Questionnaire Content Document for the Enumerator Instrument

2018 Census Test NRFU/UEF Instrument Specification
Back Section

Universal Functionality:
- Census Day will be displayed as April 1, 2018 for the purpose of the 2018 Census Test.

Question wording key

Black text = Read by interviewer

Bold black = Roster names and you/your references

Blue text = Optional text for interviewer to read

Red text = Interviewer instruction

Help text

The Help Icon will display a message "Help is not available for this question." when there is no specific help text for a question. Screens are listed in 2016 CT US 16-84.

Off-Path Data

Any roster attributes (persons, demographics, flags, etc.) should be removed from the roster once they are deemed off-path. See US 17-86.

NRFU WHITE LIST

Text boxes in the NRFU instrument should only accept the following characters:
a-z A-Z ñáéíóúüÑÁÉÍÓÚÜ 0-9 [ ] { } ~ % $? ¿ # @ ! ¡ - _ ( ) / : ; "' . , * + =

Description of Global Options across all screens:

- DK/REF
  - The DK/REF option for screens that have it available exhibit a global behavior and is not readily available on screen as an option. Once DK/REF is available as a response option, selecting either DK (if available) or REF will default the original response options to an unselected or null value. Similarly, with the DK/REF options available on a screen, selecting any of the original options will set the DK/REF response to a null value.
- Exit Survey
  - Upon pressing the Exit Survey icon, a pop-up (not a hard/soft edit) appears asking "Are you sure you want to exit the interview?" with Yes and No response options in the form of buttons. Pressing "Yes" will take the enumerator through one or two additional screens before reaching CASE NOTES, and then back to ACTIVE CASELIST.

Automatic Synchronization Events: (See US 18-643)

During these automatic synchronizations throughtout a day, the system will send any case information stored locally on the instrument without deleting anything from the caselists, as well as receive any necessary information from OCS. The system will automatically attempt a sync at the following events:

- The enumerator logs into the instrument
- The enumerator logs out of the instrument
- The enumerator swipes past the CASE NOTES screen
- Two hours have passed since the last sync attempt
- The instrument enters a connected state after being in a disconnected state for at least 10 minutes

---

The fill for <PARTIAL ADDRESS> will include any address information detailed below that is provided in the original Census address, and   should be in the following format depending on the address type:

- For a Street Address or PR General Address (with Address Number and Street Name {and Apt/Unit, if applicable}), the address fill is Address Number and Street Name {and Apt/Unit, if applicable} in all caps (examples: "123 VACATION WAY" or "123 VACATION WAY APT 101").
- For an address that has a physical description, the address fill is the physical description in all caps (example: "THE APARTMENT OVER THE POST OFFICE ON COUNTY ROAD 5")
- For a P.O. Box Number, the address fill is the term "P.O. BOX" (in all caps) followed by the P.O. Box Number (example: "P.O. BOX 123").
- For a Rural Route address (with Rural Route Descriptor, Rural Route number, and RR Box ID number), the address fill is the Rural Route Descriptor and Rural Route number, followed by the term "BOX" (in all caps) and the RR Box ID number (example: "RR 45 BOX 76").
- For a PR Urbanización Address (with Urbanización Name, Address Number and Street Name {and Apt/Unit, if applicable}), the address fill is the Urbanización Name, Address Number and Street Name {and Apt/Unit, if applicable} in all caps (examples: "URB SAN JUAN 123 VACATION WAY" or "URB SAN JUAN 123 VACATION WAY APT 101").
- For a PR Area Name Address (with Area Name 1 {and Area Name 2, if applicable}, Address Number and Street Name {and Apt/Unit, if applicable}), the address fill is the Area Name 1 {and Area Name 2, if applicable}, Address Number and Street Name {and Apt/Unit, if applicable} in all caps (examples: "BO SAN JUAN 123 VACATION WAY" or "BO SAN JUAN 123 VACATION WAY APT 101").
- For a PR Apartment Complex Address (with Name of Condominium or Residencial, Address Number, Street Name and Apt/Unit), the address fill is the Name of Condominium or Residencial, Address Number, Street Name and Apt/Unit in all caps (examples: "COND SAN JUAN 123 VACATION WAY APT 101" or "RES SAN JUAN 123 VACATION WAY APT 101").

