CLICK FOR DESCRIPTION OF BENEFIT

Does your plan offer a Medicare Prescription drug (Part D) benefit?

Select the type of drug benefit:

- Defined Standard Benefit
- Actuarially Equivalent Standard
- Basic Alternative
- Enhanced Alternative

Describe the components of your network (select all that apply):

- Standard Retail Cost-Sharing
- Standard/Preferred Retail Cost-Sharing
- Out-of-Network Pharmacy
- Standard Mail Order Cost-Sharing
- Standard/Preferred Mail Order Cost-Sharing
- Long Term Care Pharmacy

A plan should specify both standard and preferred mail order cost-sharing if it will require different cost sharing amounts at different mail order locations, even if both standard and preferred mail order pharmacies are not currently included in its network.

Unless sponsor's compliance is waived by the regulation, sponsor must comply with 42 CFR § 423.154 beginning January 1, 2013 regarding the appropriate dispensing of prescription drugs in long-term care (LTC) facilities. This section requires, among other things:

- 1) that certain drugs be dispensed to Part D enrollees in LTC facilities in no greater than 14-day increments;
- 2) that the use of uniform dispensing techniques as defined by each of the LTC facilities be permitted;
- 3) that information be collected and reported in a form and manner specified by CMS on the dispensing methodology used for each applicable dispensing event and on the nature and quantity of unused brand and generic drugs dispensed to Part D enrollees in LTC facilities;
- 4) that the total cost-sharing for a Part D drug to which the LTC dispensing requirements apply must be no greater than the total that would be imposed if the requirements did not apply; and
- 5) that the terms and conditions offered by the sponsor to a network pharmacy must include provisions that address the disposal of drugs that have been dispensed to Part D enrollees in LTC facilities but not used and returned to the pharmacy, including whether credit and reuse is authorized.

Sponsor attests that it will comply with 42 CFR 423.154.

Does plan utilize floor pricing?
 Yes
 No

Floor pricing is used when a sponsor negotiates a minimum price, such as for very low cost generics, that a pharmacy(ies) will be paid for filling a prescription.

Does plan utilize ceiling pricing?
 Yes
 No

Ceiling pricing is used when a sponsor negotiates a maximum price that a given pharmacy will be paid for a specific NDC. Ceiling pricing is often used for high cost generics.

Do you offer a free first fill (i.e. \$0 copayment) for any drugs?
 Yes
 No

Example: If your plan offers a \$0 copay for the first fill of a Lipitor prescription, you should answer 'yes' to 'Do you offer a free first fill for any drugs' and indicate the RxCUI for Lipitor in the flat file which must be uploaded through the Formulary Submission Module by Friday, June 09, 2017 at 11:59am Eastern Time.

Are there quantity limits on certain prescription drugs?
 Yes
 No

Is prior authorization required for certain prescription drugs?
 Yes
 No

Do any drugs in your formulary require a step therapy plan?
 Yes
 No

Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?
 Yes
 No

If you select "Yes" to "Do you pay for Over-the-Counter medications (OTCs) under the Utilization Management Program?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 09, 2017 at 11:59am Eastern Time.

OTC Medication Attestation statement
 Per Chapter 4 of the Medicare Managed Care Manual, an MAO cannot offer the same OTC drug under both its Part C supplemental benefit and its Part D benefit. I attest any OTC drugs that are covered under Part C are separate and distinct from OTC drugs covered under Part D.

Do you offer OTCs as a part of a formal Step Therapy Protocol submitted for review and approval by CMS?
 Yes
 No

With respect to OTCs, a Step Therapy protocol is one that requires the use of the OTC product prior to receiving a prescription formulary drug. This is in contrast to a general utilization management strategy that offers OTCs as alternatives to prescription formulary drugs but without a requirement to try the OTC first. All OTC drugs used in either a Part D Step Therapy Protocol or a general utilization management strategy must appear in an OTC supplemental file. However, only those OTCs used in a Step Therapy Protocol must be documented in the Step Therapy Criteria text files submitted with the formulary files.

Indicate number of Tiers in your Part D benefit:

Each plan must indicate one specific cost-sharing tier from its PBP at which it will adjudicate all non-formulary drugs approved through the formulary exceptions process.

What is your Formulary Exception Tier?

Although CMS generally allows Part D sponsors to apply only one level of cost sharing from an existing formulary tier to all approved formulary exceptions, sponsors may also elect to apply a second less expensive level of cost sharing for all approved formulary exceptions for generic drugs, so long as this second level is also associated with an existing formulary tier and is uniformly applied to all approved formulary exceptions for generic drugs.

