Previous Next Exit (Validate) Exit (No Validate)

This section documents benefits offered under authority of the Medicare Advantage Value-Based Insurance Design model test. Plans only fill out this section if they are authorized to do so by written notification from CMS.

Does your VBID benefit include Part D reductions in cost?

Yes
 No

How many packages does your Part D VBID benefit contain?

Value Based Insurance Design Attestation

I attest that

1) the benefits entered comply with CMS requirements for benefits offered in the MA-VBID model test,

2) the benefits entered are consistent with the benefit proposals and the actuarial or financial information provided to CMS when applying to participate in the MA-VBID model test, unless otherwise approved by CMS in writing, and

3) the benefit package, formulary or other features of this plan are not structured to discriminate against any Medicare beneficiary.

When entering the maximum and minimum copayment or cost sharing for a service category, list only the VBID/MA Uniformity Flexibility in benefit's maximum and minimum for that category. Do not enter the VBID/MA Uniformity Flexibility cost sharing amount as the minimum and the non-VBID/MA Uniformity Flexibility cost sharing amount as a maximum. If there is a limit to the number of services units that qualify for VBID/MA Uniformity Flexibility cost sharing, after which the regular cost sharing amount applies, specify the limit in notes. After an enrollee reaches the limit, CMS will look to the main PBP sections for the applicable cost sharing amount.

When entering VBID/MA Uniformity Flexibility benefit packages, create a separate package for each unique targeted clinical condition group to which the organization is offering a VBID/MA Uniformity Flexibility benefit package. Even if the plan is offering otherwise identical benefits to enrollees with one of two conditions, enter those benefits in two identical packages, each time selecting a single condition. Do not select multiple conditions within a single package unless the enrollee must have all conditions in order to qualify for the benefit (a multiple co-morbidity category).

Unique packages of VBID benefits are numbered sequentially in the PBP in the order in which they are entered. Organizations offering Part D VBID benefits should use this numbering in the VBID formulary file's package number field to indicate to which corresponding VBID benefit package(s) in the PBP a drug relates.

Previous Next Exit (Validate) Exit (No Validate)

Which disease states does this apply? (Select all that apply)

- Diabetes
- Chronic Obstructive Pulmonary Disease (COPD)
- Congestive Heart Failure (CHF)
- Patient with Past Stroke
- Hypertension
- Coronary Artery Disease
- Mood Disorders
- Rheumatoid Arthritis
- Dementia
- Other CMS Approved Disease State

Are you modifying the deductible amount?

Yes
 No

Enter the modified Deductible Amount:

If selecting 'Other CMS Approved Disease State' or 'Mood Disorders,' please use the notes field to describe the selected targeted clinical condition group and the methodology used to identify beneficiaries within your targeted clinical condition, such as a list of ICD-10 codes.

A VBID Supplemental file that contains the drugs provided at reduced cost sharing for the disease(s) state(s) listed must be uploaded through the Formulary Submission Module by Friday, June 09, 2017 at 11:59am Eastern Time.

Which phase(s) of the benefit will have reduced cost sharing? (Select all that apply)

- Pre-ICL
- Coverage Gap
- Post OOP Threshold/Catastrophic

Is any of the cost sharing reduction contingent upon participation in a wellness or care management program?

Yes
 No

Is any of the cost sharing reduction contingent upon participation with a high value pharmacy network?

Yes
 No

VBID – Package Tiers – Pre-ICL

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar with "File" and "Help", and a toolbar with "Previous", "Next", "Exit (Validate)", and "Exit (No Validate)" buttons. A "Go To:" dropdown menu is set to "VBID - Package Tiers - Pre-ICL". Below the toolbar is a text input field labeled "Tier Label Description(s)". Underneath this field is a section titled "Select the tier(s) that include reduced cost sharing (select all that apply):" with a list of checkboxes for "Tier 1", "Tier 2", "Tier 3", "Tier 4", "Tier 5", and "Tier 6".

VBID – Package Tiers – Gap

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar with "File" and "Help", and a toolbar with "Previous", "Next", "Exit (Validate)", and "Exit (No Validate)" buttons. A "Go To:" dropdown menu is set to "VBID - Package Tiers - Gap". Below the toolbar is a text input field labeled "Tier Label Description(s)". Underneath this field is a section titled "Select the tier(s) that include reduced cost sharing (select all that apply):" with a list of checkboxes for Tier 1, Tier 2, Tier 3, Tier 4, Tier 5, and Tier 6.

VBID – Package Tiers – OOP Threshold

The screenshot shows a software window titled "PBP Data Entry System - Section RX, Contract X0001, Plan 001, Segment 000". The interface includes a menu bar with "File" and "Help", and a toolbar with "Previous", "Next", "Exit (Validate)", and "Exit (No Validate)" buttons. A "Go To:" dropdown menu is set to "VBID - Package Tiers - OOP Threshold". Below the toolbar is a text input field labeled "Tier Label Description(s)". The main content area contains the instruction "Select the tier(s) that include reduced cost sharing (select all that apply):" followed by a list of checkboxes for Tier 1 through Tier 6.

Tier Label Description(s)

Select the tier(s) that include reduced cost sharing (select all that apply):

- Tier 1
- Tier 2
- Tier 3
- Tier 4
- Tier 5
- Tier 6