Question Wording choice logic:

These are the variables and logic used to correctly choose what wording should be used for that screen for any given interview. The logic below correctly chooses between the question wording of an "In person housing unit respondent", "Telephone housing unit respondent", "In person proxy respondent", and "Telephone proxy respondent".

- If ATTACTUAL=PV then the "In Person" question wording should be displayed for any screens following the ATTEMPT TYPE screen with alternate question wording indicated in the Questionnaire Content Document.
- If ATTACTUAL=T then the "Telephone" question wording should be displayed for any screens following the ATTEMPT TYPE screen with alternate question wording indicated in the Questionnaire Content Document.
- If RESP_TYPE=HH then the "Housing Unit Respondent" question wording should be displayed for any screens following the ADDRESS screen with alternate question wording indicated in the Questionnaire Content Document.
- If RESP_TYPE=proxy, then the "Proxy Respondent" question wording should be displayed for any screens following the ADDRESS screen with alternate question wording indicated in the Questionnaire Content Document.

Question wording for in person housing unit respondent	Including yourself, how many people were living or staying at <PARTIALADDRESS> on <CENSUSDAY>? *Enter the number of people, or select the unit status.*
Response options	Number of people: <2-digit numerical text box, with a valid values range of 1-99>. Unit status: (radio buttons) • Occupied • Vacant • Not a housing unit
Branching/Skip Patterns	For NRFU or UEF: INMOVER DONE (if ADDRESS=No) If WHO = NO or REF go to GOOD BYE. Else, go to NO COMPLETE. If Exit Survey is selected, go to NO COMPLETE If UNABLE TO ATTEMPT= "Contact made, unable to interview" branch to NO COMPLETE
Data needed	1. PARTIALADDRESS

	2. CENSUSDAY
Help text	We need to count people where they live and sleep most of the time. Enter the number of people that were living or staying at the address on <CENSUSDAY>. If the number of people is unknown, or the unit is unoccupied, select the other status that is most applicable. **What is a Housing Unit? -** A housing unit may be a house, an apartment, a mobile home, a group of rooms or a single room that can be occupied as separate living quarters (which have separate and direct access from outside the building or through a common hall). Boats, recreational vehicles (RVs), vans, tents, railroad cars, and the like are included only if they are occupied as someone's current place of residence. Excluded from the housing inventory are quarters being used entirely for nonresidential purposes, such as a store or an office, or quarters used for the storage of business supplies or inventory, machinery, or agricultural products. **Occupied -** A housing unit is classified as occupied if it is the usual place of residence of the person or group of people living in it on census day, even if the usual occupants are temporarily away on vacation or a business trip. The living quarters occupied by staff personnel within any group quarters are separate housing units if they satisfy the housing unit criteria of separateness and direct access; otherwise, they are considered group quarters (not a housing unit). Occupied rooms or suites of rooms in hotels, motels, and similar places are classified as housing units only when occupied by people who consider the hotel as their usual place of residence or have no usual home elsewhere. **Vacant -** A housing unit is vacant if no one is living in it on census day. Units occupied on census day entirely by persons who have a usual home elsewhere are classified as "vacant." Usual home elsewhere is the place where a person lives and sleeps most of the time. New units not yet occupied are classified as vacant housing units if construction has reached a point where all exterior windows and doors are installed and final usable floors are in place. Also, vacant units are excluded from the housing inventory if they have a sign saying that they are condemned or that they will be demolished.
Soft Edit	N/A
Hard Edit	For nonresponse: Please provide an answer to the question. If "Unit status" is Occupied, and there is no response for "Number of people": Please enter the number of people. If "Number of people" is DK/REF and there is no response for "Unit status": Please select the unit status. If 0 (zero) or any non-numeric characters are entered for "Number of people": For the number of people, you can only enter a number between 1

	and 99.
Special instructions	If 1-99 is entered for "Number of People," automatically select Occupied for the "Unit status." If 1-99 is already entered for "Number of people" and then (Vacant, Not a housing unit, or DK/REF) is selected for "Unit status," automatically reset "Number of people" text box to blank. <u>When swiping to next screen</u>: If Vacant, then set EXIT_STATUS=vacant and EXIT_POP=0. If Not a housing unit, then set EXIT_STATUS=nothu and EXIT_POP=0. If Occupied, then set EXIT_STATUS=occupied. If 1-99 is entered for "Number of people," then set EXIT_STATUS=occupied and EXIT_POP=number entered for "Number of people."
DK/REF options	Available separately for both "Number of people" and "Unit status"
Exit Survey option	Available

If nonresponse to just (Municipio + State or ZIP), prompt user: Please provide a Municipio and State or ZIP code."