Do you apply a second less expensive cost sharing level for all generic drugs approved for formulary exceptions?
 Yes
 No

What is the lower level cost sharing Formulary Exceptions Tier?

Actuarially Equivalent Benefit Screens

Medicare-defined Part D Deductible Amount

Indicate the Out-of-Network cost sharing structure for this plan:

- Standard Retail Copay/Coinsurance (No Differential)*
- Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable
- Standard Retail Copay/Coinsurance with Limited Days supply

*If a plan chooses this option and does not utilize either a differential in cost sharing or a differential in days supply for out of network coverage, CMS' expectation is that the plan is monitoring for appropriate out of network use with either a post authorization process or alternate review tool.

Alternative – Deductible

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Go To: **Alternative - Deductible**

Previous Next Exit (Validate) Exit (No Validate)

Basic/Enhanced Alternative Benefit Screens

Do you charge the Medicare-defined Part D Deductible amount?

Yes
 No, enter amount
 No Deductible

Enter Deductible Amount:

Does the Deductible apply to all tiers?

Yes
 No

Indicate each tier for which the deductible will NOT apply (select all that apply; please note that the deductible will not apply to any of the drugs on each tier selected):

Tier 1
 Tier 2
 Tier 3
 Tier 4
 Tier 5
 Tier 6

During the deductible phase, is the cost-sharing for drugs to which the deductible does not apply, the same as the Pre-ICL cost-sharing for all locations?

Yes
 No

Indicate the type of cost sharing structure for these drugs until the deductible is reached:

Coinsurance
 Copayment
 Greater of Coinsurance and Copayment
 Lesser of Coinsurance and Copayment

Enter Coinsurance percentage: Enter Copayment amount:

Indicate the Out-of-Network cost sharing structure for this plan:

Standard Retail Copay/Coinsurance (No Differential)*
 Standard Retail Copay/Coinsurance plus a differential between the OON billed charge and the Standard Retail allowable
 Standard Retail Copay/Coinsurance with Limited Days Supply

*If a plan chooses this option and does not utilize either a differential in cost sharing or a differential in days supply for out of network coverage, CMS' expectation is that the plan is monitoring for appropriate out of network use with either a post authorization process or alternate review tool.

Alternative – Enhanced Alternative Characteristics

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Go To: **Alternative - Enhanced Alternative Characteristics**

Previous **Next** **Exit (Validate)** **Exit (No Validate)**

Do you offer reduced Part D cost sharing as part of your supplemental Part D Benefit?

Yes
 No

Indicate the area(s) throughout the Part D benefit where the reduced Part D cost sharing is reflected (select all that apply):

Reduced deductible
 Reduced pre-ICL cost shares
 Raised ICL
 Reduced post-threshold cost shares

Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)? (Enhanced Alternative ONLY).

Yes
 No

If you select "Yes" to "Do you cover excluded drugs as part of your supplemental coverage (e.g., drugs used to treat erectile dysfunction)?", you must indicate these specific medications in a flat file which must be uploaded through the Formulary Submission Module by Friday, June 09, 2017 at 11:59am Eastern Time.

Do you offer additional cost-sharing reductions in the coverage gap?

Yes
 No

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2018 is 44% for generic drugs and 35% for brand drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. Thus, the gap coverage section of the PBP is only intended for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. All other benefit types will NOT enter gap coverage information in the PBP.

Additional reductions in gap cost-sharing offered by EA plans represents cost-sharing that is significantly better than the defined standard cost-sharing benefits for generic and/or brand drugs that must be offered by all plans. When offering additional cost-sharing reductions for applicable drugs in the gap, the plan liability is first applied to the plan-negotiated price followed by the manufacturer coverage gap discount for applicable beneficiaries.

Please note, the additional gap cost-sharing entered in the PBP is meant to reflect the cost-sharing experienced by the beneficiary at the point of sale. The maximum additional gap beneficiary cost-sharing for generic drugs in CY 2018 is 24%. The CY 2018 maximum additional gap cost-sharing for applicable drugs is 65%, which is inclusive of the 50% manufacturer discount. Therefore the maximum beneficiary cost-sharing that should be entered into the PBP as 27.6%. The PBP cannot accept fractions of a percent therefore the PBP entry must be rounded to reflect a whole percentage.

Example: A sponsor offers additional coverage in the gap such that the plan's liability for applicable drugs is 50%; for a drug with a plan-negotiated price of \$100, the plan liability is \$50 and the remaining \$50 will be split between the manufacturer and the beneficiary at \$25 each. By comparison, under the DS gap coverage for the same applicable drug, the manufacturer discount of 50% (or \$50) is applied first, and the beneficiary cost-sharing is 35% (or \$35) and the plan's liability is 15% (or \$15).

