

Attachment 19. Example Data Analysis Table Shells

Table X. Total number of staff members reported referring students for services and the total number of students staff reported referring for services.

	Percent of staff members who reported referring students for services		Total number of students staff reported referring for services
	%	SD	
Broward County Public Schools			
Los Angeles USD			
San Francisco USD			
All Districts Combined			

Table X. Results of a t-test to Examine Changes in Staff Members' Perceptions of School Climate^a from Baseline to Follow-Up

	Baseline School Climate Perception Score		Follow-up School Climate Perception Score		<i>t</i>	<i>df</i>	<i>p</i>
	<i>M</i>	<i>SD</i>	<i>M</i>	<i>SD</i>			
Broward County Public Schools							
Los Angeles USD							
San Francisco USD							
All Districts Combined							

^a Higher values for school climate perception score indicate a more favorable view of the school climate.

Table X. Results of a Logistic Regression to Identify Predictors of Staff Making Referrals for Students to Receive Services

Predictors	Odds Ratio	95% Confidence Interval		<i>p</i>
		Lower Limit	Upper Limit	
School district				
Staff role				
Length of time in current staff role				
Perception of school climate				
Awareness of community service providers				
Receipt of professional development