Special instructions	• If Puerto Rico, \<State\> should be auto-filled with "Puerto Rico"
	 • If an Address Type is selected and information is entered for that Address Type, but then the enumerator selects a different Address Type, the information should persist and auto-fill into the common fields for the new Address Type. If the enumerator is to then select the first Address Type again, the information entered originally would still be there. For example: "Street Address" is selected and the following information is entered
	     o Address Number: 123
	     o Street Name: Main St
	     o Apt/Unit: 4
	     o City: Suitland
	     o State: Maryland
	     o ZIP: 12345

	But then the Address Type "P.O. Box" is selected, "City", "State", and "ZIP" will already be pre-filled with the same information, but the "P.O. Box" field will be blank. If the enumerator is to then select the Address Type "Street Address" again, the original information should still be there. This feature should include all three Address Types.

• Immediately when branching from the NEW CASE ADDRESS screen, a temporary unique case ID will be generated according to the business rules for case IDs and the NEWCASE flag will be set to 1. After CASE NOTES, if NEWCASE=1, the address will be verified to ensure it is not a duplicate case in the NRFU Universe. If a case is determined not a duplicate, it will be added to the NRFU universe.
• A unique case-ID will be generated for each in-field add created after NEW CASE ADDRESS, in order to identify each case.
• Relevant output data is sent.

When "Next" is selected, a popup window will display with the following information:

Help text	**Demolished** – Mark this category for vacant units which are to be demolished if there is positive evidence such as a sign, notice, or mark on the house or in the block, that the unit is to be demolished but on which demolition has not yet been started. **Burned out** – if the unit is burned out and uninhabitable. **Nonresidential** – if no one lives there and this building is not used as living quarters (for example, as a business or commercial facility). **Uninhabitable (open to elements, condemned, under construction** – if the housing unit is open to elements, condemned, or under construction **Empty mobile home/trailer site** – if in a Mobile Home Park and the site was empty on Census Day. **Duplicate** – if the unit occurs twice in the case list or if the unit has two addresses associated with it. **Multiunit, missing unit designation** – if upon enumeration, you discover that the unit has two or more units within it that have unique addresses. An example of a missing unit designation would be a house (123 Main

	Ave) that is now divided into two apartments (123 Main Ave APT A and 123 Main Ave APT B). This case would then be deleted upon selecting this category, and you should add two new cases in order to enumerate the two units separately using their respective addresses. **Restricted access** – if the unit is not reachable due to scenarios such as locked gates or gatekeepers preventing access. **Group quarters** – if the unit is a group quarters. A group quarters is a place where people live or stay in a group living arrangement that is owned or managed by an entity or organization providing housing and/or services for the residents. Some examples of group quarters include college residence halls, nursing homes, group homes, halfway houses, workers' dormitories, and shelters. Any living quarters that is occupied by staff members within a group quarters is also considered to be a group quarters, unless it has a separate address and satisfies the housing unit criteria of separateness and direct access. **Other** – if the unit is not livable and does not fall into any the other response .

		For example:
		An enumerator selects 'Begin Interview' for 100 Main St. The enumerator then selects ATTEMPT TYPE=Personal visit and RESP LOCATION=Unable to attempt and UNABLE TO ATTEMPT=Demolished. After swiping past CASE NOTES, this attempt will receive the EVENTCODE=5.062 (Delete – needs verification) and thus the STATUSCODE=A (Attempted). Now, 100 Main St. is Proxy Eligible, so the next screen the Enumerator branches to is the PROXY ATTEMPT screen. If the Enumerator cannot find a proxy, the Enumerator will select 'No' on this screen. The enumerator will be branched back to CASE NOTES. Now, after swiping past CASE NOTES for the second time, this attempt will receive a second EVENTCODE=3.020 (Not attempted), meaning, there are now two eventcodes associated with 100 Main St. This second EVENTCODE does not change the STATUSCODE. This second EVENTCODE does not increment the attempt counters.
		
		In general, unless the case is "Completed" by proxy, the most recent EVENTCODE at the census address is what sets the STATUSCODE.
		}