CY 2019 PBP Data Entry System Screens

Alternative – Mail Order Location Supply – Pre-ICL

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar (File, Help), navigation buttons (Previous, Next, Exit (Validate), Exit (No Validate)), and a "Go To:" dropdown menu currently set to "Alternative - Mail Order Location Supply - Pre-ICL".

The main data entry area is titled "Tier Label Description(s)" and contains a table for "Standard Mail Order Cost-Sharing Network Component". The table has columns for "Day Supply", "1-Month", "2-Month", and "3-Month". Each tier (Tier 1 through Tier 6) has two rows: "Standard Mail Order" and "Standard/Preferred Mail Order". Each cell in the table contains an empty input box.

Tier Label Description(s)		1-Month	2-Month	3-Month
Standard Mail Order Cost-Sharing Network Component				
Day Supply				
Tier 1	Standard Mail Order	<input type="text"/>	<input type="text"/>	<input type="text"/>
	Standard/Preferred Mail Order	<input type="text"/>	<input type="text"/>	<input type="text"/>
Tier 2	Standard Mail Order	<input type="text"/>	<input type="text"/>	<input type="text"/>

Long Term Care Pharmacy - one month supply	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Are all of the drugs on your formulary available with an extended day supply?

Yes
 No

If you select "No" to "Are all of the drugs on your formulary available with an extended day supply?", you must indicate the specific medications that will not be offered at an extended day supply in a flatfile (referred to as Non-Extended Day Supply file) which must be uploaded through the Formulary Submission Module by Friday June 09, 2017 at 11:59am Eastern Time.

Are any of the drugs available at an extended day supply limited to a 1-month supply for the first fill?

Yes
 No

When you select a 2-month and/or a 3-month supply at a retail or mail order pharmacy, you must indicate whether or not all drugs on the entire FORMULARY are available with an extended day supply.

The beneficiary cost-sharing for the Defined Standard (DS) gap coverage benefit in CY 2018 is 44% for generic drugs and 35% for brand drugs. The coverage gap discount applies to applicable drugs for all benefit types and must be reflected in each plan's bid. Thus, the gap coverage section of the PBP is only intended for those enhanced alternative (EA) plans offering additional cost-sharing reductions in the coverage gap through a supplemental Part D benefit. All other benefit types will NOT enter gap coverage information in the PBP.

File Help

Go To: Medicare Rx - Attestations

Previous Next Exit (Validate) Exit (No Validate)

Sponsors who utilize a coinsurance cost-share structure are required to enter the Average Expected Cost Sharing amount. The average expected cost share amount represents the average expected cost-sharing amount in dollars that a beneficiary would be expected to pay at a network retail pharmacy for a one month supply of drugs.

Average Expected Cost sharing Attestation:

I attest that the value(s) entered have been reviewed by the plan's certifying actuary and are accurate.

Sponsors who choose to offer a dual eligible SNP with zero dollar cost-sharing under Part D must buy down the entire 25% actuarial equivalent cost-sharing amount using MA rebate dollars in the bid. Per Chapter 13 of the Medicare Prescription Drug Benefit Manual, sponsors do not have an option of only applying MA rebate dollars to the statutory patient pay amounts and receiving federal cost-sharing subsidies for the remainder.

Zero Dollar Cost Sharing Attestation:

I attest that it is the plan sponsor's intention to buy down the entire cost-sharing amount for the zero dollar cost-share tier(s) and this has been confirmed with the plan's certifying actuary.

Medicare RX – Notes

PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000

File Help

Go To: Medicare Rx - Notes

Previous Next Exit (Validate) Exit (No Validate)

Notes:

NOTE: The Medicare Rx notes field should ONLY be used when required to clarify information that cannot otherwise be entered into the PBP. Generally, there should be little or no need to enter any information in the notes field and therefore this field should only be completed for unusual circumstances. For more information refer to the on-screen label on the Medicare Rx notes screen. This field is limited to 225 characters.

The following should not be included in the Medicare Rx Notes field:

- 1) Statements that may reduce any Part D benefits;
- 2) Redundant information that is either contained elsewhere in the PBP or in a Part D requirement;
- 3) Information concerning excluded drugs or OTC items (these must be submitted in the Excluded Drugs or OTC Supplemental files);
- 4) Statements concerning out-of-network coverage and cost-sharing; or
- 5) Information that is not related to Part D benefits.

It is the Part D sponsor's responsibility, both before and after bid approval, to ensure that the information included in the Medicare Rx notes section complies with the requirements above. Once bids are approved, additions to the notes field during the plan corrections period will not be allowed.
