

Appendix 4. Burden Narrative

Reporting Requirements--Part 272 Reporting Requirements for Participating State Agencies

272.2(d)(2)(D), *Planning Documents, SNAP-Ed Activities*. Developers of nutrition education and obesity prevention interventions may submit an Intervention Submission Form (FNS-886) to have their interventions reviewed by intervention reviewers using the Scoring Tool (FNS-885) to determine if their interventions are sufficiently evidence-based for entry into the Supplemental Nutrition Assistance Program Education (SNAP-Ed) *SNAP-Ed Strategies and Interventions: An Obesity Prevention Toolkit for States*(Toolkit). We estimate that, on average, 59 respondents will use the Intervention Submission Form (FNS-886) annually, for a total of 59 responses and 295 burden hours. We estimate that, on average, 68 respondents will use the Scoring Tool (FNS-885), for a total of 101 responses and 376 burden hours. The total annual burden for this data collection is estimated at 668 hours per year.
