ID-4K process, including suggestions for reducing the completion time, to: Chief of Information Resources Management, Railroad Retirement Board, 844 N. Rush Street, Chicago, IL 60611-2092.
